<i>Preface</i>	<i>vii</i>
1. Xanthelasma Palpebrarum	1
2. Periorbital Hyperpigmentation	4
3. Hyperpigmentation of the Palmar Creases	6
4. Clubbing of Fingers	7
5. Cyanosis	9
6. Clubbing with Cyanosis—TOF	11
7. Bald Tongue	12
8. Erythema of Upper Part of the Body—Chest and Face	14
9. Hand Deformity	16
10. Herpes Zoster	19
11. Post-herpetic Depigmentation	20
12. Palmar Creases	22
13. Zidovudine Nails	23
14. Pseudohypertrophy of the Calf	24
15. Wound Myiasis	25
16. Herbeden's Nodes	26
17. Dilated Veins around the Umbilicus	28
18. Buffalo Hump	30
19. Generalized Maculopapular Rash with Photosensitivity	31
20. Arcus Senilis	32
21. Complications of Tobacco use	34
22. Elephantiasis	35
23. Malar Rash	37

24. Photosensitive Rashes on the Back of the Same Patient	38
25. Pectus Excavatum	38
26. Polythelia—Accessory Nipples	39
27. Unilateral Ptosis	41
28. White Flaky Lesions in the Throat	43
29. Chylous Ascites	44
30. Bilateral Short 2nd and 3rd Metatarsals	45
31. Koilonychia (Spoonng) of Nails	46
32. Vitiligo	47
33. Barbiturate Blisters	49
34. Marked Conjunctival Congestion + Subconjunctival Hemorrhage— Leptospirosis	51
35. Multiple Bee Stings—Angioedema	53
36. Clinodactyly	56
37. Candidiasis of the Tongue	57
38. Hyperpigmentation of the Knuckles	59
39. Differential Diagnosis Hyperpigmentation of Palmar Creases	60
40. Herpes Zoster	61
41. Herpes Zoster Infection	64
42. Swellings around the Neck	66
43. Massive Parotid Swelling—Pleomorphic Adenoma	67
44. Burr Holes	68
45. Single Palmar Crease on the Right Side	70
46. Flushing of Face	71
47. Flushing of Face and Upper Body	72
48. Horner's Syndrome	77
49. Ecchymotic Patch Seen on the Right Foot with Evidence of Active and Recent Bleeding on the Right Leg	79
50. Bilateral Exophthalmos	82
51. Goiter	83
52. Anatomical Snuffbox	85

53. Lymphedema	86
54. Exanthema and Enanthema	88
55. Exanthema on the Face and Enanthema on the Lips of the Same Patient who had Chickenpox	89
56. Hand Deformities	90
57. Deformities of the Feet	91
58. Fine Horizontal Scar in the Neck	93
59. Adenoma Sebaceum	94
60. Ash Leaf Macule	96
61. Periungual Fibroma	98
62. Elephantiasis	99
63. Left Renal Angle Fullness	101
64. Left Renal Mass	102
65. Hepatomegaly with Gallbladder Enlargement	104
66. Spider Nevi	108
67. Dilated Tortuous Veins on the Chest Wall	110
68. Dilated Veins	111
69. Noonan's Syndrome	114
70. Ichthyosis	118
71. Café au lait Spots	119
72. Marfan's Syndrome—Arachnodactyly	120
73. Marfan's Syndrome	122
74. Cardiomegaly	125
75. Walking Man Sign	126
76. Normal Vertical Alignment of the Right (Superior) and the Left (Inferior) Bronchi. No Walking Man's Sign	127
77. Gum Hyperplasia	128
78. Chipmunk Facies in Thalassemia	129
79. Bilateral Ptosis with Dysphagia	133
80. Differential Diagnosis of Bilateral Ptosis with Dysphagia	133
81. Approach to Bilateral Acquired Ptosis	133

