

Contents

1. Biodegradable microparticles of peptide drugs using polylactide polymers <i>H.P.Bhagwatwar</i>	1
2. Osmotic pump - a novel drug delivery system <i>N.S. Parmar, S.K. Vyas and Navin Vaya</i>	18
3. Novel carriers in cancer chemotherapy <i>U.V.Singh, B.Dinesh Shenoy and N.Udupa</i>	40
4. In vitro and in vivo models for oral transmucosal drug delivery <i>Padma V. Devarajan and Anilkumaar S. Gandhi</i>	70
5. Colon specific drug delivery <i>S. Satyanarayan and Krishna Babu</i>	89
6. Advances in pulmonary drug delivery <i>A.N. Misra</i>	120
7. Intraarterial and intravascular drug delivery systems <i>S.G. Deshpande, Amrita Bajaj and Sujata P. Sawarkar</i>	166
8. Implantable therapeutic systems <i>R.S.R. Murthy</i>	204
9. Oral delivery of protein and peptides : Biochemical considerations <i>G.K. Jain</i>	232
10. Prodrug based novel approaches in drug delivery <i>Alok Namdeo and N.K. Jain</i>	268
11. Ion-exchange resins as controlled drug delivery system <i>M.VimalaDevi and Krishna Babu</i>	290
12. Novel system for the treatment of cytomegalovirus retinitis in immuno-compromised patients <i>J.K.Pandit and Romi Barot</i>	307
13. Aquasomes as drug carrier <i>S.K. Jain and N.K Jain</i>	317

14. Engineered nanoerythroosomes as a novel drug carrier <i>Sanjay Jain and N.K.Jain</i>	332
15. Dendrimers as potential delivery systems for bioactives <i>A.J. Khopade and N.K. Jain</i>	361
16. Multiple Emulsions as drug delivery system <i>A.J. Khopade and N.K. Jain</i>	381
17. Solid lipid nanoparticles <i>Shelly Utreja and N.K. Jain</i>	408
18. Transfersomes - a novel carrier for effective transdermal drug delivery <i>Subheet Jain, Sanjay Jain, Deepankar Bhadra and N.K. Jain</i>	426
19. Targeted delivery of drugs <i>Roop K. Khar and Manish Diwan</i>	452
