## PART A NURSING RESEARCH

### Chapter 1: Fundamentals of Nursing Research

3–29

Introduction 4	Historical Developments of Nursing Research 12
Meaning of Research and Nursing Research 4	Characteristics of Good Research 16
Methods of Acquiring Knowledge in Nursing 5	Qualities of a Good Researcher 17
Problem-Solving 8	Types of Research 18
Scientific Methods 8	Scope and Areas of Nursing Research 19
Needs and Purposes for Nursing Research 11	Gaps and Challenges in Nursing Research 21
Importance and Significance of Nursing Research 12	Concept of Evidence-Based Practice 22

### Chapter 2: Overview of Research Process

30–43

Introduction 32	Qualitative Research Process 38
Research Process 32	Key Differences Between the Quantitative and Qualitative Research Process 41
Quantitative Research Process 33	

### Chapter 3: Ethics in Nursing Research

44–62

Introduction 45	Ethical Guidelines for Biomedical and Health Research (ICMR, 2017) 49
History of Development of Ethical Code for Research 46	Informed Consent 50
Definition 47	Institutional Ethics Committee 55
Purpose of Ethics in Nursing Research 47	RTI in Research 59
Fundamental Ethical Principles in Nursing Research 47	Ethical Responsibilities of a Researcher 59

**Chapter 4: Research Problem****63–84**

Introduction	64	Formulating the Research Problem	70
Definitions	65	Elements of Problem Statement	72
Identification of Research Problem	65	Identification of Variables	73
Sources of Research Problem	66	Operational Definitions	78
Criteria to Select Good Research Problem	68	Research Objectives	79

**Chapter 5: Hypothesis and Assumption****85–101**

Hypothesis	86	Delimitations	95
Assumption	92	Limitations	98

**Chapter 6: Literature Review****102–122**

Introduction	103	Steps of Literature Review	110
Meaning and Definition of Literature Review	103	Important Points to be Considered	
Importance and Purposes of Literature Review	104	While Writing Literature Review	116
Types of Literature Review	105	Annotated Bibliography	117
Sources of Literature Review	106	Components of Annotated Bibliography	117

**Chapter 7: Theoretical and Conceptual Framework in Nursing Research****123–144**

Introduction	124	Application of Theory in	
Terminologies	124	Nursing Research	130
Models and Conceptual Models in Nursing	127	Use of Theories in Developing	
Classification of Nursing Theories	127	Conceptual Framework	131
Building Blocks of Theories	130	Theoretical and Conceptual Framework	131

**Chapter 8: Research Approaches and Designs****145–219**

Introduction	147	Characteristics of a Good Research Design	151
Definitions	147	Selection of Research Design	152
Research Approaches and Designs	147	Validity of Research Designs	153
Key Elements of Research Designs	149	Types of Research Designs	158

**Chapter 9: Sampling Techniques in Nursing Research****220–249**

Introduction	221	Characteristics of a Good Sample	243
Sampling Process	222	Advantages of Sampling	243
Sampling Error	226	Disadvantages of Sampling	244
Sampling Techniques	227	Sample Size Calculation	244
Factors Affecting Sampling Process	241		

**Chapter 10: Tools and Techniques of Data Collection****250–294**

Introduction	251	Methods and Tools of Data	
Concept of Data Collection	252	Collection	255
Sources of Data	252	Pilot Study	289
Selecting a Data Collection Method and Tool	254	Process of Data Collection	291

**Chapter 11: Validity and Reliability of Research Tools****295–304**

- Introduction 296  
 Characteristics of Data Collection Instruments/Tools 296  
 Establishing Validity of a Tool 297  
 Estimating Reliability 299  
 Sensitivity and Specificity of Diagnostic Tools 300  
 Validity and Reliability in Qualitative Research 301

**Chapter 12: Analysis and Interpretation of Data****305–348**

- Introduction 306  
 Types of Data 306  
 Unit of Analysis 307  
 Levels of Measurements 308  
 Analyzing Quantitative Data 310  
 Use of Computers and Statistical Packages for Quantitative Data Analysis 322  
 Analyzing Qualitative Data 324  
 Software Packages for Qualitative Research 326  
 Validity and Reliability of Qualitative Research 326  
 Presentation of Research Findings 327  
 Writing Conclusion, Limitations, Implications and Recommendations 343

**Chapter 13: Communication, Critiquing and Utilization of Research Findings****349–392**

- Introduction 350  
 Communicating/Disseminating Research Findings and Their Importance 350  
 Criteria for Communicating the Research 351  
 Methods of Communicating Research Findings 351  
 Abstracts 353  
 Posters 354  
 Oral Presentations 355  
 Developing a Policy Brief 356  
 Peer Reviewed Research Papers/Scientific Writing 357  
 Writing Research Report 360  
 Funding for Research 378  
 Research Utilization 385

**PART B STATISTICS****Chapter 14: Introduction to Statistics and Organization of Data****395–417**

- Introduction 396  
 Application of Statistics in Research 396  
 Levels of Measurement of Data 397  
 Organization and Presentation of Data 399  
 Tabulation of Data 399  
 Graphical Presentation of Data 402

**Chapter 15: Descriptive Statistics: Measures of Central Tendencies and Variability****418–444**

- Descriptive Statistics 419  
 Measures of Central Tendency 419  
 Measures of Variability/Dispersion 429

**Chapter 16: Normal Distribution and Correlation Coefficient****445–460**

- Introduction 446  
 Z-Score 446  
 Normal Probability Curve 447  
 Skewness 448  
 Kurtosis 449  
 Correlation 450  
 Methods of Studying Correlation 451

**Chapter 17: Inferential Statistics****461–493**

Introduction 462

Tests of Significance 465

Various Tests of Significance 468

**Chapter 18: Vital and Health Statistics****494–509**

Vital Statistics 495

Uses of Vital Statistics 495

Methods of Obtaining Vital Statistics 497

Measures of Vital Statistics 497

Few Ratios of Vital Importance 503

Health and Health Statistics 504

Measures of Morbidity 504

Measures of Disability 506

**Annexures****511–537***Annexure 1: t-test Table .....511–512**Annexure 2: Chi-square Distribution Table ..... 512–513**Annexure 3: Critical Values for Correlation Coefficients ..... 514–515**Annexure 4: Spearman Correlation Coefficient Table ..... 515–516**Annexure 5: CONSORT 2010 Flow Diagram ..... 516–519**Annexure 6: PRISMA 2020 Checklist ..... 519–522**Annexure 7: STROBE Statement—Checklist of Items that should be Included in Reports of  
Observational Studies ..... 522–524**Annexure 8: COREQ (Consolidated Criteria for REporting Qualitative Research) Checklist ..... 525–526**Annexure 9: Common Reference Examples Guide ..... 527–529**Annexure 10: Template for the Hard Copy Submission of Dissertation/Thesis Instructions  
to Candidates ..... 530–534**Annexure 11: Critical Values of the Mann-Whitney U (Two-tailed Testing) ..... 534–535**Annexure 12: Random Numbers Table ..... 535–537***Index****539–548**
