Section 1 Otology

1. Clinical Anatomy of Ear and Physiology of Hearing and Balance	3
2. Audiological Evaluation of the Patients	19
3. Hearing Loss and Deafness	27
4. Diseases of External Ear	30
5. Acute Suppurative Otitis Media	33
6. Non-suppurative Middle Ear Diseases	35
7. Chronic Suppurative Otitis Media	38
8. Diseases of Facial Nerve	48
9. Noise-Induced Hearing Loss	55
10. Otosclerosis	57
11. Cerebellopontine Angle Tumors and Glomus Tumors	60
12. Meniere's Disease	65
13. Hearing Aids, Cochlear Implant, Middle Ear Implants, BAHA	68
14. Vertigo and Tinnitus	71

Section 2 Rhinology

15. Facial Pain and Headache	81
16. Applied Anatomy and Physiology of Nose	84
17. Nasal Septum and Epistaxis	88
18. Rhinitis	96
19. Nasal Polyposis and Fungal Rhinosininitis	99
20. Allergic Rhinitis	102
21. Choanal Atresia and Oroantral Fistula	104
22. CSF Rhinorrhea	105
23. Cosmetic Surgeries of Nose	107
24. Endoscopic Sinus Surgery	114
25. Trauma of Face	125

26. Miscellaneous Points in Nose	129
27. Nasopharyngeal Angiofibroma and Nasopharyngeal Carcinoma	133

Section 3 Oral Cavity and Throat

28. Sleep Apnea	139
29. Tonsils and Adenoid	141
30. Premalignant Lesions of Oral Cavity and Oropharynx	148
31. Trachea and Bronchial Tree	150
32. Esophagus	157

Section 4 Laryngology, Head and Neck and Miscellaneous Topics

33. Neck Swellings	163
34. Cervical Lymph Nodes and Neck Dissection	166
35. TNM Staging of Head and Neck Cancers	171
36. Anatomy of Larynx	177
37. Carcinoma of Larynx	182
38. Papillomatosis of Larynx	187
39. Vocal Cord and its Benign Diseases	188
40. Voice Disorders	191
41. Chronic and Tubercular Laryngitis	193
42. Lymphoma in Head and Neck	194
43. Cancer Chemotherapy and an Introduction to Radiotherapy	199
44. Occult Primary	204
45. Salivary Glands	206
46. Thyroid Glands	208
47. Skull Foramina	212
48. Spaces in Head and Neck	214
49. Recent Advances in ENT	219
50. High Yielders Topics	226
51. Pharmacology in ENT	240
52. Reconstructive Surgery in ENT	244
53. Instruments in ENT	248
54. Local Anesthesia in ENT	271
<i>Index</i>	273
