<i>Preface</i>	<i>xi</i>
----------------------	-----------

UNIT 1 INTRODUCTION TO PHARMACOLOGY 1

Chapter 1 The Evolution of Medicinal Drugs...3

The History of Medicinal Drugs	3
Early Remedies	3
Drugs in the Middle Ages	4
Drugs in the Modern Age	5
American Pharmacology.....	5
Twentieth-Century Pharmacology.....	6
Present-Day Pharmacology Practice.....	7
The Pharmacist and Pharmacy Technician	7
Medicinal Drugs.....	8
Drug Origins and Sources	8
Drug Names and Classifications.....	9
Alternative Medicine.....	10
Drug Legislation and Regulation.....	10
The Food and Drug Administration (FDA).....	11
Controlled Substances Act.....	11
Drug Testing, Approval, and Removal from the Market	12
Clinical Trials	13
The FDA Approval Process.....	13

Postmarketing Surveillance	14
Removing Drugs from the Market.....	14
Generic Drugs	15
OTC Drugs	15
FDA Food Health Claims.....	16

<i>Chapter Terms</i>	17
<i>Chapter Summary</i>	19
<i>Chapter Review</i>	20

Chapter 2 Basic Concepts of Pharmacology...23

Receptors	23
Mechanisms of Drug Action	24
Pharmacokinetics	24
Pharmacokinetic Processes	24
Absorption.....	24
Distribution.....	26
Metabolism	26
Elimination	27
Important Pharmacokinetic Parameters.....	27
Pharmacokinetic Modeling.....	29
Drug Effects	29
Beneficial Responses.....	30
Side Effects	30
Allergic Responses.....	30
Drug Dependence, Addiction, Abuse, and Tolerance	30
Drug Interactions.....	31

Chapter Terms	32
Chapter Summary.....	34
Chapter Review.....	35

Chapter 3 Dispensing of Pharmacologic Agents39

The Prescription	39
“Rights” for Correct Drug Administration.....	41
Dosage Forms and Routes of Administration	42
Peroral (PO) Routes	43
Parenteral Routes.....	43
Topical Routes.....	45
Factors That Influence Drug Action	45
Special Considerations in Elderly Patients.....	46
Changes in Physiologic Function.....	46
Altered Drug Responses.....	47
Special Considerations in Pediatric Patients.....	48
Immunization	49
Endogenous Chemicals That Affect Drug Action and Response	50
Histamine	50
The Allergic Response.....	51
Allergic Diseases	53
Drug Therapy for Allergies.....	53
Prostaglandins.....	54
Endocrine System Actions.....	54
Cardiovascular System Actions.....	54
Gastrointestinal System Actions.....	54
Pulmonary System Actions	54
Inflammatory Actions	54
Bradykinin	55
Teaching Patients Medication Management	55

Chapter Terms	58
Chapter Summary.....	60
Chapter Review.....	62

UNIT 2 ANTI-INFECTIVES65

Chapter 4 Antibiotics67

Fighting Bacterial Infections.....	67
Types of Bacteria.....	68
Symptoms of Bacterial Infections	68
Antibiotic Treatment and Action.....	69
Antibiotic Side Effects and Dispensing Issues	69
Antimicrobial Resistance.....	70
Classes of Antibiotics.....	70
Sulfonamides	70
Therapeutic Uses of Sulfonamides	71

Sulfonamides’ Side Effects and Dispensing Issues	71
Penicillins	71
Therapeutic Uses of Penicillins.....	72
Penicillins’ Side Effects and Dispensing Issues.....	72
Resistance to Penicillins.....	73
Cephalosporins.....	74
Therapeutic Uses of Cephalosporins.....	75
Cephalosporins’ Side Effects and Dispensing Issues.....	75
Structurally Related Drugs	75
Tetracyclines	76
Therapeutic Uses of Tetracyclines.....	76
Tetracyclines’ Side Effects and Dispensing Issues.....	76
Macrolides	77
Therapeutic Uses of Macrolides.....	77
Macrolides’ Side Effects and Dispensing Issues.....	77
Ketolides.....	78
Quinolones	78
Therapeutic Uses of Quinolones.....	78
Quinolones’ Side Effects and Dispensing Issues.....	78
Streptogramins	79
Aminoglycosides	79
Cyclic Lipopeptides	80
Antibiotics Independent of Classes	80
Vancomycin (Vancocin)	80
Chloramphenicol (Chloromycetin)	81
Clindamycin (Cleocin)	81
Metronidazole (Flagyl).....	82
Pentamidine (NebuPent, Pentam).....	82
Linezolid (Zyvox).....	82
Treating Complications of Infections	83

