<i>Preface</i>	<i>xi</i>

Section I Basic Knowledge on Hysteroscopy

1. Hysteroscopes: Equipment and Instruments, Hystero-optics and Vaginoscopic Technique	3
<i>Mounir M Khalil</i>	
2. Uterine Distension Media: Types, Comparison and Recommendations	19
<i>Fatema Ashraf, Rokeya Begum, Shahlagemin</i>	
3. Techniques: Diagnostic and Operative Office Hysteroscopy	28
<i>Richa Sharma, Rahul Manchanda</i>	
4. Distension Media Problems: Fluid Overload and its Management	36
<i>Rahul Manchanda, Aayushi Rathore</i>	
5. Modalities to Reduce Volume of Systemic Fluid Absorption (Preoperative and Intraoperative)	42
<i>Richa Sharma, Rahul Manchanda</i>	
6. Monitoring Fluid Deficit	44
<i>Richa Sharma, Rahul Manchanda</i>	
7. Advanced Hysteroscopy Unit	48
<i>Sushma Deshmukh</i>	
8. Innovations in Hysteroscopy	63
<i>Richa Sharma, Salvatore Giovanni Vitale, Gaetano Riemma, Rahul Manchanda</i>	

Section II Different Case Scenarios**Management Algorithms:** Diagnosis, Appropriate Preoperative Preparations and Postoperative Management

1. Case 1: Cervical Stenosis	79
<i>Mario Franchini, Giampietro Gubbini, Rahul Manchanda, Richa Sharma</i>	
2. Case 2: Hemorrhage	89
<i>Alappat Kurian Joseph</i>	
3. Case 3: Uterine Perforation	93
<i>PG Paul</i>	
4. Case 4: Saline Media induced Operative Hysteroscopy Intravascular Absorption (OHIA) Syndrome or Glycine Media induced Gynecological TURP Syndrome	100
<i>Péter Török, Richa Sharma, Rahul Manchanda</i>	
5. Case 5: Air Embolism	107
<i>Ashish Ramchandra Kale, Richa Sharma, Rahul Manchanda</i>	
<i>Index</i>	111
