<i>Foreword</i> by Chandrakant S Pandav	v
<i>Book Review</i> by BS Garg	vii
<i>Preface to the Eighth Edition</i>	ix
<i>Preface to the First Edition</i>	xi
<i>Index of Competencies</i>	xxv
<i>Abbreviations</i>	xxix

## Part I Basic Sciences Related to Community Medicine (Topics 1 to 7 and 9)

<b>1. Concept of Health and Disease, Ethics in Medicine and Doctor–Patient Relationship</b>	<b>1–34</b>
Competency-based Learning in Community Medicine	1
Pedagogy and Problem-based Learning	2
A case Study on Clinico-social Case Review	4
Concept of Health and Holistic Health	4
Dimensions of Health—Physical, Mental, Social and Spiritual Health	5, 6
Concept of Public Health	7
Relativeness of Health	7
Determinants of Health	8
Social Determinants of Health, VHSNC and Convergent Action on Social Determinants of Health	11
Characteristics of Agent, Host and Environmental Factors in Health and Disease and Multifactorial Etiology of Disease	12
Natural History of Disease	12
Application of Interventions at Various Levels of Prevention	12
Levels of prevention	13
Concept of Health Promotion and Education, IEC and BCC	15
Health Indicators	17
Human Development Index	18
Demographic Profile of India and its Impact on Health	21
Role of Effective Communication Skills in Health and Disease	22
Doctor–Patient Relationship	24
Ethics in Medicine (Moral Principles)	25
Consumer Protection Act (CPA)	26
Clinical Establishment Act, 2010	26
Hippocratic Oath	26
World Medical Association Declaration of Geneva—“The Physician’s Pledge”	26
Nuremberg Code of Ethics in Medical Research	27
Declaration of Helsinki	27
Euthanasia	28
Duties of Physicians to their Patients	29
Major Health Problems in India	33
Principles and Practice of Medicine in Hospital and Community	33

## 2. Relationship of Social and Behavioural Sciences (Humanities) to Health and Disease 35–59

- Historical Development of Medicine and Social Sciences, from Symptoms to Universal Health Coverage 35
- Concept of Rural, Urban and Tribal Communities 35–37
- Community Participation in Health Management and Development 37
- Types of Family and its Role in Health and Disease 38
- Steps in Assessment of Clinico-social Cultural and Demographic Profile of Individual, Family and Community 41
- Correct Methods of Assessment of Socio-economic Status (SES) of Individual and Family 43
- Socio-economic and Caste Census (SECC) 44
- Family Medicine 46
- Family-retained Household Records (Mother and Child Protection Card) 46
- Family Adoption Programme and Yoga Meditation 47
- Social and Cultural Factors in Health, Disease and Disability 50
- Socio-cultural Factors with Social Problems and their Behavioural Components 51
- Social Psychology and Community Behaviour 51
- Community Relationship and its Impact on Health and Disease 52
- Barriers to Good Health and Health-seeking Behaviour 53
- Poverty and Social Security Measures and its Relationship to Health and Disease 54
- Principles of Health Economics 55

## 3. Environmental Health Problems 60–111

- Concept of Safe and Wholesome Water 60
- Water Requirement Norms for Rural Areas 61
- Norms of Water Supply for Urban Areas 61
- Sanitary Sources of Water 61
- Health Hazards of Water Pollution 63
- Aetiology and Basis of Waterborne Diseases (Jaundice, Hepatitis and Diarrhoeal Diseases) 63
- Water Purification Processes 63
- Case Studies on Drinking Water, Chlorination, Storage Practices 68
- Water Quality Standards 69
- Arsenic Contamination 71
- Endemic Fluorosis 71
- National Programme for Prevention and Control of Fluorosis 73
- Concept of Water Conservation and Rainwater Harvesting 74
- National Rural Drinking Water Supply and Sanitation Programme 75
- Urban Water Supply System 76
- Standards of Housing and Effect of Housing on Health 77
- Solid Waste, Human Excreta and Sewage Disposal (Borehole, Pit and VIP Latrines) 78
- Social Factors Related to Excreta Disposal—"Easing for Diseases": A Case Study 79
- Safe Disposal of Human Excreta in Rural Areas 80
- Case Study of a Dug Well Latrine 81
- Composting, Gobar Gas Plant and TSC 82
- Total Sanitation Campaign/Swachh Bharat Abhiyan 82, 83
- Urban Sanitation 83
- Health Hazards of Soil Pollution 85
- Health Hazards of Air Pollution 87
- Health Hazards of Noise Pollution 93
- Role of Vectors in Transmission of Diseases and Integrated Vector Management 94
- Identification of Features and Life Cycle of Vectors of Public Health Importance and their Control Measures 95
- Commonly Used Rodenticides, their Mode of Action and Applications 108
- National Vector-borne Disease Control Programme (NVBDCP) 110

