<i>Foreword by Yogesh S Marfatia</i>	<i>vi</i>
<i>Foreword by Ramesh Bhat M</i>	<i>vii</i>
<i>Preface</i>	<i>ix</i>
1. Epidemiological Transformation of Dermatophytes in India: Changing Morphological Patterns <i>Manjunath Shenoy M</i>	1
2. Epidemiological Transformation of Dermatophytes in India: Mycological Evidence <i>Shital Poojary</i>	7
3. Investigations for Diagnosing Dermatophyte Infection <i>Shukla Das, Richa Anjleen Tigga</i>	14
4. Dermoscopy of Dermatophytoses <i>Ananta Khurana, Deepak Jakhar</i>	32
5. General Measures for Treating Fungal Infections <i>Namrata Chhabra</i>	39
6. Topical Therapies for Treatment of Dermatophytosis <i>Namrata Chhabra, Kabir Sardana</i>	41
7. Role of Antifungal Powders, Soaps and Washes <i>Namrata Chhabra</i>	51
8. Systemic Agents for Treatment of Dermatophytoses <i>Madhu Rengasamy, C Janaki, G Sentamilselvi</i>	52
9. Rationale of use of Antifungal Drugs Based on Skin Pharmacokinetics <i>Pooja Arora Mrig, Kabir Sardana</i>	65
10. Steroid Modified Tinea <i>Yogesh S Marfatia, Devi S Menon</i>	73
11. Overview of Causes and Treatment of Recalcitrant Dermatophytoses <i>Kabir Sardana, Ananta Khurana</i>	80
12. Treatment of Dermatophytic Infection of Hair <i>Taru Garg, Sucheta Sharma, Sanjay Kr Rath</i>	105
13. Treatment of Dermatophytic Infection of Nail <i>Chander Grover, Prachi Kawthekar</i>	112

14. Treatment of Fungal Infections in Special Conditions	121
<i>Ananta Khurana</i>	
15. Special Procedures: Laser, PDT Treatment for Dermatophytoses	136
<i>Ananta Khurana</i>	
16. Scenarios	147
Case 1: A Management Protocol in Clinical Practice	147
<i>Shyam Verma</i>	
Case 2: <i>Microsporum Canis</i> : An Unusual Cause of Tinea Corporis	152
<i>Manjunath Shenoy M</i>	
Case 3: A Different Oral Azole and its Results	153
<i>Madhu Rengasamy</i>	
Case 4: An Unusual cause of Onychomycosis	155
<i>Chander Grover, Prachi Kawthekar</i>	
Case 5: Tinea with Steroid Induced Ulcers	157
<i>Shilpa Garg</i>	
Case 6: Ciclopirox: Recalling a Forgotten Ally in our Fight Against Cutaneous Mycoses in the Era of Rampant Antifungal Therapeutic Failure and Rising Azole Resistance	159
<i>Sidharth Sonthalia</i>	
Case 7: Tinea Management in a Child	164
<i>Shital Poojary</i>	
Case 8: Itraconazole use in Tinea Corporis	165
<i>Shital Poojary</i>	
Case 9: Majocchi's Granuloma	167
<i>Ananta Khurana</i>	
Case 10: Griseofulvin in Tinea Capitis	171
<i>Taru Garg</i>	
Case 11: Tinea Incognito—A Management Protocol	172
<i>Pooja Arora Mrig</i>	
Case 12: Using an Apparently Ineffective Drug with Effective Results: Terbinafine, Ketoconazole and Synergism	174
<i>Kabir Sardana</i>	
Case 13: The Patient who did not Respond to the Most Expensive Brand of Itraconazole	176
<i>Kabir Sardana</i>	
Case 14: The National Plague-steroid Abuse. How to Tackle it in the Context of Tinea	177
<i>Kabir Sardana</i>	
Case 15: They do not Promote it but it has its advantages: Fluconazole	179
<i>Kabir Sardana</i>	
Case 16: Griseofulvin as an Alternative in Resource Restricted Setup	181
<i>Yogesh S Marfatia</i>	
Case 17: Look for Tinea before and after You Prescribe Potent Topical Corticosteroids	182
<i>Yogesh S Marfatia</i>	
Case 18: A Quasi Multidrug Therapy with the Anchor oral Drug Updosed and Prolonged with a Different Class of Topical Agent Attacking the Dermatophytes Utilizing a Different Mechanisms of Action	184
<i>Premanshu Bhushan</i>	
<i>Index</i>	185
