Preface	v
1. Problems of Soil Erosion and Achievements in India	1
1.1 Problems	1
1.2 Achievements	1
1.3 Programme	4
1.4 National Land Resource Regions	11
2. Prerequisites for Soil & Water Conservation Measures	20
2.1 Physiography	20
2.2 Soils	22
2.3 Vegetative Cover	24
2.4 Present Land Use and Practices	25
2.5 Rainfall	25
2.6 Prediction of Design Peak Runoff Rate	29
2.7 Floods/Droughts	48
2.8 Socio-Economic Factors	49
2.9 Critical Analysis After Treatment of Land with Soil Conservation Measures	50
3. Erosion Control Structures for Agricultural Lands	51
3.1 Contour Bunding (Narrow Base Terracing)	51
3.2 Surplussing Arrangements	62
3.3 Graded Bunding	77
3.4 Broad-based Terraces	84
3.5 Bench Terracing	88
3.6 Diversion Drains	108
3.7 Land Levelling and Grading	109
3.8 Grassed Waterways	121
4. Water Resource Development and Moderation of Floods	129
4.1 Small Earthen Embankments	129
4.2 Drought Farm Pond	144
4.3 Nala Bunding	149
4.4 Conveyance of Irrigation Water	152
4.5 Drainage of Agricultural Lands	168
4.6 Agronomy in Soil Conservation	178
5. Erosion Control Structures for Non-agricultural, Denuded and Wastelands	184
5.1 Contour and Staggered Trenching	184
5.2 Forestry, Agrostology and Horticulture in Soil Conservation	186
5.3 Gully Control Structures (Temporary)	226
5.4 Gully Control Structures (Permanent)	229
5.5 Ravine Reclamation	267
5.6 Sediment Retention Structures	276
5.7 Retaining Walls and their Design	280

6.	Special Problems	289
6.1	Wind Erosion	289
6.2	Shifting Cultivation	298
6.3	Landslides	301
6.4	Torrent and Stream Bank Protection	306
6.5	Roadside Erosion Control and Erosion along Railway Lines	308
7.	Prediction Models for Runoff and Soil Loss	312
7.1	Runoff Prediction Models	312
7.2	Results and Discussion	313
7.3	Soil Loss Prediction Model	314
7.4	Soil Erodibility Factor (K)	315
8.	Soil and Water Conservation Technology	321
8.1	Hill Regions	321
8.2	Ravine Region	322
8.3	Semi-arid, Black and Red Soil Region	322
8.4	Technology for Hill Regions	323
8.5	Technology for Ravine (Gully System) Region	325
8.6	Technology for Semi-arid Red and Black Soils	325
9.	Watershed Management	328
9.1	The Format	330
9.2	A Case Study	348
	Appendix A1	376
	References	381
	Acknowledgement	387