Chapter Terms	84
Chapter Summary.....	86
Drug List.....	90
Chapter Review.....	92

Chapter 5 Therapy for Fungi and Viruses.....97

Fungi and Their Characteristics.....	97
Fungal Diseases.....	97
Antifungals	98
Viruses and Their Characteristics.....	100
Stages of Viral Infection.....	101
Viral Classification	101
Viral Duration and Severity	102
Viral Infection.....	102
Latent Viruses.....	102
Virus and Cell Interaction.....	102
Vaccination.....	102
Antivirals.....	103

Systemic Agents.....	104
Ocular Agent	105
Antiretrovirals	105
Nucleoside Reverse Transcriptase Inhibitors (NRTIs)	105
Non-Nucleoside Reverse Transcriptase Inhibitors (NNRTIs)	107
Nucleotide Reverse Transcriptase Inhibitors (NtRTIs)	107
Protease Inhibitors (PIs)	108
Fusion Inhibitors.....	109
Responding to Exposure to HIV	109
Combining Antiretrovirals.....	110
<i>Chapter Terms</i>	111
<i>Chapter Summary</i>	113
<i>Drug List</i>	115
<i>Chapter Review</i>	116

UNIT 3 NARCOTIC PAIN RELIEVERS, NEUROLOGICALS, AND PSYCHIATRIC DRUGS119

Chapter 6 Anesthetics, Analgesics, and Narcotics121

The Nervous System	121
The Central Nervous System.....	121
The Peripheral Nervous System.....	122
The Autonomic Nervous System.....	122
The Somatic Nervous System	122
Major Neurotransmitters	123
Drug Effects on the Nervous System.....	123
Anesthesia.....	124
General Anesthetics	125
Preanesthetic Medications	125
Malignant Hyperthermia	126
Inhalant Anesthetics	126
Injectable Anesthetics	127
Antagonists	128
Neuromuscular Blocking Agents.....	129
Agents to Reverse Neuromuscular Blocking Agents.....	130
Local Anesthetics.....	130
Pain Management	132
Narcotics and Opiates	133
Addiction and Dependence	135
Combination Drugs for Managing Pain	136
Narcotic Analgesics	136
Migraine Headaches.....	138
Triptans—Selective 5-HT Receptor Agonists	140
Ergot Preparations	141
Antiemetic Agents.....	141

Opioid Analgesic	142
Other Antimigraine Agents	142
<i>Chapter Terms</i>	143
<i>Chapter Summary</i>	145
<i>Drug List</i>	147
<i>Chapter Review</i>	149

Chapter 7 Antidepressants, Antipsychotics, Antianxiety Agents, and Alcoholism153

Antidepressants	153
Selective Serotonin Reuptake Inhibitors (SSRIs)	154
Cyclic Antidepressants	155
Monoamine Oxidase Inhibitors (MAOIs)	156
Other Antidepressants.....	157
Drugs Used in Bipolar Disorders.....	158
Antipsychotics	159
Antipsychotics' Side Effects	161
Atypical Antipsychotics' Dispensing Issues	162
Antianxiety Agents	163
Panic Disorders.....	164
Pathophysiology of Panic Disorders	165
Treatment of Panic Disorders.....	165
Sleep Disorders.....	165
Stages of Sleep	166
Narcolepsy	166
Treatment of Sleep Disorders.....	166
Alcoholism	168
Alcohol's Effects on Metabolism and Excretion.....	169
Symptoms of Dependence on and Withdrawal from Alcohol.....	169
Alcohol Antagonists.....	169

<i>Chapter Terms</i>	172
<i>Chapter Summary</i>	173
<i>Drug List</i>	175
<i>Chapter Review</i>	177

Chapter 8 Anticonvulsants and Drugs to Treat Other CNS Disorders181

Epilepsy	181
Seizures.....	181
Partial Seizures.....	182
Generalized Seizures.....	183
Status Epilepticus.....	183
Antiepileptic Drug Therapy	183
Parkinson's Disease	189
Physiology of Parkinson's Disease	189

Parkinson's Disease Drug Therapy	190
Other CNS Disorders	193
Myasthenia Gravis	193
Attention-Deficit Hyperactivity Disorder (ADHD) and Attention-Deficit Disorder (ADD)	195
Amyotrophic Lateral Sclerosis (ALS)	196
Multiple Sclerosis (MS)	197
Alzheimer's Disease	197
<i>Chapter Terms</i>	199
<i>Chapter Summary</i>	201
<i>Drug List</i>	203
<i>Chapter Review</i>	204

