

CONTENTS

| | | |
|-----------|--|-------------|
| 1 | Introduction | 1 |
| 2 | Electrolytic Dissociation and Activity | 7 |
| 3 | Acids, Bases, and Buffers | 21 |
| 4 | Osmotic Pressure | 71 |
| 5 | The Colloidal State and Membrane Phenomena | 83 |
| 6 | Lipids | 123 |
| 7 | Carbohydrates, or the Saccharides | 173 |
| 8 | Proteins | 261 |
| 9 | Nucleic Acids and Nucleoproteins | 355 |
| 10 | General Composition of the Body | 412 |
| 11 | Enzymes | 419 |
| 12 | Digestion of Food | 494 |
| 13 | Absorption from the Intestine | 524 |
| 14 | Detoxication in the Body, the Metabolism of Foreign Compounds | 536 |
| 15 | Blood and Other Body Fluids | 550 |
| 16 | Chemistry of Respiration and Gas Transport | 631 |
| 17 | Renal Function, Acid-Base Balance, Electrolyte and Water Balance | 665 |
| 18 | The Vitamins | 732 |
| 19 | Introduction to Intermediary Metabolism | 849 |
| 20 | Bioenergetics | 865 |
| 21 | Biological Oxidation-Reduction | 897 |
| 22 | Energy Metabolism | 970 |
| 23 | Lipid Metabolism | 985 |
| 24 | Carbohydrate Metabolism | 1036 |
| 25 | Protein Metabolism | 1143 |
| 26 | Metabolism of Nucleoproteins and Their Components. Synthesis of Nucleic Acids | 1264 |
| 27 | Composition and Metabolism of Specialized Tissues | 1298 |
| 28 | Nutritional Aspects of Proteins and Amino Acids | 1342 |
| 29 | Nutritional Aspects of the Lipids and the Carbohydrates | 1367 |
| 30 | The Metabolism of the Inorganic Elements | 1376 |

| | | |
|-----------|--------------------------------------|------|
| 31 | Foods | 1414 |
| 32 | Antimetabolic Agents and Other Drugs | 1421 |
| 33 | Composition of Urine | 1440 |
| 34 | The Hormones | 1463 |

APPENDIXES

| | | |
|----------|---|------|
| A | Answers to Problems | 1505 |
| B | Abbreviated Forms of Some Biochemical Terms | 1506 |
| C | Multiples and Submultiples | 1510 |
| | <i>Index</i> | 1511 |
