<i>Foreword</i>	vii
<i>Preface to the Fourth Edition</i>	ix
<i>Preface to the Third Edition</i>	x
<i>Contributors</i>	xvii
<i>Commonly Used Abbreviations in Medical Laboratories</i>	xix

## SECTION 4: MICROBIOLOGY AND VIROLOGY

19. Introduction to Diagnostic Microbiology	471
<i>Kanai L Mukherjee, Monisha Bhatia and Ritwik Bhatia</i>	
<i>Part 1: Introduction to Infectious Diseases 472</i>	
<i>Part 2: Diagnostic Microbiology 473</i>	
Role of Microbiology Laboratory	473
Rules of Microbiology Laboratory	473
Basic Laboratory Procedures in Microbiology	482
Microscopic Examination	485
Examination of Stained Smear (Dry Mount)	489
Laboratory Culture	500
Inoculation in Test Tubes	516
Culture Environments	517
Quality Control in Microbiology	521
Preservation of Stock Cultures	521
Identification of Pathogenic Microbes	523
Quick Reference of Media and Biochemical Tests	527
<i>Part 3: Virology 530</i>	
Introduction	530
Diseases Caused by Viruses	530
Defence Mechanism of Body Against Viral Infection	531
<i>Part 4: Laboratory Diagnosis of Viral Infections 531</i>	
Direct Examination	532
Serological Testing	532
Limitations of Serological Diagnosis	542
Review Questions	542
20. Identification of Pathogenic Bacteria	544
<i>Ritwik Bhatia and Shovan Bhatia</i>	
Introduction to Diagnostic Bacteriology	545
Systematic Grouping of Pathogenic Bacteria	547
Specific Bacteria	549
Laboratory Identification of Infectious Agents	553
Laboratory Diagnosis of Leprosy	587
Diagnosis of Anaerobic Infections	589

Identifying Characteristics of Common Pathogenic Bacteria 591  
 Antimicrobial Susceptibility Testing 606  
*Review Questions* 614  
*Appendix 20.1: Formulae and Preparation of Culture Media and Biochemical Reagents* 614

## 21. Laboratory Diagnosis of Mycotic Infections 644

*Monisha Bhatia and Kanai L Mukherjee*

Introduction to Fungi and Mycotic Agents 644  
 Clinical Significance of Mycotic Infection 645  
 Morphological Features of Mycotic Agents 646  
 Opportunistic Fungi and Filamentous Bacteria 648  
 Laboratory Diagnosis of Mycotic Infections 649  
 Mycotic Agents Classified by Location 662  
 Traveller's Mycoses 663  
 Identifying Characteristics of Common Pathogenic Fungi 663  
 Microbiology Laboratory Update 675  
*Review Questions* 677

## 22. Laboratory Diagnosis of Parasitic Infections 678

*Kanai L Mukherjee and Piyali Basu*

Introduction to Parasites 679  
 Essential Background 680  
 Laboratory Procedures in Parasitic Infection 682  
 Laboratory Diagnosis of Pinworm Infections 703  
 Laboratory Investigation of Other Specimens for Parasitic Infections 705  
 Laboratory Diagnosis of Protozoan Infections 708  
 Laboratory Diagnosis of Parasitic Infections 712  
 Laboratory Diagnosis of Helminth Infections 716  
 Identification Characters of Helminths 717  
*Review Questions* 724

## Morphology and Life Cycles of Human Parasites i

### SECTION 5: SEROLOGY

## 23. Introduction to Immunology and Principles of Serodiagnosis 729

*Ashoke Khanwalkar and Raktima Datta*

The Human Immune System 729  
 Immunology and Serology 735  
 Blood Types and Compatibility Testing 736  
 Serodiagnosis 736  
 Principles of Serological Procedures 737  
 Visible Immunologic Reactions Used in Serodiagnosis 739  
 Problems in Serological Assays 747  
*Review Questions* 749

## 24. Laboratory Procedures in Serology 750

*Kanai L Mukherjee and Chhotelaal Pande*

Quality Management in Serology Laboratory 751  
 Collection and Preparation of Specimen 752  
 Sexually Transmitted Infections and their Serology 754  
 Nontreponemal Test 756  
 Treponemal Test 763  
 Agglutination Tests of Serodiagnosis 768

Serodiagnosis of Streptococcal Infection	780
Additional Serodiagnosis Kits	784
Infectious Mononucleosis and Monospot Test	785
Serodiagnostic Tests for Miscellaneous Infections	786
Immunologic Test for Pregnancy	797
<i>Review Questions</i>	801

