PART 1 NURSING FOUNDATION

UNIT I	Introduction to Nursing	3
	A General View	3
	Origin of Nursing.....	3
	Development of Modern Nursing.....	4
	Concepts of Nursing	4
	Definitions of Nursing.....	5
	Nursing—A Professional Service.....	6
	Requirements to Become a Nurse	7
	Etiquettes in Nursing.....	8
	Interpersonal Relationship (IPR) in Nursing.....	9
	Basic Nursing Principles	12
	Nursing Techniques and Procedures.....	12
	Steps of Procedure	13
UNIT II	Hospital	15
	Definitions and Set up.....	15
	Classification of Hospital	15
	Different Departments in a Hospital.....	17
	Functions of a Hospital	22
	Changing Role of Hospitals	24
	Hospital—Housekeeping and General Cleanliness.....	24
UNIT III	Health and Illness	31
	Definition	31
	Factors Influencing Health	31
	Changing Concepts of Health	32
	Illness, Sickness and Disease	33
	Illness Behavior	34
UNIT IV	Basic Needs of the Patient	35
	Psychological Needs of the Patient	35
	Definition	35
	Patient as an Individual—The Reaction of the Patient and his/her Family to Illness	35
	Routines of the Day	36
	Admission of the Patient.....	36
	Transferring a Patient to Another Healthcare Facility.....	40
	Discharge Procedure	43
	Needs of Hospitalized Patient	44
	Physical Needs of the Patient	45
	Definitions	45
	Importance of Physical Needs in Health and Diseases	45
	Patient's Unit, Requirements and Set Up	45

Bed and Bed Making	46
Ambulation	83
Cleaning Patient's Unit	96
Factors Promoting Physical Comforts	97
Comfort Devices	98
Safety Devices	106
Fall Risk Assessment	108
Restraints	114
Restraint Orders	123
Care of Casts and Splints	125
Activity, Exercise, Rest, Sleep and Positioning	129
Definitions	129
Importance of Activity and Exercise	129
Dangers of Prolonged Bed Rest	129
Benefits of Exercises	130
Classification of Exercise	130
Range of Motion (ROM) Exercises	131
Deep Breathing and Coughing Exercises	147
Rest and Sleep	150
Positioning	152
Moving, Turning and Transferring the Patients	159
Log Rolling	170
Turning a Client to the Lateral Side in Bed	174
Moving a Patient from Bed to Stretcher	176
Transferring the Patient from Bed to Stretcher and from the Stretcher to the Bed	181
Hygienic Needs of the Patient	182
Importance of Maintaining Good Personal Hygiene in Health and Disease	182
Nurse's Role in Maintaining Good Personal Hygiene	182
Oral Hygiene	182
Mouth Care (Mouth Cleaning)	184
Care of Dentures (Artificial Teeth)	193
Care of Hair	195
Pediculosis and its Dangers	197
Bed Shampoo (Washing Hair in Bed)	199
Care of Nose, Eyes and Ears	204
Care of Visual Aids	205
Care of the Ears	211
Hearing Aid	211
Care of Skin	216
Decubitus Ulcer/Pressure Ulcer/Bedsore	226
Back Care	239
Nail Care	245
Nutritional Needs of the Patient	249
Importance of Diet	249
Nurse's Role in Maintaining Good Nutrition	249
Extra Oral/Artificial Feeding	251
Elimination Needs of the Patient	276
Health Problems in Sickness	276
Constipation	276
Enema	277
Insertion of Suppository	285
Bowel Wash	292
Digital Evacuation of Impacted Feces	301
Bowel Diversions or Ostomy	306

	Insertion of Flatus Tube	310
	Diarrhea	314
	Retention of Urine	320
	Incontinence of Urine	321
	Urinary Catheterization	324
	Removing an Indwelling Catheter	336
	Bladder Irrigation	338
	Condom Drainage	347
UNIT V	Assessment of Patient	352
	Observation Needs of the Patient	352
	Physical Assessment	352
	Objectives	353
	Types of Physical Examination	353
	Methods of Physical Examination	353
	Role of the Nurse in the Physical Examination	353
	Physiological Assessment—Vital Signs	355
	Body Temperature	355
	Fever	355
	Thermometer	357
	Rigor	362
	Pulse	363
	Respiration	367
	Blood Pressure	369
	Procedures of Checking Temperature, Pulse, Respiration (TPR) and Blood Pressure	370
	Laboratory Assessment—Collection of Specimens	392
	Purposes	392
	Kinds of Specimens	393
	Nurse's Responsibilities	393
	General Instructions	396
	Methods of Collecting Specimens	397
	Blood Smear	425
	Urine Examination	429
	Collection of 24 Hours Urine Specimen	432
	Characteristics of Urine	432
	Types of Urine Examination	434
	Pulse Oximetry	445
UNIT VI	Infection Control	453
	Definitions	453
	Standard Precautions	453
	Barrier Nursing	456
	Personal Protective Equipment	468
UNIT VII	Therapeutic Nursing Measures	491
	Hot Applications	491
	Therapeutic Effects of Heat	491
	Therapeutic Uses of Local Hot Applications	491
	Types of Hot Application	492
	Inhalation	504
	Cold Applications	519
	Purposes of Cold Application	519
	Effects of Cold Application and Scientific Principles	519
	Contraindications of Cold Application	519
	Local Dry Cold Application	520
	General Cold Applications	523

