## SEMESTER VI

### Section I Introduction to Midwifery

<b>Chapter 1 History and Current Scenario of Midwifery .....</b>	<b>3–24</b>
• History of Midwifery in India 4	
• Trends of Maternity Services in India 6	
• Current Scenario of Midwifery in India 7	
• Vital Health Indicators 10	
• Maternal Mortality 10	
• Maternal Morbidity Rate 12	
• Perinatal Mortality 13	
• Stillbirth Rate 14	
• Neonatal Mortality Rate 14	
• Infant Mortality Rate 15	
• Maternal Death Audit 16	
• National Health Programs Related to RMNCH+A 17	
<b>Chapter 2 Current Trends in Obstetrical and Gynecological Nursing .....</b>	<b>25–44</b>
• Respectful Maternity and Newborn Care 26	
• Midwife-Led Care 28	
• Woman-Centered Care 29	
• Physiologic Birth 30	
• Water Birth 31	
• Lotus Birth 32	
• Essential Competencies for Basic Midwifery Practice 34	
• Universal Rights of Women and Newborns 41	
• Sexual and Reproductive Health and Rights 42	
<b>Chapter 3 Legal Provisions and Ethical Issues in Midwifery Practice in India.....</b>	<b>45–64</b>
• Legal Provisions in Midwifery Practice in India 46	
• Ethics in Midwifery 48	
• Ethical Issues in Midwifery Practice 50	
• Adoption Laws/Acts in India 52	
• Medical Termination of Pregnancy 55	
• Issues of Female Feticide/Infanticide 56	
• Surrogacy 57	
• Roles and Responsibilities of Midwife in Different Settings 59	
• Scope of Practice for Midwives 61	

## Section II Anatomy and Physiology of Female Reproductive System and Conception

### Chapter 4 Review of Anatomy and Physiology of Female Reproductive System..... 67–82

- Female Organs of Reproduction 68
- Female Pelvis 73
- Physiology of Menstrual Cycle 76
- Menstrual Hygiene 79

### Chapter 5 Conception and Fetal Development ..... 83–101

- Fetopelvic Relationship 84
- Embryological Development 86
- Placental Development 91
- Liquor Amnii (Amniotic Fluid) 93
- Umbilical Cord 94
- Fetal Skull 95
- Fetal Circulation 97
- Fetal Nutrition 98

## Section III Assessment and Management of Antenatal Period

### Chapter 6 Human Sexuality and Prepregnancy Care..... 105–121

- Review of Sexual Development 106
- Sociocultural Aspects of Human Sexuality 107
- Preconception Care 109
- Preconception Counseling 113
- Genetic Counseling 117
- Planned Parenthood 118

### Chapter 7 Normal Pregnancy ..... 122–136

- Introduction 123
- Stages of Pregnancy 123
- Physiological Changes During Pregnancy 123
- Psychological Changes During Pregnancy 126
- Psychological Changes According to Trimester of Pregnancy 127
- Confirmatory Tests to Assess and Confirm Pregnancy 128
- Signs of Pregnancy 128
- Signs and Symptoms in Three Trimesters of Pregnancy 129
- Differential Diagnosis of Pregnancy 131
- Review of Maternal Nutrition and Malnutrition 131
- Building Partnership with Women and Following Respectful Maternity Care Protocol 133
- Father's Engagement in Maternity Care 134

### Chapter 8 Antenatal Care—First Trimester ..... 137–162

- Antenatal Assessment 138
- Antenatal Examination 139
- Laboratory Investigations 144
- Disorders of Pregnancy 146
- Antenatal Care as per Government of India Guidelines 148
- Antenatal Counseling 149
- Danger Signs in First Trimester of Pregnancy 153
- Respectful Care and Compassionate Communication 153
- Recording and Reporting: Clinical Procedures as per Government of India Guidelines 154
- Government of India's Current Model of Antenatal Care Provision 155
- Role of ASHA/Doula 159
- Health Education 159

### Chapter 9 Antenatal Care—Second and Third Trimester ..... 163–191

- Antenatal Assessment 164
- Assessment of Fetal Well-Being 164
- Education and Management of Physiological Changes and Discomforts of Second Trimester 182
- Rh-Negative Mother 183
- Referral, Collaboration and Empowerment 183
- Ongoing Risk Assessment 184
- Maternal Mental Health 185
- Management of Physiological Changes and Discomforts in Third Trimester 186
- Antenatal Educational Classes in Third Trimester 187
- Fetal Engagement in Late Pregnancy 188

