<i>Contributors</i>	v
<i>Foreword by Prof (Dr) SP Rao</i>	vii
<i>Preface</i>	ix
1. Clinical Management of Poisoning: General Issues	1
2. Approach to a Suspected Poison Consuming Patient and Monitoring	11
3. Classification of Poisons and Duties of the Doctor in Cases of Poisoning	24
4. Mechanical Ventilation in Poisoning Cases	46
5. Inotropes and Drugs Commonly Used in Emergency Care	56
6. Corrosives	68
7. Non-metallic Irritant Poisons	76
8. Metallic Irritant Poisons	79
9. Vegetable Irritant Poisons	89
10. Mechanical Irritants	96
11. Poisonous Creatures	97
12. Food Poisoning	120
13. Cerebral Poisons	122
14. Deliriant Poisons	148
15. Agrochemical Poisons	174
16. Cardiovascular Plant Poisons	187
17. Irrespirable Gases	192
18. Analgesics and Antipyretics	198
19. Hallucinogens	205
20. Spinal and Peripheral Nerve Poisons	209
21. Toxicological Evidence	211
22. Household Poisons	218
23. Summary of Poisons	223
24. Chemical Terrorism	247

25. Laboratory Tests and Analytical Techniques	251
26. Poisoning in Elderly	258
27. Schedule Y	269
28. Pharmacovigilance	276
29. Current Poison Scene	282
30. Phosgene (COCl) Poisoning	295
31. Nanotoxicity	303
32. Occupational Toxicity	308
33. Button Battery Swallowing, Consequences and Management	315
34. Poisoning in Pregnant Women	318
35. Bioterrorism	320
36. Poisoning in Children	325
Index	337
