

Contents

<i>Preface</i>	<i>iii</i>
1. Introduction	1
2. History of Mushroom Production	3
3. History of Mushroom Cultivation in India	5
4. Mushroom Research Stations in India	8
5. Scope of Mushroom Cultivation	9
6. Biology of Mushrooms	11
7. Classification of Mushroom	16
8. Edible Mushrooms	21
9. Identification of Edible Mushrooms	23
10. Poisonous Mushrooms	25
11. Mushroom Poisoning	27
12. Pure Culture Preparation of Mushroom	29
13. Strain Development	33
14. Mushroom Farm Layout	35
15. Spawn Production	39
16. Compost and Composting Process	44
17. Casing	51
18. Cultivation Technology of the White Button Mushroom (<i>Agaricus Bisporus</i>)	55
19. Cultivation of Oyster Mushroom	59
20. Cultivation of Paddy Straw Mushroom	64
21. Cultivation of Shiitake Mushroom	69
22. Cultivation of Wood Ear Mushrooms	72
23. Cultivation of Ganoderma Lucidum	74

24. Cultivation of <i>Agrocybe Aegerita</i>	76
25. Cultivation Technology of Milky Mushroom	77
26. Factors Influencing Mushroom Growth	80
27. Nutritive Value of Mushrooms	82
28. Post-Harvest Handling	86
29. Mushroom Recipes	90
30. Mushroom Diseases	98
31. Mushroom Abnormalities and Competitor Mushrooms	105
32. Insect and Pest of Mushrooms	112
33. Economics of Mushroom Cultivation	117
34. Environmental Impact on Mushroom Cultivation	121
35. Medicinal Values of Mushrooms	124
<i>Glossary</i>	128
