Preface

v

Part 1 Specific Uncommon Symptomatic Cases

Case 1. Chiasmal Lesions 3

- Pituitary Adenoma 5
- Pituitary Adenocarcinoma 6
- Pituitary Metastatic Tumors 6
- Craniopharyngioma 8
- Suprasellar Meningioma
(Dural Endothelioma) 9
- Glioma of the chiasma 9
- Chiasmal Neuritis 10
- Chiasmal Arachnoiditis
(Chiasmal Syndrome) 10
- Supraclinoid Aneurysms
(Aneurysm of Internal Carotid Artery) 11
- Visual Field Defects in
Chiasmal Lesions 12

Case 2. Ophthalmoplegia 15

- Congenital External Ophthalmoplegia 17
- Congenital Total Ophthalmoplegia 18
- Bilateral Acquired Complete
External Ophthalmoplegia 18
- Bilateral Acquired Total
Ophthalmoplegia 18
- Unilateral Ophthalmoplegia of
Varying Degree 18
- Ophthalmoplegia due to
Nasopharyngeal Carcinoma 18
- Orbital Apex Syndrome
(Posterior Osteoperiostitis) 19
- Collier's Sphenoidal Palsy 19
- Sphenoidal Fissure Syndrome 19
- Pseudotumor of Orbit (Idiopathic
Orbital Inflammatory Disease) 19
- Tolosa-Hunt Syndrome 20
- Hypophyseosphendoidal
Syndrome 20

- Petrosphenoidal Syndrome 20
- Recurrent Oculomotor Palsy 20

Case 3. Sixth Nerve Paralysis— Right Eye 21

- At the Origin 21
- In the Posterior Cranial Fossa 21
- In the Cavernous Sinus 22
- In the Superior Orbital
Fissure 22
- In the Orbit 22

Case 4. Carotid-Cavernous Aneurysm 26

- Traumatic Communication 26
- Spontaneous Communication 26
- Mechanism of Pulsating Proptosis 27

Case 5. Cavernous Sinus Thrombophlebitis 28

Case 6. Orbital Hemorrhage 30

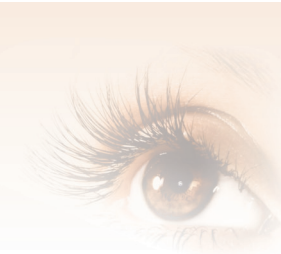

- Due to Systemic Diseases 30
- Due to Venous Congestion 30
- Due to Direct Trauma 30

Case 7. Lid Nodule Carcinoma 32

- Squamous Cell Carcinoma 33
- Basal Cell Carcinoma
(Rodent Ulcer: Basiloma) 33

Case 8. Keratic Precipitates 35

Case 9. Rubeosis Iridis 37

Case 10. Traumatic Hyphema	39	Case 16. Carcinoma of Paranasal Sinuses	64
Secondary Hemorrhage (Rebleeding)	40	Carcinoma of Maxillary Antrum	64
Secondary Glaucoma	40	Carcinoma of Frontal Sinus	64
Angle Recesson Glaucoma	41	Carcinoma of Ethmoid Sinus	65
Hemolytic Glaucoma	41	Carcinoma of Sphenoid Sinus	65
Ghost Cell Glaucoma	41		
Peripheral Anterior Synechia	41	Case 17. Orbital Cephalocele	66
Optic Atrophy	41	Anterior Orbital Cephalocele	66
Blood Staining of the Cornea	42	Posterior Orbital Cephalocele	66
Case 11. Chemical Burn Injury of the Eyes	45	Case 18. Nasopharyngeal Tumors	67
Sulphuric Acid Burn Injury	46	Fibroma	67
Ammonium Hydroxide Burn Injury (NH ₄ OH—Liquor Ammonia)	47	Carcinoma	67
Calcium Hydroxide Burn Injury (Slaked Lime Burn Injury)	49	Sarcoma	67
		Plasmocytoma and Myeloma	68
Case 12. Alcohol Intoxication (Ethyl Alcohol Intoxication)	52	Case 19. Dacryoadenitis	69
Visual Disturbances	53	Acute Dacryoadenitis	69
Self-management	54	Chronic Dacryoadenitis	70
Blood Alcohol Testing	54	Case 20. Regenerative Ophthalmology: Stem Cell Treatment—A Paradigm Shift	71
Case 13. Methyl Alcohol Intoxication (Wood Spirit Amblyopia)	58	Characteristics of Stem Cells	71
Methyl Alcohol Amblyopia	58	Classification of Stem Cells	71
		Cells Best Suited for Clinical Transfers	71
Case 14. Glioma of Optic Nerve	60	Division of Stem Cells	72
		Stem Cell Treatment—A Conceptual Change: Paradigm Shift	72
Case 15. Orbital and Paraorbital Cysts	62	Indications	72
Dermoid Cyst	62	Indication for Ophthalmic Malady	72
Hydatid Cyst of Orbit (Echinococcosis)	63	Protocols for Harvesting Stem Cells	73
		Stem Cell Banking	74
		Guidelines: Stem Cell Policy	74
		Stem Cells Futuristic Science	74