### Chapter 10 Childbirth Preparation and Women-Centered Care ..... 192–200

- Birth Preparedness and Complication Readiness 193
- National Protocols for Different Scenarios 194
- Danger Signs in Late Pregnancy 194
- Woman-Centered Care 195
- Alternative Birthing Positions 196
- Ongoing Risk Assessment 197
- Cultural Needs 197
- Exclusive Breastfeeding 199

## Section IV Assessment and Management of Intranatal Period

### Chapter 11 Physiology, Management and Care During Labor ..... 202–264

- Introduction 204
- Labor 204
- Prelabor or Premonitory Signs of Labor 205
- Physiology of Normal Labor 207
- Vaginal Examination 209
- Organization of Labor Room 209
- Triage 209
- Preparation for Birth 211
- Positive Birth Environment 212
- Respectful Care and Communication 212
- Drugs Used in Labor 213
- First Stage of Labor 222
- Monitoring Progress of Labor using Partograph 226
- Care During First Stage of Labor 236
- Pain Relief in Labor 237
- Psychological Support—Managing Fear 239
- Activity and Positioning During First Stage of Labor 240
- Positive Childbirth Experience 241
- Second Stage of Labor 242
- Third Stage of Labor 249
- Fourth Stage of Labor 255
- Childbirth Practices 259
- Safe Environment for Mother and Newborn 261
- Maintaining Records and Reports 262

## Section V Assessment and Management of Postnatal Period

### Chapter 12 Postpartum Care..... 267–284

- Normal Puerperium 268
- Postnatal Assessment 270
- Postnatal Management 272
- Minor Ailments and their Management in Postnatal Period 273
- Breastfeeding and Latching 274
- Lactation and its Management 277
- Postnatal Counseling and Psychosocial Support 280
- Normal Postnatal Baby Blues and Recognition of Postnatal Depression 281
- Transition to Parenthood 281

### Chapter 13 Care for Woman after Childbirth..... 285–296

- Cultural Competence: Taboos Related to Postnatal Diet and Practices 286
- Diet During Lactation 287
- Postpartum Family Planning 288
- Follow-up of Postnatal Mothers 290
- Drugs Used in the Postnatal Period 292
- Records and Reports 295

## Section VI Assessment and Ongoing Care of Normal Neonates

### Chapter 14 Ongoing Care of Normal Neonates..... 299–321

- Family-Centered Care 300
- Respectful Newborn Care and Communication 300
- Normal Neonate—Physiological Adaptation 301
- Newborn Assessment—Screening for Congenital Anomalies 302
- Care of Newborn/Essential Newborn Care 306
- Skin-to-Skin Contact and Thermoregulation 308
- Infection Prevention and Control in Newborn 309
- Immunization 312
- Minor Disorders of Newborn and their Management 313

## Section VII Family Welfare Services

### Chapter 15 Family Welfare Services and Gender-Related Issues..... 325–366

- Impacts of Early/Frequent Childbearing 326
- Family Planning 327
- Medical Eligibility Criteria for Use of Various Family Planning Methods 337
- Myths and Misconception for Use of Various Family Planning Methods 338
- Emergency Contraceptives 339
- Recent Trends and Research in Contraception 339
- Family Planning Counseling Using Balanced Counseling Strategy 344
- Legal and Rights Aspects of Family Planning 349
- Human Rights Aspects of Family Planning for Adolescents 350
- Youth-Friendly Services 351
- Importance of Follow-up and Recommended Timing after Contraceptive Initiation 357
- Gender-Based Violence 357
- Special Courts for Abused People 360
- Gender-Sensitive Health Services Including Family Planning 361
- Sexual Violence 364

## SEMESTER VII

### Section VIII Recognition and Management of Problems During Pregnancy

#### Chapter 16 High-Risk Pregnancy and Complications of Pregnancy..... 369–394

- High-Risk Approach 370
- High-Risk Pregnancy 370
- Problems/Complications of Pregnancy 371
- Bleeding in Early Pregnancy—Abortion 373
- Ectopic Pregnancy 379
- Hydatidiform Mole (Abnormal Condition of Placenta) 383
- Antepartum Hemorrhage (Bleeding in Late Pregnancy) 386

