<i>Preface to the Third Edition</i>	vii		
<i>Preface to the First Edition</i>	viii		
		Section 5	
		Opportunistic Mycoses	
Section 1		15. Candidiasis	131
General Topics		16. Cryptococcosis	144
1. Introduction, Taxonomy and Classification of Fungi	3	17. Pneumocystosis	152
2. Epidemiology and Laboratory Diagnosis of Mycoses	16	18. Talaromycosis	157
3. Antifungal Drugs	29	19. Aspergillosis	161
		20. Mucormycosis and Entomophthoromycosis	170
		21. Hyalohyphomycosis	181
Section 2		Section 6	
Superficial Cutaneous Mycoses		Miscellaneous Mycoses	
4. Pityriasis Versicolor, Tinea Nigra and Piedra	45	22. Oculomycosis	191
5. Dermatophytosis	51	23. Adiaspiromycosis	198
Section 3		24. Rhinosporidiosis	202
Subcutaneous Mycoses		25. Microsporidia	207
6. Mycetoma	67	26. Mycotoxicosis	212
7. Sporotrichosis	80	27. Antifungal Susceptibility Testing	217
8. Chromoblastomycosis	84		
9. Phaeohyphomycosis	89	Section 7	
10. Lacaziosis	97	Appendices	
Section 4		A. Culture Media	231
Systemic Mycoses		B. Laboratory Procedures	236
11. Histoplasmosis	103	C. Staining Methods	240
12. Blastomycosis	112	D. Glossary	247
13. Coccidioidomycosis	118	E. Overview of Medical Mycology	252
14. Paracoccidioidomycosis	124	<i>Index</i>	257
