<i>Preface to the Second Edition</i>	<i>vii</i>
<i>Preface to the First Edition</i>	<i>ix</i>
<i>Introduction</i>	<i>xv</i>
1. Clinical Examination of Pediatric Patient (Clinical Methods in Pediatrics)	1
• History-taking	1
• Physical examination	2
• Anthropometric examination	11
• Respiratory system	15
• Gastrointestinal system	19
• Cardiovascular system	23
• Central nervous system	26
• Cranial nerves	27
• History taking of common symptoms of disorders of children	36
2. Neonatology	38
• Examination of newborn	38
• Apgar score	42
• Resuscitation	42
• Low birth weight babies	48
• Preterm babies	49
• Intrauterine growth restriction (IUGR)	56
• Post-term babies	57
• Large-for-dates babies	57
• Neonatal jaundice	58
• Physiological jaundice of newborn	59
• Pathological jaundice	60
• Neonatal septicemia	63
• Caput succedaneum	65
• Cephalhematoma	65
• Perinatal mortality	66
• Neonatal seizures	66
• Neonatal shock	68
• Hypothermia	69
• Jitteriness	70
• Hemorrhagic disorders of the newborn	71
• Hemolytic disease of newborn	72
• RH hemolytic disease	72
• ABO hemolytic disease	75
• Respiratory distress in the newborn	76
• Respiratory distress	76
• Respiratory distress syndrome (RDS)	76
• Meconium aspiration syndrome (MAS)	79
• Hypoglycemia	80
• Neonatal tetany	80
3. Growth and Development	81
• Short stature	91
• Endocrine disorders resulting short stature	95
• Body mass index (BMI)	95
• Adolescence	95
• Attention deficit hyperactivity disorder	97
4. Nutritional Requirements	101
5. Infant Feeding	103
• Breastfeeding	104
• Artificial feeding	108
• Weaning	109
• Infantile colic	110
6. Immunization	111
• General consideration about immunization	112
• Cold chain	112
• BCG vaccination	115
• Polio vaccination	115
• DPT vaccination	116
• Measles vaccination	116
• Mumps vaccination	117
• Rubella vaccination	117
• Pentavalent vaccine	117
• Inactivated polio vaccine (IPV)	117
• Rotavirus vaccine	118
• Pneumococcal conjugate vaccine	118
• Combined MMR vaccination	120
• Influenza vaccination	120
• Typhoid vaccination	120
7. Nutritional Disorders	121
• Malnutrition	121
• Evaluation and pathogenesis	121
• Factors causing malnutrition	121
• Clinical classification	123
• Nutritional marasmus	123

- Kwashiorkor 125
- Severe acute malnutrition (SAM) 127
- SAM before 6 months of age 135
- Vitamin deficiency 137
- Vitamin A deficiency 138
- Rickets 139
- Scurvy 143

8. Diseases of Gastrointestinal System 148

- Vomiting 148
- Diarrhea 148
- Chronic diarrhea 157
- Rehydration solutions 157
- ORS for SAM child 158
- Gastroesophageal reflux 158
- Constipation 159
- Hepatomegaly 160
- Abdominal pain 160
- Ascites 161
- Viral hepatitis 161
- Infective hepatitis 162
- Hepatitis B (serum hepatitis) 162
- Hepatitis C 162
- Hepatitis D 163
- Hepatitis E 163
- Indian childhood cirrhosis 163

9. Diseases of Respiratory System 166

- Acute respiratory infection 167
- Common cold or nasopharyngitis 168
- Laryngotracheobronchitis (croup) 168
- Epiglottitis 168
- Acute bronchiolitis 169
- Pneumonias 170
- Pneumococcal pneumonia 171
- Streptococcal pneumonia 171
- Staphylococcal pneumonia 172
- *Haemophilus influenzae* pneumonia 173
- Primary atypical pneumonia 173
- *Chlamydia pneumoniae* 173
- Bronchial asthma 174
- Chronic wheezing 182
- Tuberculosis 182

10. Diseases of Cardiovascular System 195

- Congenital heart disease 195
- Ventricular septal defect 195
- Atrial septal defect 197
- Fallot's tetralogy 198
- Coarctation of aorta 200
- Tricuspid atresia 201
- Truncus arteriosus 201
- Patent ductus arteriosus 201
- Transposition of great arteries 202
- Total anomalous pulmonary venous connection 203

- Acquired heart diseases 203
- Rheumatic fever 203
- Mitral incompetence (insufficiency) 207
- Mitral stenosis 208
- Aortic insufficiency 209
- Bacterial endocarditis 210
- Cardiomyopathy 211
- Pericarditis 212
- Myocarditis 212
- Congestive cardiac failure (CCF) 213
- Hypertension 216