## 4. Principles of Health Promotion and Education 112–131

- Health Education—Definition and Aim 112
- Behaviour Change Communication 113
- Health Information to People—Information for all 114
- Information Revolution 114
- Various Methods of Health Promotion/Education their Merits and Demerits 115
- Effects of Communication 117
- Methods of Organizing Health Promotion, Education at Individual, Family and Community Settings 118

Communication Skills in Health	119
Case study in Communication	121
Steps in Planning, Organizing, Implementation and Evaluation of Health Communication/Education Programme	121
Steps in Evaluation	122
National Communication Strategy in RCH	124
Counselling in Health and Disease	124
GATHER Approach to Counselling about IUDs	126
Social Marketing Programme in Health and Family Welfare—An Education Method	130

## 5. Nutrition

132–199

Global Targets on Nutrition	132
Sustainable Development Goals for Nutrition	132
Major Nutrition-related Public Health Problems	133
Common Sources of Various Nutrients and Recommended Dietary Allowances According to Age, Sex, Activity and Physiological Conditions	133–137
Dietary Fibre	134
Visible and invisible fats	139
Trans Fats (Hidden Fat)	140
Characteristic of an Average Indian Diet	140
Planning and Recommending Suitable Diet for Individual and Family Based on Local Availability of Foods and Economic Conditions	141
Balanced Diet for Moderately Active Man	141
Common Dietary Beliefs and Practices in Infants, Young Children, Pregnant and Lactating Mothers—A Case Study	143
Undernutrition during Infancy and its Prevention	144
Exclusive Breastfeeding	145
Ten Steps to Successful Breastfeeding (WHO, UNICEF and Baby Friendly Hospital Initiative)	146
Infant Milk Substitutes Act, 2000 and 2016	146
National Guidelines on Promotion of Infant and Young Child Feeding	148
Common Nutrition-related Health Disorders	148
Macronutrient Deficiency Disorders or Protein Energy Malnutrition (PEM)	148
Correct Methods of Performing a Nutritional Assessment of Individuals, Families and Community	151
Prevention, Control and Management of PEM	152
Nutrition Rehabilitation Centres and Sneha Shivirs	153
Principles of Nutrition Education	155
Growth Monitoring (A Preventive Strategy) and Nutrition Surveillance	156
Methods of Nutritional Surveillance	163
Micronutrient Deficiency Disorders	166
Nutritional Anaemia	166
National Nutritional Anaemia Control Programme	169
National Iron Plus Initiative	169
Anaemia Mukh Bharat	170
Vitamin A Deficiency (VAD)	170
National Programme for VAD	172
Iodine Deficiency Disorders	174
National IDD Control Programme	176
Zinc Nutrition	179
Dietary (Food Consumption) Surveys	180
National Nutritional Programmes	183
National Nutrition Policy	185
National Nutrition Mission 2018	187
Prevention of Food Adulteration Act	188
The Food Safety and Standards Act	188
National Survey on Milk Adulteration	189
Food Fortification	190
Neuroleptism	191
Epidemic Dropsy	191
Food Hygiene and Food Poisoning	191
Genetically Modified Crops	193
ICDS (Integrated Child Development Services) Mission	193

