<i>Preface to the Third Edition</i>	v
<i>Preface to the First Edition</i>	vi
<i>Colour Plates—1–18</i>	<i>between pp 8 and 9</i>

1. Cellular Adaptations	1
2. Cell Injury	2
3. Necrosis	3
4. Apoptosis	5
5. Pathological Calcification	6
6. Inflammation	7
7. Vascular Events in Inflammation	8
8. Cellular Events in Inflammation	9
9. Phagocytosis	10
10. Chemical Mediators of Inflammation	11
11. Cellular Mediators of Inflammation	12
12. Plasma Derived Mediators of Inflammation	14
13. Chronic Inflammation	15
14. Wound Healing	16
15. Edema	18
16. Hyperemia	19
17. Congestion	19
18. Thrombosis	20
19. Embolism	21

20. Infarction	23
21. Shock	24
22. Autosomal Chromosomal Disorders	25
23. Sex Chromosomal Disorders	26
24. Type I Hypersensitivity (Anaphylaxis)	27
25. Type II Hypersensitivity (Antibody Mediated Hypersensitivity)	28
26. Type III Hypersensitivity (Immune Complex Hypersensitivity)	29
27. Type IV Hypersensitivity (Delayed Type Cell Mediated Hypersensitivity)	30
28. Systemic Lupus Erythematosus	31
29. Amyloidosis	33
30. Neoplasm	35
31. Metastasis	36
32. Molecular Basis of Carcinogenesis	38
33. Viral Carcinogenesis	40
34. Chemical Carcinogenesis	41
35. Radiation Carcinogenesis	42
36. Paraneoplastic Syndromes	43

37. Protein Energy Malnutrition (PEM)	44
38. Fat Soluble Vitamin Disorders	45
39. Water Soluble Vitamin Disorders	46
40. Acquired Immunodeficiency Syndrome (AIDS)	48
41. Tuberculosis	50
42. Anemia	52
43. Iron Deficiency Anemia	54
44. Thalassemia	55
45. Sickle Cell Anemia	56
46. Hereditary Spherocytosis (HS)	57
47. Macrocytic Anemia	58
48. Aplastic Anemia	59
49. Hemolytic Anemia	60
50. Chronic Myeloproliferative Disorders (MPDs)	61
51. Chronic Myeloid Leukemia	62
52. Polycythemia Rubra Vera	64
53. Acute Myeloid Leukemia (AML)	65
54. Acute Lymphoblastic Leukemia (ALL)	66
55. Lymphomas	67

56. Non-Hodgkin Lymphoma (NHL)	68
57. Hodgkin Lymphoma (HL)	70
58. Multiple Myeloma	71
59. Immune Thrombocytopenic Purpura (ITP)	72
60. Disseminated Intravascular Coagulation (DIC)	73
61. Atherosclerosis	75
62. Aneurysms	76
63. Vasculitides	77
64. Hypertension (HTN)	78
65. Congenital Heart Diseases	79
66. Heart Failure	80
67. Ischemic Heart Disease (IHD)	81
68. Myocardial Infarction (MI)	82
69. Vegetations in Heart	83
70. Cardiomyopathies	85
71. Pericarditis	86
72. Salivary Gland Tumors	87
73. Peptic Ulcer Disease	88
74. Gastric Carcinoma	89
75. Inflammatory Bowel Disease (IBD)	90
76. Malabsorption Syndromes	92
77. Colorectal Polyps	94
78. Colorectal Carcinoma	96
79. Cirrhosis	97
80. Alcoholic Liver Disease	99
81. Viral Hepatitis	100
82. Hepatocellular Carcinoma (HCC)	103
83. Cholelithiasis	104
84. Pancreatitis	105

Review in Pathology

85. Chronic Obstructive Pulmonary Diseases (COPDs)	106
86. Chronic Bronchitis	107
87. Emphysema	108
88. Bronchiectasis	109
89. Bronchial Asthma	110
90. Pneumoconiosis	111
91. Lung Abscess	113
92. Pneumonia	114
93. Bronchogenic Carcinoma	115
94. Testicular Tumors	116
95. Benign Prostatic Hyperplasia (BPH)	117
96. Prostatic Carcinoma	118
97. Cystic Renal Diseases	119
98. Nephrotic Syndrome	120
99. Nephritic Syndrome	122
100. Systemic Diseases with Glomerulonephritis	124
101. Chronic Pyelonephritis	125
102. Hypertensive Nephropathy	126
103. Renal Stones (Nephrolithiasis)	127
104. Renal Cell Carcinoma (RCC)	128
105. Wilms Tumor (Nephroblastoma)	129
106. Urothelial Carcinoma (Transitional Cell Carcinoma)	130
107. Carcinoma Cervix	131
108. Adenomyosis	132
109. Endometriosis	132
110. Endometrial Carcinoma	133

111. Ovarian Tumors	134
112. Ovarian Surface Epithelial Tumors	135
113. Germ Cell Tumors	137
114. Sex Cord—Stromal Tumors	139
115. Gestational Trophoblastic Diseases	140
116. Benign Breast Tumors	142
117. Breast Carcinoma	143
118. Skin Tumors	145
119. Thyroiditis	147
120. Goitre	149
121. Thyroid Neoplasms	150
122. Diabetes Mellitus	152
123. Complications of Diabetes Mellitus	153
124. Multiple Endocrine Neoplasia Syndromes	154
125. Osteomyelitis	155
126. Classification of Bone Tumors	157
127. Osteosarcoma	158
128. Ewing Sarcoma	159
129. Giant Cell Tumor (Osteoclastoma)	160
130. Osteoporosis	161
131. Osteoarthritis	162
132. Rheumatoid Arthritis	163
133. Gout	164
134. Meningitis	165
135. Central Nervous System (CNS) Tumors	166
136. Gliomas	167
137. Meningioma	169