UNIT VIII	Care of Wounds	526
	Definitions	526
	Classification of Wounds	526
	Wound Care.....	527
	Surgical Scrubbing.....	528
	Disinfection and Sterilization.....	534
	Surgical Dressing.....	534
UNIT IX	Medication Needs of the Patient—Pharmacology	546
	Administration of Medicine.....	546
	Oral Administration of Medicine	550
	Sublingual Administration of Drug.....	558
	Buccal Route of Administration of Drug	559
	Special Acronyms	559
	Parenteral Administration of Medicine	565
	Methods of Withdrawing Medication.....	571
	Administration of Injections	576
	Opioids.....	598
	Individual Opioid Agonists	605
	Other Opioid Agonists.....	607
	Opioid Agonist—Antagonists	608
	Opioid Antagonists.....	609
	Total Intravenous Anesthesia (TIVA)	610
	Special Points to be Noted during any Injection	611
	Diabetes Mellitus—Special Consideration	612
UNIT X	Care of Dying Patient and Care of the Body after Death	620
	Signs and Symptoms of Approaching Death.....	620
	The Stages of Dying.....	621
	Needs of the Dying Patient and his/her Relatives.....	622
	Immediate Signs of Death.....	622
	Physiological Changes after Death	622
	Care of the Body after Death.....	623
	Placing and Releasing Body from Mortuary	624
	Intake Procedure and Maintenance of Mortuary Register	628
UNIT XI	Geriatric Nursing	631
	Geriatrics.....	631
	Old Age.....	631
	Characteristics of Aging.....	631
	Old People and Illnesses	632
	Problems, Needs and Care of Old Age.....	632
	Nursing Assessment of Elderly Patients.....	635
UNIT XII	Maternal and Newborn Care.....	637
	Maternal Care.....	637
	Introduction.....	637
	Maternity Cycle.....	637
	Care of Newborn	645
	Resuscitation.....	645
	Care of Umbilical Cord	646
	Care of the Eyes.....	646
	Care of the Skin	646
	Observation of Newborn for Abnormalities	646
	Baby Bath	648
	Breastfeeding	654
	Weaning	655
UNIT XIII	Common Operation Theater Instruments	658
	Let's Discuss Some Commonly used Operation Theater Instruments.....	658

PART 2 ANATOMY AND PHYSIOLOGY

UNIT I	Introduction.....	673
	Definitions	673
	Human Body	673
UNIT II	Cell and Body Cavities.....	675
	The Cell	675
	Body Cavities	676
UNIT III	Major Systems of the Human Body.....	678
	Introduction.....	678
	Integumentary System (Skin).....	678
	Skeletal System	679
	Muscular System	686
	Endocrine System	689
	Cardiovascular System (Heart, Blood Vessels and Blood)	691
	Blood.....	697
	Lymphatic System	699
	Respiratory System	701
	Digestive System	703
	Urinary System.....	705
	Reproductive System.....	705
	Nervous System.....	708
	Special Sense Organs.....	711
UNIT IV	Fluid and Electrolyte Balance	714
	Introduction.....	714
	Edema.....	714
	Dehydration.....	715
	Oral Rehydration Solution.....	715

PART 3 MICROBIOLOGY

UNIT I	Introduction.....	721
	Definition	721
	Application of Microbiology in Nursing.....	721
	Discoveries and Inventions.....	722
UNIT II	Microorganisms.....	724
	Distribution of Microorganisms	724
	Classification of Microorganisms	724
UNIT III	Infection Process	727
	Definition.....	727
	Types of infection.....	727
	Disease Transmission	728
	Portals of Entry of Organisms.....	729
	Portals of Exit	730
	Methods of Transmission of Microorganisms	730
	Common Types of Hospital Infection (Nosocomial Infection)	731
UNIT IV	Immunity.....	733
	Infection and Resistance	733
	Immunity	733