#### Chapter 17 Medical Conditions Complicating Pregnancy..... 395–426

- Anemia 396
- Pregnancy-Induced Hypertension 400
- Gestational Diabetes Mellitus 406
- Cardiac Diseases in Pregnancy 409
- Pulmonary Diseases in Pregnancy 412
- Gastric Aspiration 413
- Thyrotoxicosis 413
- Sexually Transmitted Diseases 415
- HIV Infection in Pregnancy 418
- Acquired Immunodeficiency Syndrome 421
- Rh Incompatibility 421

#### Chapter 18 Gynecological and Surgical Conditions Complicating Pregnancy..... 427–461

- General Surgery During Pregnancy 428
- Nongynecological Conditions Complicating Pregnancy 428
- Hydramnios 429
- Multiple Pregnancy 432
- Abnormalities of Placenta 437
- Abnormalities of Umbilical Cord 438
- Intrauterine Growth Retardation 438
- Intrauterine Fetal Death 441
- Gynecological Conditions Complicating Pregnancy 442

#### Chapter 19 Infections Affecting Pregnancy..... 462–474

- Bacterial Infections in Pregnancy 463
- Sexually-Transmitted Diseases 467
- Viral Infections in Pregnancy 467
- Parasitic and Protozoal Infections in Pregnancy 470
- Fungal Infections in Pregnancy 472

#### Chapter 20 Mental Health Issues and Other Conditions Complicating Pregnancy..... 475–482

- Mental Health Issues During Pregnancy 476
- Adolescent Pregnancy 477
- Elderly Primigravida 478
- Grand Multipara 478
- Policy for the Referral Services 479
- Maintenance of Records and Reports 480

### Section IX Recognition and Management of Abnormal Labor

#### Chapter 21 Disorders of Labor ..... 485–523

- Preterm Labor 486
- Premature Rupture of Membranes 487
- Malpositions 489
- Malpresentation 494
- Classification of Female Pelvis 505
- Contracted Pelvis 506
- Cephalopelvic Disproportion 508
- Abnormal Uterine Action 508
- Obstructed Labor 516
- Prolonged Labor 518

#### Chapter 22 Complications of Third Stage of Labor..... 524–540

- Postpartum Hemorrhage 525
- Atonic Uterus 530
- Retained Placenta and Membranes 530
- Inversion of the Uterus 532
- Perineal Injury/Genital Tract Injuries/Birth Canal Injuries 534

#### Chapter 23 Obstetrical Emergencies ..... 541–558

- Cord Prolapse 542
- Amniotic Fluid Embolism 544
- Obstetric Shocks 545
- Rupture of Uterus 548
- Shoulder Dystocia 552
- Vasa Previa 555

**Chapter 24 Obstetrical Operations and Procedures..... 559–584**

- Episiotomy 560
- Forceps Delivery 562
- Vacuum Delivery/Ventouse 565
- Version 566
- Destructive Operations 567
- Dilation and Evacuation 569
- Suction Evacuation 570
- Manual Vacuum Aspiration 571
- Manual Removal of Placenta 571
- Permanent Methods of Sterilization 571
- Follow-up 573
- Records and Reports 573
- Pain During Various Stages of Labor 574
- Induction of Labor 574
- Cesarean Section 577
- Providing Comfort During Labor 579

**Section X Recognition and Management of Postnatal Problems****Chapter 25 Puerperal Complications..... 587–604**

- Physical Examination, Identification of Deviation from Normal 588
- Complications During Puerperium 588

**Section XI Assessment and Management of High-Risk Newborn****Chapter 26 Screening and Management of High-Risk Newborn..... 607–672**

