

CONTENTS

| | |
|--|-----------|
| Foreword | v |
| Preface | vii |
| I. INTRODUCTION | 1 |
| Concept of Agroforestry. Benefits from Agroforestry. Limitations of Agroforestry | |
| II. THE HISTORY OF AGROFORESTRY | 8 |
| III. AGROECOLOGICAL ZONIFICATION | 14 |
| Humid Western Himalayan Region. Humid Bengal-Assam Basin. Humid Eastern Himalayan Region and Bay Islands. Subhumid Sutlej-Ganga Alluvial Plains. Subhumid to Humid Eastern and South-eastern Uplands. Arid Western Plains. Semi-arid Lava Plateau and Central Highlands. Humid to Semi-arid Western Ghats and Karnataka Plateau. | |
| IV. SOCIOECONOMIC ASPECTS OF AGROFORESTRY | 31 |
| Farmer/Housefold/Community. Analysis of Existing Land-use System. Assessment of Agroforestry Technologies. Infrastructure and Support for Agroforestry. Economic and Agricultural Development Policies. | |
| V. AGROFORESTRY SYSTEM CLASSIFICATION | 36 |
| Classification of AF Systems on Structural Basis: Nature of Components. Functional Classification of Agroforestry Systems. Ecological Grouping of AF Systems. | |
| VI. AGROFORESTRY SYSTEMS FOR SMALL HOLDINGS | 60 |
| Systems for Improving Soil Productivity and Land Sustainability. Systems for Increasing Farm Income. | |
| VII. ARID LAND AGROFORESTRY | 64 |
| Agroforestry Systems in Arid Regions. | |

| | | |
|-------|---|------------|
| VIII. | WETLAND AGROFORESTRY | 69 |
| | Types of Wetland. Measures for Soil Improvement in AF Practices. Selection of Tree Species. Major Types of Agroforestry Systems. | |
| IX. | HILL AGROFORESTRY | 73 |
| | Silvihorticulture. Silvipasture System. Agrosilviculture. Agrihorticulture. Aquasilviculture. | |
| X. | BIOMASS ENERGY/FUELWOOD PRODUCTION IN AGROFORESTRY | 78 |
| | Firewood Species. Agroforestry Programme Options. | |
| XI. | MULTIPURPOSE TREES IN AGROFORESTRY | 83 |
| | Benefits from MPTs. Characteristics of MPTs Suitable for Agroforestry. Management of MPTs. | |
| XII. | ELEMENTS OF SEED COLLECTION AND NURSERY MANAGEMENT | 96 |
| | Seed Collection. Seed Sources. Methods of Seed Collection. Seed Extraction and Drying. Seed Cleaning and Grading. Storage of Seeds. Marketing of Seeds. Nursery Management. | |
| XIII. | AGROFORESTRY MANAGEMENT | 114 |
| | Tree Management. Agricultural Management. | |
| XIV. | TREE/CROP INTERFACE | 124 |
| | Interaction Effects. Information to be Collected from Tree/Crop Interface Studies. Environmental Factors in Agroforestry. | |
| XV. | SOIL PRODUCTIVITY ASPECTS OF AGROFORESTRY | 133 |
| | Mechanisms of Soil Improvement in AF. Effect of trees on Soil. Role of Trees in Soil Productivity and Conservation | |
| XVI. | AGROFORESTRY DIAGNOSIS AND DESIGN | 143 |
| | Key Features of D & D. Procedure of AF Diagnosis & Design. Criteria of Good Agroforestry Design. | |
| XVII. | DESIGN AND ANALYSIS OF AF EXPERIMENTS | 149 |
| | Designs for Agroforestry. | |

| | |
|--|------------|
| XVIII. ECONOMIC ASPECTS OF AGROFORESTRY | 155 |
| Benefits, Costs and Productive Objectives. Cost/Benefit Analysis in AF. Distribution of Costs and Benefits. | |
| XIX. AGROFORESTRY EXTENSION | 165 |
| Concept of Extension Education. Functions of Extension. | |
| GLOSSARY | 171 |
| SELECTED REFERENCES | 178 |
