|---------------------------------------------------------------------------------------------|------------|
| <i>Preface to the Fifth Edition</i>                                                         | <i>v</i>   |
| <i>Preface to the First Edition</i>                                                         | <i>vii</i> |
| <b>1. Pharmaceutical Analysis: Definition, Different Techniques of Analysis and Scope</b>   | <b>1</b>   |
| <b>2. Errors in Pharmaceutical Analysis, Accuracy, Precision and Significant Figures</b>    | <b>8</b>   |
| <b>3. Methods of Expressing Concentration</b>                                               | <b>15</b>  |
| <b>4. Sources of Impurities in Pharmaceutical Substances, Limit Tests and Pharmacopoeia</b> | <b>24</b>  |
| <b>5. Volumetric Analysis</b>                                                               | <b>40</b>  |
| <b>6. Acid–Base Titrations</b>                                                              | <b>57</b>  |
| <b>7. Non-aqueous Titration</b>                                                             | <b>62</b>  |
| <b>8. Precipitation Titrations</b>                                                          | <b>72</b>  |
| <b>9. Redox Titration</b>                                                                   | <b>79</b>  |
| <b>10. Complexometric Titrations</b>                                                        | <b>98</b>  |
| <b>11. Diazotization Titration</b>                                                          | <b>112</b> |
| <b>12. Gravimetric Analysis</b>                                                             | <b>118</b> |
| <b>13. Conductometric Titrations</b>                                                        | <b>126</b> |
| <b>14. Potentiometry</b>                                                                    | <b>135</b> |
| <b>15. Polarography</b>                                                                     | <b>145</b> |
| <b><i>Model Papers</i></b>                                                                  | <b>153</b> |
| <i>Model Paper I</i>                                                                        | 153        |
| <i>Model Paper II</i>                                                                       | 155        |
| <i>Appendices</i>                                                                           | 157        |
| <i>Index</i>                                                                                | 161        |