- Models of Newborn Care in India—NBCC and SNCU 608
- Screening of High-Risk Newborn 611
- Protocols for Infection Control 615
- Levels of Neonatal Care 618
- Prematurity/Preterm Infant 619
- Postmaturity/Post-Term Infant 621
- Low Birth Weight 622
- Kangaroo Mother Care 625
- Birth Asphyxia/Hypoxic Encephalopathy 625
- Neonatal Sepsis 629
- Hypothermia 630
- Respiratory Distress 632
- Neonatal Hyperbilirubinemia (Jaundice) 633
- Neonatal Infections 635
- High Fever/Hyperthermia 636
- Convulsions/Neonatal Seizures 637
- Neonatal Tetanus 638
- Congenital Anomalies 640
- Baby of HIV Positive Mothers 651
- Baby of Rh Negative Mothers 653
- Birth Injuries 654
- Sudden Infant Death Syndrome 658
- Calculation of Fluid Requirements, EBM/Formula Feeding/Tube Feeding 659
- Home-Based Newborn Care Program—Community Facility Integration in Newborn Care 660
- Decision-Making about Management and Referral 662
- Integrated Management of Neonatal and Childhood Illness 663
- Bereavement Counseling 665
- Maintenance of Records and Reports 667

**Section XII Assessment and Management of Women with Gynecological Disorders****Chapter 27 Gynecological Disorders—Assessment and Management..... 675–726**

- Gynecological Assessment—History and Physical Assessment 676
- Breast Self-Examination 681
- Congenital Abnormalities of Female Reproductive System 681
- Menstrual Abnormalities 682
- Infections of the Reproductive Tract 687
- Uterine Displacement 704
- Endometriosis 704
- Uterine and Cervical Fibroids and Polyps 706
- Tumors: Uterine, Cervical, Ovarian, Vaginal, Vulval 706
- Cysts: Ovarian, Vulval 706
- Cystocele, Urethrocele, Rectocele 706
- Genitourinary Fistulas 707
- Breast Disorders: Infections, Deformities, Cysts, Tumors 707
- Human Papillomavirus Vaccination 713
- Disorders of Puberty 713
- Menopause 716

**Chapter 28 Couples with Infertility—Assessment and Management ..... 727–741**

- Infertility 728
- Assisted Reproductive Technology 733
- Infertility Counseling 735
- Adoption 737

<b>Obstetrics and Gynecological Nursing Procedures.....</b>	<b>743–786</b>
<ul style="list-style-type: none"> <li>• Procedure 1: Antenatal Examination <b>744</b></li> <li>• Procedure 2: Antenatal Exercises <b>748</b></li> <li>• Procedure 3: Urine Analysis <b>753</b></li> <li>• Procedure 4: Pregnancy Test (by Urine Sample) <b>755</b></li> <li>• Procedure 5: Intranatal Assessment <b>756</b></li> <li>• Procedure 6: Per Vaginal Examination During Labor <b>760</b></li> <li>• Procedure 7: Setting Trolley and Conduction of Normal Vaginal Delivery <b>762</b></li> <li>• Procedure 8: Placental Examination <b>765</b></li> <li>• Procedure 9: Performing, Suturing and Episiotomy <b>767</b></li> <li>• Procedure 10: Episiotomy Care <b>770</b></li> <li>• Procedure 11: Perineal Care <b>771</b></li> <li>• Procedure 12: Breast Care <b>773</b></li> <li>• Procedure 13: Postnatal Assessment <b>775</b></li> <li>• Procedure 14: Postnatal Exercises <b>780</b></li> <li>• Procedure 15: Measuring Involution of Uterus <b>783</b></li> <li>• Procedure 16: Insertion of Postpartum IUCD <b>784</b></li> <li>• Procedure 17: Breast Self-Examination <b>786</b></li> </ul>	
<b>Objective Structured Clinical Evaluation (OSCE) .....</b>	<b>787–802</b>
<ul style="list-style-type: none"> <li>• Introduction <b>788</b></li> <li>• What is Objective Structured Clinical Evaluation <b>788</b></li> <li>• Instructions to Students <b>789</b></li> <li>• Station 1: Abdominal Examination <b>790</b></li> <li>• Station 2: Kangaroo Mother Care (KMC) <b>791</b></li> <li>• Station 3: Handwashing <b>791</b></li> <li>• Station 4: True/False <b>792</b></li> <li>• Station 5: Look at the Picture and Answer the Following Questions <b>793</b></li> <li>• Station 6: Identify Contraceptive Devices <b>795</b></li> <li>• Station 7: Pharmacotherapeutics in Obstetrics <b>798</b></li> <li>• Station 8: Instruments for Obstetrics and Gynecological Procedures <b>799</b></li> <li>• Station 9: Pregnancy Detection Test <b>801</b></li> <li>• Station 10: Calculation of Estimated Date of Delivery (EDOD) <b>802</b></li> </ul>