---

**6. Basic Statistics and its Applications and Research Methodology 200–241**

---

- Variables and Scales of Measurements 200
- Classification or Types of Statistical Data 201
- Sources of Health Data 202
- Methods of Data Collection 203
- Data Analysis and interpretation 203
- Presentation of Statistical Data—Visibility of Data 204
- Application of Simple Elementary Statistical Methods 207
- Summarization of Data, or Data Reduction (Measures of Central Tendency) 208
- Frequency Distribution or Counts 211
- Normal Distribution and Normal Curve 213
- Measures of Variability (Dispersion) 213
- Common Probability Sampling Techniques 217
- Confidence Interval 222
- Probability 223
- Tests of Significance in Various Studies 225
- Life Table Method of Analysis 232
- Research Methodology 234
- Research: Fundamental and Basic, Applied, Action-oriented and Operational Research 234
- Focus Group Discussions 239
- Framing a Research Question for a Study 239

---

**7. Epidemiology 242–306**

---

- Principles, Concepts and uses of Epidemiology 242
- Definition 242
- Sources of Epidemiological Data 243
- Epidemiology of Communicable Diseases (CCDs) 243
- Changing Pattern of Infectious/Communicable Diseases in India 244
- Emerging and Re-emerging Infectious Diseases and Neglected Tropical Diseases 244
- Modes of Transmission 245
- Levels of Disease Occurrence 251
- Prevention and Control of Communicable Diseases 253
- Notification of Diseases 255
- Epidemiology of Non-communicable Diseases (NCDs) 255
- Prevention and Control of NCDs 256
- Measuring Disease and Death Frequency 256
- Measuring the Burden of Disease 256
- Defining, Calculating and Interpreting Morbidity Indicators 257
- Defining, Calculating and Interpreting Mortality Indicators 260
- Million Death Study (Causes of Death Statistics) 263
- Disability: Measurement 263
- Common Impairments 264
- Risk Measurement in Epidemiology 265
- Need and Evaluation of Screening Tests 267
- Principles of Public Health Surveillance 270
- Integrated Disease Surveillance Programme 275
- Analysis and Interpretation of Data by TPP 277
- Principles and Measures to Control an Epidemic 279
- Surveillance of Risk Factors of Non-communicable Diseases 280
- WHO Stepwise Approach for Surveillance of Risk Factors in NCDs 280
- Steps in the Investigation of an Epidemic of CCD—Jaundice and Principles of Control Measures 281
- Epidemiological Study Designs 285
- Observational Studies 285
- Descriptive Studies 285
- Analytical Studies 289
- Ecological Studies 289
- Cross-sectional Studies 290
- Case Control Studies 290
- Cohort Studies 292

Experimental Studies	294
Randomized Controlled Trials (RCTs)	295
Field Trials	298
Community Trials	299
Principles of Causation and Association in Epidemiological Studies	299
Biases in Epidemiological Studies	302
Applications of Computers in Epidemiology/Health Sciences	303
Epidemiological Basis of National Health Programmes	303
List of 20 Notifiable CCDs	305
List of National Health Programmes	305

<b>8. Epidemiology of Communicable and Non-Communicable Diseases and Related Disease Specific National Health Programmes (Part of Applied Sciences Part II)</b>	<b>307-507</b>
Principles of Planning, Implementation and Evaluating Control Measures of a Disease at Community Level	307
Natural History of HIV/AIDS—Window Period	310
Epidemiology of HIV/AIDS Epidemic	310
Prevalence and Burden of HIV Epidemic in India—Current Status of Epidemic	311
National Surveillance Systems in HIV, Viral Hepatitis B and C 2023	314
National Biennial HIV Sentinel Surveillance (HSS) Plus in India	314
National Integrated Bio-behavioural Surveillance (IBBS) Model	314
National AIDS Control Programme (NACP)	315
National Strategic Plan and Mission Sampark 2017-24 for HIV/AIDS (NACP)	315
Female Sex Work Patterns—A Case Study	319
Reproductive Tract Infections/Sexually Transmitted Infections	319
Syndromic Case Management of STI/RTI	321
National Guidelines on Prevention, Management and Control of RTIs/STIs 2014	322
National Strategic Plan for STI/RTI 2017-24 Vision	324
Epidemic of Tuberculosis in India	324
Epidemiology and Natural History of Tuberculosis	324
National TB Prevalence Survey in India 2019-21	325
Burden of TB Disease in India (2021)	325
National Tuberculosis Control Programme (NTCP) 1962	327
Revised National Tuberculosis Control Programme (RNTCP) 1992 Renamed as National TB Elimination Programme	327
National Strategic Plan (NSP) 2017-25	327
National Policy for Diagnosis of TB	328
Integrated DR-TB Diagnostic and Resistant TB Algorithm	330
Drug Regimen for Treatment—Daily Regimen	331
Programmatic Management of Drug Resistant TB (PMDT)—Erstwhile Dots Plus	331
Magnitude of DR-TB in India	331
All Oral H Mono/Poly DR-TB Regimen	332
Shorter MDR-TB Regimen from April 2018	332
All Oral Longer MDR-TB Regimen	333
New Initiatives and Policy Changes from 2020-22	333
Guidelines for Tuberculosis Preventive Treatment (TPT)	334
Leprosy	335
Epidemiology	335
National Leprosy Eradication Programme (NLEP)	338
Primary Prevention of Leprosy among Contacts	340
Vector-borne Diseases	340
National Vector-borne Disease Control Programme (NVBDCP)	340
Malaria	341
Epidemiology of Malaria	341
National Malaria Control Programme in India	343
National Framework for Malaria Elimination in India	344
Strategic Approaches	347
Early Diagnosis by Epidemiological Surveillance and Case Management in Malaria	345
Case-based and Focus-based Surveillance in Category 1	346
National Drug Policy on Malaria (2013)	347
Drug Schedule for Treatment of <i>P. vivax</i> and <i>P. falciparum</i> Malaria	348
Integrated Vector Management (IVM)	350
Monitoring and Evaluation in Malaria	354