11. Diseases of Central Nervous System 220

- Meningitis 220
- Pyogenic meningitis 220
- Tuberculous meningitis 223
- Encephalitis and encephalopathy 225
- Cerebral palsy 227
- Mental retardation (intellectual impairment) 229
- Down syndrome (21 trisomy) 230
- Convulsive disorders in children 233
- Febrile convulsions 236
- Epilepsy 237
- Idiopathic epilepsy 238
- Tonic and clonic seizures 239
- Myoclonic 239
- Atonic seizures 239
- Psychomotor 239
- Jacksonian 239
- Status epilepticus 239
- Craniostenosis 244
- Hydrocephalus 245

12. Bacterial Diseases 246

- Whooping cough 246
- Diphtheria 247
- Typhoid fever 249
- Tetanus 254

13. Viral Infections 257

- Chickenpox 257
- Measles (rubeola) 258
- German measles (rubella) 261
- Poliomyelitis 261
- Mumps 266
- Human immunodeficiency virus (HIV) (acquired immunodeficiency syndrome: AIDS) 267
- Chikungunya 268
- Dengue infection 269

14. Parasitic Diseases 272

- Worm infestations 272
- Enterobiasis 272

• Ascariasis (roundworms) 272 • Hookworms (ankylostomiasis) 273 • Tapeworm infestation 274 • Trichuriasis 274 • Intestinal protozoa (amoebiasis) 274 • Giardiasis 274 • Malaria 275 • Filariasis 278	
15. Disorders of Kidney and Urinary Tract 279	
• Urinary tract infections (UTI) 279 • Acute post-streptococcal glomerulonephritis 280 • Hematuria 282 • Investigation of a case of hematuria 283 • Nephrotic syndrome 284 • Steroid sensitive nephrotic syndrome (idiopathic nephrotic syndrome) 285 • Proteinuria 289 • Acute kidney injury (acute renal failure) 289	
16. Hematological Disorders 293	
• Anemia 293 • Microcytic hypochromic anemia 295 • Iron deficiency anemia 295 • Macrocytic (megaloblastic) anemia 296 • Sickle cell anemia 297 • Thalassemias 299 • Disorders of hemostasis 301 • Purpuras 303 • Idiopathic thrombocytopenic purpura 303 • Hemophilia 304 • Leukemias 306 • Acute lymphocytic leukemia 306 • Acute myeloid leukemia (AML) 308 • Juvenile chronic myeloid leukemia 309 • Chronic myeloid leukemia (CML) 309 • Congenital pancytopenia (Fanconi anemia) 310 • Polycythemia 310 • Neutropenia 310	
17. Behavioral Disorders (Psychosomatic Disorders) 312	
• PICA (geophagia) 314 • Enuresis 314 • Breath-holding spells 314 • Bruxism 314	
18. Practical Procedures in Pediatrics 315	
• Umbilical vein catheterization 315 • Venesection or 'cut down' 315 • Endotracheal intubation 317 • Nasogastric tube 317 • Blood transfusion 318 • RBC transfusion 319 • Phlebotomy 319 • Venepuncture using syringe 320 • IV cannulation 320 • Lumbar puncture 322	
19. Miscellaneous 324	
• Scabies 324 • Moniliasis 324 • Phenothiazine toxicity 325 • Organophosphorus (poisoning) 325 • Scorpion envenoming 326 • Accidental problems 327 • Atopic dermatitis (infantile or atopic eczema) 328 • Failure to thrive 329 • Acro-dynia (pink disease) 332 • Duchenne's muscular dystrophy (pseudohypertrophic muscular dystrophy) 332 • Inborn errors of metabolism 334 • Disorders of carbohydrate metabolism 334 • Single line answer of MCQs 337	
20. Endocrinology 348	
• Thyroid disorders 348 • Hypothyroidism 348 • Congenital hypothyroidism 349 • Acquired hypothyroidism 350 • Iodine deficiency disorders 350 • Hashimoto's disease 351 • Hyperthyroidism 351 • Diabetes mellitus 352 • Type 1 diabetes mellitus (type 1 DM) 352 • Diabetic ketoacidosis 354 • Type 2 diabetes mellitus 354 • Disorders of adrenal gland 354	
21. Emergency Triage Assessment and Treatment 358	
• Child mortality 358 • Triage 358	
Appendices 365	
1. Drug Dosage, Trade Names and Preparations 365	
2. Normal Values 381	
Index 383
