Preface to the First Edition

ix

Practical	Competency	Page No.	Date	Signature
1.	PH1.3: Describe nomenclature of drugs i.e., generic, branded drugs and scheduled drugs, explaining the utility of the nomenclature, cost effectiveness and use	1		
2.	PH1.4: Identify the common drug formulations and drug delivery systems, demonstrate their use and describe their advantages and disadvantages PH1.5: Describe various routes of drug administration, their advantages and disadvantages and demonstrate administration of, e.g. SC, IV, IM, SL, rectal, spinal, sublingual, intranasal sprays and inhalers (<i>Solid dosage forms</i>)	7		
3.	PH1.4: Identify the common drug formulations and drug delivery systems, demonstrate their use and describe their advantages and disadvantages PH1.5: Describe various routes of drug administration, their advantages and disadvantages and demonstrate administration of, e.g. SC, IV, IM, SL, rectal, spinal, sublingual, intranasal sprays and inhalers (<i>Liquid dosages forms</i>)	18		
4.	PH1.4: Identify the common drug formulations and drug delivery systems, demonstrate their use and describe their advantages and disadvantages. PH1.5: Describe various routes of drug administration, their advantages and disadvantages and demonstrate administration of, e.g. SC, IV, IM, SL, rectal, spinal, sublingual, intranasal sprays and inhalers (<i>Inhalational dosage forms</i>)	28		
5.	PH1.4: Identify the common drug formulations and drug delivery systems, demonstrate their use and describe their advantages and disadvantages. (<i>Newer drug delivery systems</i>)	33		
6.	PH10.9: Calculate the dosage of drugs for an individual patient, including children, elderly, pregnant and lactating women and patients with renal or hepatic dysfunction PH 10.10: Identify when therapeutic drug monitoring is considered for a particular patient, determine timing of sampling and calculate revised dose	39		
7.	PH1.5: Describe various routes of drug administration, their advantages and disadvantages and demonstrate administration of, e.g. SC, IV, IM, SL, rectal, spinal, sublingual, intranasal sprays and inhalers	45		
8.	Demonstrate the appropriate setting up of an intravenous drip in a simulated environment	52		
9.	PH10.12: Describe overview of drug development including phases of clinical trials and good clinical practice and reflect on the role of research in developing new drugs PH10.11: Identify and apply drug regulations principles, acts and legal aspects related of drug discovery and clinical use	58		

Practical	Competency	Page No.	Date	Signature
10.	PH10.4: Describe parts of a correct, rational and legible prescription and write rational prescriptions for the provided condition	64		
11.	PH10.5: Identify and apply the legal and ethical regulation of prescribing drugs especially when prescribing for controlled drugs, off-label medicines, and prescribing for self, close family and friends	75		
12.	PH10.6: Perform a critical appraisal of a given prescription and suggest ways to improve it	78		
13.	PH10.2: Perform a critical evaluation of the drug promotional literature and Interpret the package insert information contained in the drug package	85		
14.	PH1.11: Define adverse drug reactions (ADRs) and their types. Identify the ADRs in the given case scenario and assess causality PH1.12: Define pharmacovigilance its principles and demonstrate ADR reporting	91		
15.	PH10.3: To prepare and explain a list of P-drugs for a given case/condition	100		
16.	PH10.1: Compare and contrast different sources of drug information and update on latest information on drugs PH10.13: Demonstrate how to optimize interaction with pharmaceutical representative/media to get/disseminate authentic information on drugs	108		
17.	PH10.8: Describe essential medicines, fixed dose combination, over-the-counter drugs and explain steps to choose essential medicines.	112		
18.	PH10.14: Communicate with the patient regarding optimal use of a drug therapy using empathy and professionalism, e.g. Oral contraceptives, anti-TB drugs, etc. PH10.15: Describe methods to improve adherence to treatment and motivate patients with chronic diseases to adhere to the prescribed pharmacotherapy	119		
19.	PH10.16: Demonstrate an understanding of the caution in prescribing drugs likely to produce dependence and recommend the line of management PH10.17: Demonstrate ability to educate public and patients about various aspects of drug use including drug dependence and OTC drugs	125		
20.	PH1.13 Identify and describe the management of drug interactions	128		
21.	Demonstrate the effects of drugs on blood pressure (vasopressor and vaso-depressors with appropriate blockers) using computer-aided learning	134		
	Notes	141		

Annexures	163
I. Objective Structured Practical Examination (OSPE)	163
II. Abbreviations, Weight and Measures	167
III. National List of Essential Medicine (NLEM)	168
IV. Sample: Pharmacology University Practical Examination	172
Logbook	173