## SECTION 6: CLINICAL PATHOLOGY

25. Urine Analysis	805
<i>Bibhas Bandy</i>	
Laboratory Examination of Body Fluids	805
Clinical Significance of Urinalysis	806
Laboratory Diagnosis of Renal Function	810
Routine Examination of Urine	814
<i>Review Questions</i>	844
26. Laboratory Examination of Miscellaneous Body Fluids	845
<i>Bibhas Bandy</i>	
Body Fluids for Clinical Diagnosis	846
Cerebrospinal Fluid (CSF)	847
Serous Fluids	861
Synovial Fluid	864
Vaginal Discharge	867
Gastric Juice	869
<i>Review Questions</i>	870
27. Semen Analysis	872
<i>Bibhas Bandy</i>	
Introduction	872
Laboratory Investigation	875
Forensic Investigation for the Presence of Semen	880
<i>Review Questions</i>	881
28. Stool Examination	882
<i>Bibhas Bandy</i>	
Introduction	882
Laboratory Investigation	884
Processing of Watery Stool Specimen during Cholera Epidemic	893
Laboratory Analysis	894
<i>Review Questions</i>	898
Molecular Pathology	i
<i>Index</i>	<i>I.1</i>

## CONTENTS OF VOLUME 1

### SECTION 1: INTRODUCTION

1. Human Health and Clinical Diagnosis in Developing Countries	3
2. Introduction to Clinical Laboratories	16

3. Laboratory Safety and First Aid	29
4. Introduction to Laboratory Equipment and Basic Laboratory Operations	54
5. Specimen Handling and Laboratory Records	140
6. Units of Measurement and Preparation of Reagent Solutions	196
7. Good Laboratory Practices and Statistical Quality Control	212

## SECTION 2: HAEMATOLOGY AND COAGULATION

8. Introduction to Haematology	229
9. Basic Laboratory Procedures in Haematology	236
10. Routine Haematological Tests	242
11. Special Haematological Tests	306
12. Interpretation of Laboratory Findings in Haematology	332
13. Introduction to Haemostasis and Haemostatic Disorders	338
14. Laboratory Investigation of Bleeding Disorders	348

## SECTION 3: IMMUNOHAEMATOLOGY OR BLOOD BANKING

15. Introduction to Blood Transfusion Therapy	373
16. Collection and Processing of Blood for Transfusion	393
17. Routine Laboratory Procedures in Blood Bank	420
18. Blood Transfusion Services and Clinical Approach to Haemolytic Disease of the Newborn	459
Laboratory Information Systems	i
Phlebotomy/Venipuncture Procedure	ix
<i>Index</i>	<i>I.1</i>

## CONTENTS OF VOLUME 3

### SECTION 7: CLINICAL BIOCHEMISTRY

29. Biochemical Processes of the Body Under Normal and Pathogenic Conditions <i>Vissagan Gopalakrishnan and Piyali Basu</i>	901
30. Specimen Collection and Processing for Biochemical Analyses <i>Chhotelaal Pandey and Anant Kumar Pande</i>	920
31. Techniques of Analytical Chemistry <i>Kanai L Mukherjee and Ishita Bhattacharya</i>	932

32. Automation in Clinical Biochemistry	961
<i>Aurin Chakravarty, Dipto Chakravarty and Chhotelaal Pandey</i>	
33. Routine Biochemical Test Procedures	985
<i>Kanai L Mukherjee, Chhotelaal Pande and Rohini Chakravarthy</i>	
34. Biochemical Test Profiles	1081
<i>Ashoke Khanwalkar</i>	
35. Therapeutic Drug Monitoring and Clinical Toxicology	1102
<i>Kanai L Mukherjee and Piyali Basu</i>	

## SECTION 8: HISTOLOGY AND CYTOLOGY

36. Introduction to Histotechnology and Cytotechnology	1127
<i>Venk Mani and Surajit Ghosh</i>	
37. Laboratory Techniques in Histology	1147
<i>Venk Mani and Kanai L Mukherjee</i>	
38. Laboratory Techniques in Diagnostic Exfoliative Cytology	1206
<i>Krishna Mallik and Kanai L Mukherjee</i>	
39. Basics of Immunohistochemistry	1222
40. Polymerase Chain Reaction in Clinical Diagnosis	1240

## SECTION 9: MISCELLANEOUS INFORMATION

Medical Terminology	1251
<i>Maya Chatteraj and Kanai L Mukherjee</i>	
Glossary of Technical Terms	1254
<i>Maya Chatteraj and Kanai L Mukherjee</i>	
Appendices	1284
<i>Maya Chatteraj and Kanai L Mukherjee</i>	
Index	I.1–I.8