Urban Vector-borne Disease Scheme (Urban Malaria Scheme)	355
Programme Planning and Management	356
Lymphatic Filariasis	356
Epidemiology	356
National Filaria Elimination Programme	358
New Initiatives—Tripple Drug (IADC)	360
Kala-azar (VL) Epidemiology	360
National Kala-azar Elimination Programme	361
Dengue Fever/Dengue Haemorrhagic Fever	362
Epidemiology	362
National Mid-term Plan for Prevention and Control of Dengue and Chikungunya (2011–13) and Beyond	363
Dengue Case Classification and Management Clinical Criteria for DF/DHF/DSS	364
Entomological Surveillance and Larval Indices	364
Chikungunya Fever	366
Japanese Encephalitis (JE)—Acute Encephalitis Syndrome	367
Epidemiology	367
National Programme for Prevention and Control of JE/AES	368
Kyasanur Forest Disease	370
Epidemiology	370
Yellow Fever	370
Waterborne Diseases (WBD)	372
Epidemiology of Diarrhoeal Diseases	372
Classification of Diarrhoea	373
Oral Rehydration Salt (ORS): Reduced Osmolarity ORS	373
Classification of Dehydration	374
Management of Dehydration	374
Prevention of Acute Diarrhoeal Diseases	376
Rotavirus Vaccine in Prevention of Diarrhoea	376
National Diarrhoeal Diseases Control Programme	376
Intensified Diarrhoea Control Fortnights (IDCF) from 2014–22	377
Cholera	377
Epidemiology of Cholera	377
Methods of Prevention and Control of Cholera	378
Epidemic Disease Act, 1897	379
Management of Outbreaks of Cholera	379
Ending Cholera—A Global Roadmap to 2030	380
Use of Oral Vaccine in Cholera Outbreaks	380
Viral Hepatitis	381
Hepatitis A	381
Epidemiology	381
Hepatitis E	382
Epidemiology	382
Hepatitis B—A Silent Killer	383
Epidemiology	383
Prevention of Perinatal HBV Transmission	384
Hepatitis C—the Silent Killer	385
Epidemiology	385
National Viral Hepatitis Control Programme	386
Guinea Worm Disease (Eradicated from India)	387
Enteric Fevers—Neglected Tropical Disease	388
Epidemiology	388
Policy Guidelines on Typhoid Immunization in India	391
WHO Recommended Typhoid Vaccines	391
Newer Vaccines Against Typhoid	391
Zoonotic Diseases	392
Rabies	392
Epidemiology of Rabies	392
Revised National Guidelines on Rabies Prophylaxis (2019)	393
National Rabies Control Programme (NRCP)	398
National Programme for Control of Rabies in Dogs	399
Plague	399