82. Bell's Phenomenon	134
83. Brachydactyly of 4th Toe Bilateral	136
84. Depressed Lesion on the Sternum	138
85. Autoamputation of Fingers	139
86. Depigmentation of the Tongue	140
87. Single Transverse Palmar Crease	142
88. Depigmentation of Lips, Nose, Face	144
89. Vitiligo Involving the Hand	146
90. Ascites with Gynecomastia and Spider Nevus	147
91. Imminent Carpal Spasm in Left Hand	150
92. Black Nail—Right Thumb	152
93. Ascites with Umbilical Hernia	153
94. Skin Lesions and Mucosal Lesions	155
95. Hemorrhagic Lesions on the Palm	156
96. Hemorrhagic Lesions on Soles	157
97. Polydactyly	158
98. Bilateral Gynecomastia with Spider Nevi	162
99. Partial Hanging—Healing Stage	165
100. Botulism	166
101. Rashes on the Trunk	169
102. Elephantiasis Right Foot	170
103. Bleeding from the Mouth	171
104. Discoloration of Half the Nail of Thumb	172
105. A Man using Tobacco Snuff	173
106. Plexiform Neurofibroma	174
107. Excessive Bruisability or Bleeding Tendency	175
108. Elephantiasis of the Scrotum	177
109. Subconjunctival Hemorrhage	178
110. Red Colored Nail due to Fungal Infection	179
111. Gingival Hyperplasia	181
112. Peau d'orange Appearance	182

113. Increased Interdigital Space between Great Toe and 2nd Toe	183
114. New Names for Old Diseases	184
115. Differential Diagnosis: Hemorrhagic Lesions on the Sole of the Foot	185
116. Gum Hyperplasia with Gum Bleeding	186
117. Bilateral Gynecomastia	187
118. Tall Stature in Hypogonadism	188
119. Varicose Veins Seen in a Patient of Klinefelter's Syndrome	189
120. Carrying Angle	190
121. Arcus Senilis and Bilateral Cataracts	193
122. Mass in the Pharynx—Possibly Enlarged Tonsil	194
123. Subcutaneous Nodule in the Neck	195
124. Differential Diagnosis: Subcutaneous Nodules	196
125. Hemochromatosis—CRF (Patient of CRF on Hemodialysis)	197
126. Unilateral Ptosis—Right Side	198
127. Purpuric Rashes	200
128. Bleeding Tendency	203
129. Isolated XII Nerve Palsy	204
130. Differential Diagnosis: Single Transverse Palmar Crease	205
131. Target Lesions of Erythema Multiforme	205
132. Ulcer on the Tongue	206
133. Leonine Facies	207
134. Lepa Nodules on Forearm and Elbow	208
135. Lepa Nodules on Wrist and Hand	209
136. Clubbing	212
137. Gynecomastia and Spider Nevus	215
138. White Spots—Precursors of Spider Nevi	216
139. Onychomadesis	217
140. The Third Mogul Sign	219
141. A Large Goiter	220
142. Syndactyly	226
143. Syndactyly Associated with Transverse Palmar Crease	227

144. X-ray Features of a Large Long-Standing Goiter	228
145. Pancreatic Calcification	232
146. Unilateral Red Eye	235
147. Unilateral Consolidation with Paratracheal Lymph Nodes Enlarged	236
148. Prominent Vessel on the Left Temple	238
149. Elevated Right Hemidiaphragm and A Small Pleural Effusion	239
150. Lateral View of the Same Patient	241
151. Calcifications Related to the Cardiac Shadows	242
152. Mediastinal Mass	243
153. Lateral View of the Same Patient	245
154. Sequellae of Tuberculosis Associated with COPD	246
155. Same Patient—Right Lateral View	248
156. Surgical Emphysema and Mediastinal Emphysema	249
157. Tetany, Carpal Spasm and Trousseau's Sign	252
158. Bilateral Hilar Adenopathy	254
159. Bilateral Gynecomastia and Spider Nevi	255
160. Vitiligo	257
161. An Excellent X-ray for Developing Skills of Observation	258
162. Diffuse Bilateral Parenchymal Shadows	259
163. Acute Pulmonary Edema—Predominantly Interstitial Edema	261
164. Aortic Aneurysm with Calcified Thrombus and Wall Calcification	263
165. Luftsichel Sign	267
166. Coarctation of the Aorta—Rib Notching	269
167. Barium Swallow in Coarctation of the Aorta	272
168. Mucosal Lesions in Drug Reaction	274
169. Wow! What is it?	275
170. Left Atrial Enlargement	276
171. Giant (Aneurysmally Dilated) Left Atrium	277
172. Third Mogul Sign—LV Aneurysm	278
173. Free Air in the Pericardial Cavity—Pneumopericardium	279
174. Westermark's Sign—Acute Pulmonary Embolism	280