Part 2

Specific Common Symptomatic Cases

Case 21. Crab Louse Infestation of Lashes	77	Herpes Zoster	80
		Warts	81
Case 22. Viral Inflammation (Vesicles) of Lids	79	Molluscum Contagiosum	81
Vaccinia	79	Measles	82
Herpes Simplex	80	Chickenpox	82
		Case 23. Lid Edema	83
		Lymphedema	84
		Allergic and Vascular Edema	84

Eczematous Dermatitis 85
Cellulitis and Abscess of
the Lids 85
Hordeolum Externum (Stye) 86
Hordeolum Internum (Acute
Meibomitis) 86

Dislocation in the Anterior
Chamber 104
Dislocation in the
Vitreous 104
Complications of Dislocation of
the Lens 105

**Case 24. Posterior Vitreous
Detachment 88**

Case 25. Quinine Amblyopia 90

Case 26. Tobacco Amblyopia 92

**Case 27. Chloroquine Retinopathy
(Bull's Eye Maculopathy) 94**

Case 28. Vossius' Ring 97

**Case 29. Recurrent Corneal
Erosions 98**

Case 30. Epibulbar Dermoid 100

**Case 31. Anterior Ring Staphyloma
of Sclera 101**

Localized Anterior
Staphyloma 101
Clinical Features and
Management 102

Case 32. Luxation of Lens 103

Lens Incarcerated (Hanging) in
the Pupillary Area 104

Case 33. Temporal Arteritis 106

**Case 34. Subconjunctival
Ecchymosis 108**

**Case 35. Capillary Angioma of
Left Lid and Face 110**

Port wine Stains 110
Strawberry Mark 110

**Case 36. Ecchymosis of
Lids 111**

Case 37. Vitreous Hemorrhage 113

Case 38. Solar Photophthalmia 115

Eclips Blindness 115
Snow Blindness 116

**Case 39. Industrial Photophthalmia
(Arc Eye, Flash-Eye) 118**

**Case 40. Plexiform Neurofibroma
of Lid 120**

Part 3

Common Spot Diagnostic Cases

Case 41. Congenital Cystic Eyeball 123

**Case 42. Anophthalmos/
Microphthalmos 124**

Microphthalmos 124

Case 43. Epicanthus 126

Treatment 127

Case 44. Epibulbar Dermoid 128

Case 45. Orbital Emphysema	129	Case 48. Jaw Winking Ptosis (Marcus Gunn's Phenomenon)	134
		<i>Jaw Winking Phenomenon</i>	<i>134</i>
Case 46. Simple Coloboma of Iris (Iridoschisma)	130	Case 49. Albinotic Eye	136
Case 47. Oxycephaly (Acrocephaly, Tower Skull, Turricephaly)	132	Case 50. Buphthalmos	138
		<i>Clinical Features and Management</i>	<i>138</i>
		<i>Index</i>	<i>141</i>