Epidemiology	399
Brucellosis—Neglected Tropical Disease	403
Epidemiology, Prevention and Control	403
Hydatid Disease—a Neglected Tropical Disease	404
Taeniasis and Cysticercosis—Neglected Tropical Diseases	405
Epidemiology, Prevention and Control	405
Toxoplasmosis: Epidemiology, Transmission, Prevention and Control	405
Leptospirosis	406
Programme for Prevention and Control of Leptospirosis—National Guidelines 2015	406
Anthrax: Epidemiology, Prevention and Control	408, 409
Q-Fever	409
Mad Cow Disease and Creutzfeldt-Jakob Disease (CJD)	410
Epidemiology of Vaccine Preventable Diseases	411
Measles	411
Epidemiology	411
Measles Mortality Reduction—India's Multi-year Strategic Plan 2010–2017	414
Measles Rubella Campaign in 2017	414
Rubella and Congenital Rubella Syndrome	415
Road Map to Measles and Rubella Elimination in India by 2023	415
Mumps	416
Chickenpox (Varicella)	416
Pertussis (Whooping Cough): Epidemiology and Prevention	416
Tetanus: Epidemiology and Prevention	417
Maternal and Neonatal Tetanus Eliminated	418
Diphtheria (A Re-emerging Threat)	419
Tuberculosis: Epidemiology and Prevention	420
Epidemiology of Poliomyelitis	420
National Polio Eradication Programme and Key Strategies of National Polio Eradication Programme	421
The Polio Eradication Endgame Strategy 2013–18: Three Steps	423
Introduction of Inactivated Polio Vaccine (IPV)	424
Withdrawal of Type 2 Component of OPV: Switch from Trivalent OPV to Bivalent OPV	424
Endgame Strategy	424
Acute Respiratory Infections (ARIs)	425
Epidemiology of ARI	425
National Policy on ARI Control	426
Meningococcal Disease	430
Epidemiology	430
Managing Patients with MD and Control of Epidemics	432, 433
Yaws and its Eradication Programme (YEP)	433
Severe Acute Respiratory Syndrome (SARS)	435
Influenza	437
Avian Influenza and Human Health (New Threat)	438
Pandemic Influenza A (H1N1) 2009 (Swineflu)	440
Middle East Respiratory Syndrome (Coronavirus)	443
Ebolavirus Disease (EVD)	443
NIPAH: Epidemiology and Prevention	444
Zika Virus Infection/Disease and its Prevention	444
Monkeypox—Declared by WHO as PHEIC	445
Epidemiology of Non-communicable Diseases and Related Disease Specific National-Health Programmes	446
A Case Study on Unhealthy Life Styles	446
Epidemiology of Cardiovascular Diseases (CVDs) (Unhealthy Lifestyle Diseases)	446
Disease Burden	446
Natural History and Levels of Prevention of CVDs	447
Modifiable Risk Factors of CVDs	449
Surveillance of Risk Factors	452
Obesity (an Epidemic in India)	452
Epidemiology	452
Measuring Obesity	452
Consequences of Obesity	454
Prevention and Control of Obesity	454
Diabetes	455