UNIT 4 RESPIRATORY, GI, RENAL, AND CARDIAC DRUGS207

Chapter 9 Respiratory Drugs	209
Asthma	209
The Asthmatic Response	210
Goals of Asthma Care and Management of the Disease	211
Asthma Drug Therapy	212
Bronchodilators	214
Xanthine Derivatives	217
Leukotriene Inhibitors	217
Corticosteroids	217
Mast Cell Stabilizers	219
Monoclonal Antibody	219
Combination Drug	219
Emphysema and Chronic Bronchitis	219
Other Lung Diseases	221
Pneumonia	222
Cystic Fibrosis (CF)	222
Respiratory Distress Syndrome (RDS)	222
Tuberculosis (TB)	223
Histoplasmosis	225
Cough and Cold	225
Antitussives	226
Expectorants	228
Decongestants	228
Therapeutic Uses of Decongestants	230
Decongestants' Side Effects and Dispensing Issues	230
Antihistamines	231
Therapeutic Uses of Antihistamines	231
Antihistamines' Side Effects and Dispensing Issues	232
Smoking Cessation	232
Planning to Stop Smoking	233
Smoking Cessation Drug Therapy	234

<i>Chapter Terms</i>	236
<i>Chapter Summary</i>	238
<i>Drug List</i>	241
<i>Chapter Review</i>	243

Chapter 10 Gastrointestinal Drugs and Related Diseases247

Structure and Function of the Gastrointestinal System	247
Gastrointestinal Diseases	248
Gastroesophageal Reflux Disease (GERD)	248
Pharmacologic Treatment of GERD	249
Antacids	251
Histamine ₂ Receptor Antagonists	251
Proton Pump Inhibitors	251
Combinations	252
Coating Agent	252
Prostaglandin E Analog	252
Cholinergic Agent	252
Peptic Disease	252
Gastric Ulcers	252
Duodenal Ulcers	253
Stress Ulcers	253
Drug-Induced Ulcers	253
Pharmacologic Treatment of <i>H. Pylori</i>	253
Pharmacologic Treatment of Gastrointestinal Diseases	254
Mast Cell Stabilizer	254
Pancreatic Enzyme	255
Immunosuppression	255
Monoclonal Antibody	255
Anti-inflammatories	256
Gallstone Dissolution	257
Antiemetic	257
Diarrhea	257
Fiber, Constipation, and Related GI Diseases	259
Fiber Supplementation	260
Pharmacologic Treatment of Constipation	261
Osmotic Laxatives	261
Saline Laxatives	262
Irritants/Stimulants	262
Surfactants	262
Bulk-Forming Agents	262
Antiflatulent	262
Bowel Evacuants	262
5-HT Receptor Agonist	263
Other GI Diseases	263
Diverticular Disease	263
Hiatal Hernia	264
Irritable Bowel Syndrome (IBS)	264
Hemorrhoids	264
Nausea and Vomiting	264

Obesity	266
Stimulants	268
Lipase Inhibitor	268
Fiber Agents	269
Parasites	269
Types of Intestinal Parasites	269
Ascarides	269
Flatworms (Platyhelminthes)	270
Roundworms (Nematodes)	270
Antiparasitic Drugs	270
Malaria	271
Protozoan Infections	272
Hepatitis	273
Types of Hepatitis	273
Pharmacologic Treatment and Prevention of Hepatitis	274
Chapter Terms	276
Chapter Summary	278
Drug List	281
Chapter Review	283

Chapter 11 Urinary System Drugs287

Renal Function and Disease	287
Stages of Renal Disease	288
Causes of Renal Failure	289
Prerenal Events	289
Intrarenal Events	289
Postrenal Events	290
Renal Drug Therapy	290
Renal Transplants	292
Drugs for the Urinary Tract	292
Urinary Problems	293
Urinary Tract Infections	294
Benign Prostatic Hyperplasia	295
Diuretics	298
Chapter Terms	301
Chapter Summary	302
Drug List	303
Chapter Review	304

Chapter 12 Cardiovascular Drugs309

The Cardiovascular System and Causative Factors of Cardiovascular Disease	309
Antiarrhythmics	311
Normal and Abnormal Heart Rates and Rhythms	311
Pharmaceutical Treatment of Abnormal Heart Rates and Rhythms	313
Membrane Stabilizing Agents (Class I)	314

