

# Contents

## Preface

v

## 1. Introduction to Pathology

1

- A. History and Evolution of Pathology 3
- B. The Role of Pathology in Disease Diagnosis and Management 4
- C. Understanding the 'Pathogenesis' of Diseases 5

## 2. General Pathology

6

- A. Cell Injury and Adaptation 6
- B. Inflammation 7
- C. Haemodynamic Disorders 8
- D. Neoplasia 9
- E. Immunopathology 10
- F. Infections 11
- G. Genetic Disorders 12
- H. Environmental and Nutritional Diseases 13
- I. Miscellaneous 14

## 3. Systemic Pathology

16

- A. Cardiovascular System 16
- B. Respiratory System 17
- C. Gastrointestinal System 18
- D. Hepatobiliary System 19
- E. Breast 20
- F. Endocrine System 21
- G. Nervous System 22
- H. Kidney and Urinary Tract 23
- I. Female Genital Tract 24
- J. Male Genital Tract 25
- K. Bone and Soft Tissue 26
- L. Skin 27
- M. Miscellaneous 28

## 4. Haematology

30

- A. Introduction to Haematology 30
- B. Anaemias 31
- C. Disorders of Leukocytes 33
- D. Disorders of the Spleen, Lymph Nodes and Plasma Cells 34
- E. Bleeding and Coagulation Disorders 35

|                                                  |     |
|--------------------------------------------------|-----|
| 5. Clinical Pathology                            | 37  |
| 6. Diagnostic Cytology and Staining              | 40  |
| 7. Blood Banking and Blood Transfusion           | 43  |
| 8. Pathology Specimens (Gross Examination)       | 46  |
| 9. Pathology Specimens (Microscopic Examination) | 52  |
| 10. Instruments                                  | 57  |
| 11. Peripheral Blood Smear                       | 62  |
| 12. Bone Marrow Aspiration and Biopsy            | 67  |
| 13. Cerebrospinal Fluid Analysis                 | 69  |
| 14. Sputum Analysis                              | 71  |
| 15. Pleural Fluid Analysis                       | 72  |
| 16. Ascitic Fluid Analysis                       | 74  |
| 17. Urine Analysis                               | 75  |
| 18. Semen Analysis                               | 77  |
| 19. Synovial Fluid Analysis                      | 78  |
| 20. Liver Function Tests                         | 79  |
| 21. Kidney Function Tests                        | 81  |
| 22. Thyroid Function Tests                       | 83  |
| 23. Cardiac Function Tests                       | 84  |
| 24. Miscellaneous Topics                         | 85  |
| 25. Recent Advances in Pathology                 | 87  |
| 26. Simulation Based Teaching (Skills Lab)       | 89  |
| 27. Attitude, Ethics and Communication (AETCOM)  | 94  |
| 28. Integration                                  | 98  |
| Final Summary                                    | 101 |