Epidemiology	455
Criteria for the Diagnosis of Diabetes Mellitus	456
Types of Diabetes	456
Prevention of Diabetes	458
Screening Programmes for Diabetes	459
Hypertension (a Silent Killer)	460
Epidemiology of Hypertension	460
Rules of Halves in Hypertension	460
What Constitutes Hypertension	460
Prevention of Hypertension	462
Rheumatic Heart Disease (RHD)	463
Epidemiology of RHD	463
Prevention of Rheumatic Fever and RHD	464
National Programme for Prevention and Control of Cancer, Diabetes, Cardiovascular Diseases and Strokes (NPCDCS)	467
Disease Burden due to NCDs in India	467
Components of NPCDCS	468
Levels of Prevention in NCDs	469
Primordial Prevention in NCDs	469
Population-based Screening for NCDs	471
Cancer—Screening of Common Cancers and Referral	472
Package of Services for NCDs	475
New Initiatives for Control and Prevention of NCDs	475
WHO Global Action Plan and Monitoring Framework for Prevention and Control of NCDs by 2025	476
National NCD Monitoring Survey 2017–18	476
Accidents and Injuries: Hidden Epidemic	477
Pandemic of Road Traffic Accidents (RTA)	477
Epidemiology of RTA	478
Prevention of Accidents	481
Motor Vehicle Act, 2019	481
National Programme for Prevention and Management of Trauma and Burn Injuries	482
National Programme for Prevention and Management of Burn Injuries (NPPMBI)	483
Blindness	484
Epidemiology of Blindness	484
National Blindness Survey in Population—2019	485
National Programme for Control of Blindness and Visual Impairment (NPCBVI)	486
District Blindness and Visual Impairment Control Programme (DBVICP)	487
Global Trachoma Mapping Project and Elimination by 2020	489
New Initiatives during 12th Five-Year Plan	489
Cancers	490
Epidemiology of Cancers	490
Common Cancers in India	490
An Atlas of Cancer in India	490
National Cancer Control Programme in India	492
Cost Effective Strategies—Best Buys as per WHO	492
Vaccines Against Cancer	492
National Cancer Registry Programme (NCRP)	493
National Oral Health Programme (NOHP)	494
Oral Disease Burden	494
Objectives of National Oral Health Programme (NOHP)	495
Strategies for Implementation	495
National Programme for Prevention and Control of Deafness	497
National Organ Transplant Programme (NOTP)	498
Educating and Training of Health Workers in Disease Surveillance, Control, Treatment and Health Education for CCDs and NCDs	498
Health Management Information System (HMIS)	499
Development of HMIS in India—A Case Study	500
Records and Registers at Sub-centre	502
Integrated Reproductive and Child Health Register (IRCHR)	502
Civil Registration System (CRS)	505
Sample Registration System (SRS)	506
Model Registration Survey of Cause of Death	507

---

**9. Demography, Vital Statistics, Population Stabilization and Medical Genetics (Part I) 508–538**

---

- Principles of Demography 508
- Demographic Transition/Cycle 508
- Population Explosion 510
- Population Dynamics and Consequences of Population Explosion 510, 511
- Demographic Indices (Demographic Indicators and Vital Statistics) Population Statistics 511
- Causes of Declining Sex Ratio and their Social and Health Implications 514
- Vital Statistics 516
- Fertility Rates/Indicators 518
- Methods of Population Control 521
- National Population Policy 522
- Sources of Vital Statistics (Census, NFHS, NSSO and SRS) 526–528
- Medical Genetics 529
- Chromosomal Abnormalities 530
- Epidemiology of Genetic Disorders and Services 531
- Birth Defects Surveillance System 531
- The Human Genome Project and Human Genome Diversity Project 535
- The Preconception and Prenatal Diagnostic Techniques (PC-PNDT) (Prohibition of Sex Selection) Act, 1994 and Amended Rules, 2021 536
- The Medical Termination of Pregnancy Act, 1971 537

## Part II

### Applied Sciences Related to Community Medicine (Topics 8 and 10 to 20)

**10. Reproductive, Maternal, Newborn, Child and Adolescent Health (RMNCH + A)—Part of Applied Sciences 539–603**

---

- Current Status of RMNCH + A 539
- Major Health Problems of Women and Children 539, 540
- Local Customs and Practices during Pregnancy Childbirth, Lactation and Child Feeding Practices 540
- Child Survival and Safe Motherhood (CSSM) Interventions 541
- Reproductive and Child Health Phase 1 and Phase 2 541
- RMNCH + A Approach 543
- Reproductive, Maternal, Newborn, Child and Adolescent Health (RMNCH + A) Interventions 545
- Tracking Every Pregnant Women by Name, Methods of Screening of High Risk Pregnant Women and Newborns and Young Children 547
- India's Maternal Mortality on Decline 551
- National Strategies/Interventions for Reduction of MMR 555
- Neonatal, Infant and Child Mortality 557
- National Strategies Interventions to Reduce IMR and U5MR 562
- India Newborn Action Plan 565
- Universal Immunization Programme 567
- Integrated Management of Neonatal and Childhood Illness 578
- School Health Programme 583
- Rashtriya Bal Swasthya Karyakram 587
- Physiology, Clinical Management and Principles of Adolescent Health 588
- National Programmes and Policy for Adolescent Health and Development 590
- Rashtriya Kishor Swasthya Karyakram (RKSK) 590
- Kishori Shakti Yojna 593
- Rajiv Gandhi Scheme for Empowerment of Adolescent Girls—SABLA 593
- Various Family Planning Methods—their Advantages and Shortcomings 594
- Basis and Principles of National Family Planning/Welfare Programme and Organization and Operational Aspects 595
- Gender Issues and Women Empowerment 598
- Beti Bachao Beti Padhao Scheme 603