Beta Blockers (Class II)	316
Potassium Channel Blockers (Class III)	316
Calcium Channel Blockers (Class IV)	316
Other Agents	317
Drugs for Congestive Heart Failure (CHF)	317
Antiarrhythmic	318
Vasodilators	319
ACE Inhibitors	319
Angiotensin II–Receptor Antagonists	320
Human B-type Natriuretic Peptide (hBNP)	320
Myocardial Infarction (MI)	320
Causes of a Heart Attack	320
Symptoms of a Heart Attack	321
Myocardial Drug Therapy	321
Angina	322
The Symptoms and Risk Factors of Angina	322
Antianginal Drugs	323
Nitrates	323
Calcium Channel Blockers	324
Beta Blockers	324
Hypertension	324
Untreated Hypertension	325
Hypertension Therapy	325
Antihypertensive Therapeutics	325
Diuretics	328
Selective Aldosterone Blocker	328
Calcium Channel Blockers	328
ACE (Angiotensin-Converting Enzyme) Inhibitors	328
Angiotensin II–Receptor Antagonists	328
Beta Blockers	328
CNS Agents	329
Peripheral Acting Agents (Alpha Blockers)	329
Vasodilators	329
Combination Drugs	330
Anticoagulants, Antiplatelets, and Fibrinolytics	330
Anticoagulant Agents	331
Antiplatelet Agents	333
Fibrinolytic Agents	334
Stroke	335
Causes of Stroke	335
Ischemic Stroke	335
Cerebral Hemorrhage	335
Risk Factors for Stroke	336
Stroke Management	336
Antiplatelet Agents	337
Anticoagulant and Fibrinolytic Agents	337

Side Effects and Dispensing	
Issues for TIA and Stroke	
Prevention Agents	337
Hyperlipidemia	338
Causes and Treatment of	
Hyperlipidemia	338
Lipid-Lowering Agents	340
HMG-CoA Reductase Inhibitors	341
Fibric Acid Derivatives	342
Bile Acid Sequestrants	342
Other Cholesterol-Lowering	
Agents	343
Combinations	343
Chapter Terms	344
Chapter Summary	346
Drug List	350
Chapter Review	352

UNIT 5 MUSCLE RELAXANTS, NONNARCOTIC ANALGESICS, HORMONES, AND TOPICALS.....357

Chapter 13	
Muscle Relaxants, Nonnarcotic	
Analgesics, and Anti-	
Inflammatories	359
Muscle Relaxants	359
Nonnarcotic Analgesics	361
Salicylates	362
Antipyretic Analgesic	364
Mixed Analgesics	364
Drugs for Arthritis and Related Disorders	364
Forms of Arthritis	364
NSAIDs	366
Conventional NSAIDs	367
COX-2 Inhibitors	369
Other Drugs Used to Treat	
Rheumatoid Arthritis	370
Disease-Modifying Antirheumatic	
Drugs (DMARDs)	370
Drugs for Gouty Arthritis	372
Chapter Terms	373
Chapter Summary	374
Drug List	377
Chapter Review	378

Chapter 14	
Hormones	383
Thyroid Hormones	383
Hypothyroidism	384

Hyperthyroidism	387
Adrenal Sex Hormones and Male	
Impotence	388
Female Reproductive Process Agents	391
Estrogen	391
Progestins	394
Contraceptives	394
Home Pregnancy Tests	398
Drugs Used at Birth	399
Drugs for Bone Diseases	399
Sexually Transmitted Diseases	402
Gonorrhea	402
Syphilis	403
Primary-Stage Infection	403
Secondary-Stage Infection	403
Tertiary-Stage Infection	404
Congenital Syphilis	404
Nongonococcal Urethritis (NGU)	404
Lymphogranuloma Venereum	404
Genital Herpes	404
Candidiasis	404
Vaginitis	404
Agents for Sexually Transmitted	
Diseases	405
Corticosteroids	406
Hypoglycemic Agents	408
Types of Diabetes	408
Symptoms and Complications of	
Diabetes	409
Lack of Insulin Activity	409
Treating Diabetes	410
Insulin	411
Oral Hypoglycemic Agents	413
First-Generation Sulfonylureas	414
Second-Generation Sulfonylureas	414
Enzyme Inhibitors	414
Biguanides	415
Glitazones/Thiazolidinediones	415
Meglitinides	415
Combinations	415
Growth Hormone	416
Chapter Terms	418
Chapter Summary	420
Drug List	423
Chapter Review	425

Chapter 15	
Topicals, Ophthalmics,	
and Otics	431
Structure and Function of Skin	431
Ultraviolet Radiation, Phototoxicity, and	
Photosensitivity	432
Disorders of the Skin and Agents to	
Treat Them	435
Disorders of the Sebaceous Glands	435