UNIT V	Control of Bacteria (Methods of Disinfection and Sterilization)	741
	Control of Bacteria.....	741
	Terminologies.....	741
	Methods of Sterilization and Disinfection.....	742
	Control of Microorganisms in the Human Body	748
	Precautions to be Observed While Administering Antimicrobial Agents.....	749

PART 4 PSYCHOLOGY

UNIT I	Introduction	753
	Definition	753
	Purpose of Studying Psychology	753
	Scope of Psychology	753
UNIT II	Psychology of Human Behavior	754
	Dynamics of Behavior	754
	Body-Mind Relationship	754
	Motivation.....	754
	Main Human Needs.....	754
	Unconscious Motives.....	755
	Mental Health	755
	Emotions	756
	Habits.....	757
	Attitudes	757
UNIT III	Learning, Thinking, Reasoning and Problem Solving	758
	Learning	758
	Types of Learning Theories	759
	Thinking.....	759
	Reasoning and Problem-Solving.....	760
UNIT IV	Personality	761
	Definition	761
	Components of Personality	761
	Traits of Personality	761
	Process of Development of Personality.....	762
	Factors Influencing Growth and Development	762
UNIT V	Intelligence	764
	Definition	764
	Types of Intelligence	764
	Intelligence Quotient (IQ)	764

PART 5 SOCIOLOGY

UNIT I	Introduction	769
	Definition of Sociology	769
	Importance of Sociology in Nursing.....	769
UNIT II	Individual	770
	Rights of an Individual.....	770
	Responsibilities for Achieving Health	770
	Policies of the Government to Safeguard the Health of the Citizens	771

UNIT III	The Family	772
	Definition	772
	The Family Cycle	772
	Types of Families	772
	Basic Needs of the Family	773
UNIT IV	Society	774
	Definitions	774
	Structure of a Society	774
	Classification of Society	774
	Social Problems	775
UNIT V	The Community	777
	Definition	777
	Characteristics of a Community	777
	Culture and Cultural Patterns	777

PART 6 FIRST AID IN EMERGENCIES

UNIT I	Introduction	781
	First Aid	781
	Qualities Required for a First Aider	782
	Rules of First Aid	783
	Scope of First Aid	783
	Approach to First Aid	784
	Important Points of Attending a Casualty	784
	Concept of Emergency	785
UNIT II	Procedures and Techniques in First Aid	787
	First Aid Kit	787
	Definition	787
	Preparation of First Aid Kit	787
	Dressing, Bandaging and Splinting	789
	Definition	789
	Purposes of bandaging	790
	Slings	803
	Special Bandages	805
	Knots	806
	Transportation of the Injured	808
UNIT III	First Aid in Emergencies	816
	Respiration and Asphyxia	816
	Artificial Respiration (External Respiratory Resuscitation)	819
	External Cardiac Massage (External Cardiac Resuscitation)	821
	Cardiopulmonary Resuscitation (CPR) [Basic Life Support (BLS)]	822
	Common Casualties and Management	826
UNIT IV	Community Emergencies and Community Resources	850
	Disaster	850
	Disaster Management (or Emergency Management)	852

PART 7 NUTRITION

UNIT I	Introduction	859
	Definitions	859
	Nutrients or Nutriment (Food)	859
	Interrelation of Nutrients	861
UNIT II	Food Factors—Functions and Sources	862
	Carbohydrates	862
	Protein	863
	Fats	864
	Vitamins	865
	Minerals	871
	Water	875
UNIT III	Normal Dietary Requirements	876
	Metabolism	876
	Basal Metabolic Rate	876
	Energy Metabolism	877
	Balanced Diet	877
	Menu Planning	878
	Special Diets	879
UNIT IV	Cooking	880
	Why do we Need Cooking?	880
	Purposes of Cooking	880
	Methods of Cooking	880
	Kitchen Equipment Required for Cooking Food	881
	Recipes	882
	Recipes of Light Puddings	882

APPENDICES

Appendix	①	Tracheal Suctioning	885
Appendix	②	Oral Suctioning	896
Appendix	③	Nasopharyngeal Suctioning	903
Appendix	④	Maintaining Intake Output Chart	909
Appendix	⑤	Gargling	914
Appendix	⑥	Instillation of Ear Drops	919
Appendix	⑦	Instillation of Eye Drops	923
Appendix	⑧	Instillation of Nasal Drops or Spray	932
Appendix	⑨	Nasal Sprays	937
Appendix	⑩	Radiologic Procedures	942
Appendix	⑪	Endoscopic Procedures	946
Appendix	⑫	Blood Transfusion	957
Appendix	⑬	Chest Physiotherapy	970
Appendix	⑭	Urinary Diversion Procedure	987
Appendix	⑮	Vaginal Irrigation	991