<b>11. Occupational Health</b>	<b>604–622</b>
Occupational/Workplace Safety and Health	604
Specific Occupational Health Hazards, their Risk Factors and Preventive Measures	605
Pneumoconioses, Silicosis, Asbestosis, Anthracosilicosis	605–607
Presenting Features of Patients with Occupational Illness	607
Byssinosis and Extrinsic Allergic Alveolitis	608
Diseases Caused by Lead and its Toxic Compounds	609
Effects of Heat, Radiation, Compressed Air, Noise and Vibration	610–613
Occupational Dermatoses	613
Carbon Monoxide Poisoning	614
Coal Mines and other Mines—Health Problems	614
Industrial Accidents	615
Prevention and Control of Occupational Hazards	615
Principles of Ergonomics in Health Preservation	616
Role, Benefits and Functioning of Employees State Insurance Scheme of India	619
Employees State Insurance (ESI) Act, 1948	619
Occupational Disorders of Health Professionals, their Prevention and Management	621
<b>12. Geriatrics—“Add Life to the Years”</b>	<b>623–632</b>
Concept of Geriatric Services	623
Gerontology	623
Health Problems of Elderly/Geriatric People	624
Prevention of Health Problems of Aged	625
Action Towards Active Ageing	626
Katz index on Independence in Daily Living Activities	628
A Young Man of Hundred Years (1997)—A Case Study	629
National Policy on Older Persons (1999)	630
National Programme for Healthcare of Elderly (NPHCE)	631
<b>13. Disaster Preparedness and Management</b>	<b>633–640</b>
Concept of Disaster Management	633
Global Phenomenon	633
Disaster Management Cycle	634
National Disaster Management Plan	634
Disaster Management Act	634
Disaster Preparedness	634
Response to Disaster	635
Natural Disasters in India	635
Types of Disasters in India	636
Man-made Disasters in India and World	636
National Disaster Management Authority	637
Bioterrorism	640
<b>14. Hospital Waste Management</b>	<b>641–648</b>
Definition of Waste	641
Biomedical Waste Generation and Classification	641
Hazards of Biomedical/Healthcare Waste	642
National Guidelines for Hospital Waste Management/Laws for Hospital Waste Management	643
Biomedical Waste Categories and their Segregation, Collection, Treatment, Processing and Disposal Options	644
Biodegradable Plastic and Medical Waste	647
Hazards of Plastic	648
<b>15. Mental Health</b>	<b>649–664</b>
Concept of Mental Health	649
Burden of Mental Disorders in India	649
Beliefs—Attitudes and Practices in Relation to Mental Disorders—A Case Study	650
Warning Signals of Mental Health Disorders	651
National Mental Health Programme	651

District Mental Health Programme	651
Mental Healthcare Act	653
National Mental Health Policy of India 2014	654
Substance Use Disorders (Drug Abuse)	655
Social Problem of Drug Abuse—A Case Study	656
Tobacco Pandemic	658
Global Adult Tobacco Survey (GATS) 2010 and 2016–2017	658
Global Youth Tobacco Survey	658
Cigarettes and Other Tobacco Products Act (COTPA), 2003	660
National Tobacco Control Programme (NTCP)	660
Intellectual Disability (ID) or Intellectual Development Disorders (IDDs)	661
Intelligence	662
Juvenile Delinquency (JD)	662
Juvenile Justice Act of 1986	663
Child Marriage	663
Child Marriage Restraint Act of 1976	663
Child Guidance Clinic/Centre	663

## 16. Health Planning and Management

665–702

Health Planning in India	665
National Health Policy 1983	665
NITI Aayog	665
National Health Policy, 2017	666
Concept of Health Planning	669
Planning Cycle	670
Assessment of Health Service Needs CHNA for 2020–21—a Case study	671
Health Management	676