Wrinkles	437
Allergic and Inflammatory Reactions	438
Psoriasis.....	439
Viral Infections	440
Dandruff	441
Unwanted Facial Hair.....	441
Actinic Keratosis	441
Fungal Infections	442
Skin Infections and Antibiotics	443
Common Skin Infections	443
Antibiotics to Treat Skin Infections	444
Topical Corticosteroids	445
External Parasites	446
Human Lice	446
Scabies.....	449
Antiseptics and Disinfectants.....	450
Ophthalmics	453
CMV Retinitis	455
Age-Related Macular Degeneration (AMD)	455
Chronic Dry Eye	456
Conjunctivitis	456
Glaucoma.....	457
Otics	458
<i>Chapter Terms</i>	461
<i>Chapter Summary</i>	463
<i>Drug List</i>	465
<i>Chapter Review</i>	468

UNIT 6 CHEMOTHERAPY AND NUTRITIONAL AND ALTERNATIVE SUBSTANCES.....471

Chapter 16 Recombinant Drugs and Chemotherapy.....473

Recombinant DNA	473
Proteins.....	473
Recombinant Process for Manufacturing Protein	474
Economic Challenges	476
Recombinant DNA Drugs	476
Colony-Stimulating Factors.....	476
Biologic-Response Modifiers.....	478
Fibrinolytic Agent	478
Secretion-Thinning Enzyme.....	479
Hematologic Agent	479
Immune System.....	479
Immune System Cells	480
Immunoglobulins.....	481
IgG	481
IgM.....	481

IgA	481
IgE	481
IgD	481
Humoral Immunity	481
Cellular Immunity	482
Lymphatic System	482
Antirejection Drugs.....	484
Hypersensitivity.....	485
Type I Reactions	486
Type II Reactions	486
Type III Reactions	486
Type IV Reactions	486
Neoplastic Disease (Cancer)	487
Agents for Chemotherapy.....	488
Alkylating Agents	490
Antibiotics	490
Antimetabolites	491
Hormones	491
Nitrogen Mustards.....	492
Plant Alkaloids	492
Topoisomerase I Inhibitors	492
Miscellaneous Agents	492
Cytoprotective (Rescue) Agents	493
Biologic-Response Modifiers	494
Interferon.....	494
Interleukin-2	494
Tumor-Necrosis Factor	494
Monoclonal Antibodies	494
Complications of Cancer and Chemotherapy	495
Pain	495
Nausea and Vomiting.....	495
Oral Complications	496
Breast Cancer	497

<i>Chapter Terms</i>	499
<i>Chapter Summary</i>	501
<i>Drug List</i>	503
<i>Chapter Review</i>	505

Chapter 17 Vitamins, Nutritional and Alternative Supplements, Antidotes, and Emergencies509

Vitamins, Fluid Levels, and Electrolytes	509
Vitamins	509
Fat-Soluble Vitamins	509
Water-Soluble Vitamins	510
Body Fluids	512
Extracellular Volume Deficit	512
Extracellular Volume Excess	513
Electrolytes.....	513
Sodium (Na ⁺)	513
Potassium (K ⁺)	513
Calcium (Ca ⁺⁺)	513
Chloride (Cl ⁻)	514

Hydrogen (H ⁺)	514
Magnesium (Mg ⁺⁺)	514
IV Therapy	514
Enteral Nutrition	515
Total Parenteral Nutrition	515
Malnutrition	516
Indications for Total Parenteral	
Nutrition	517
Complications of Total Parenteral	
Nutrition	517
Preparing Total Parenteral Nutrition	
Solutions	517
Alternative Supplements	520
Alternative Supplement Safety Issues.....	520
Most Commonly Used Alternative	
Supplements	522
Poisons and Antidotes.....	525
Common Routes of Poisoning.....	525
Supportive Therapy	526
Gastric Lavage.....	526
Pharmacologic Antagonists	
(Antidotes).....	526
Antivenoms.....	528
Supportive Drugs.....	528
Clinically Significant Drug-Food	
Interactions	529
CODE Blue Emergencies.....	529
Agents for Cardiac Emergencies.....	530
Bioterrorism	532
Bacterial Diseases with Potential	
for Bioterrorism	532
Anthrax	533
Plague.....	533

Tularemia	533
Smallpox	533
Viral Hemorrhagic Fevers (VHFs) ...	533
Toxins	533
Preparations	533

<i>Chapter Terms</i>	535
<i>Chapter Summary</i>	537
<i>Drug List</i>	539
<i>Chapter Review</i>	541

Appendix A	
Most Commonly Prescribed	
Drugs	545

Appendix B	
Look-Alike, Sound-Alike	
Medication Recommendations	
and Reference Table.....	553

Appendix C	
Abbreviations	563

Appendix D	
Greek Alphabet	566

Appendix E	
Lab Values.....	567

Glossary	569
-----------------------	------------

Index.....	585
