## CBS Med-AIM

A commitment as a Health Sciences Publisher

- ✓ A commitment that brings revolution in Health Science Education
- ✓ A commitment where excellence will be the benchmark
- ✓ A commitment where brilliance will be the fundament
- ✓ A commitment where knowledge and excellence co-exist, bringing enriched content on the paper
- ✓ A commitment to usher the concepts of learning with competency
- ✓ A commitment to transform convoluted Health Science content into a fascinating experience
- ✓ A commitment to build conscious medical human capital par excellence

**Medical & Allied Health Sciences Publishing Program as Authors**

*Why choose us?*

*Celebrating 50 glorious Years in Publishing*

**CBS – The Health Sciences Publisher Offers :**

- Cutting edge publishing program to unleash your ideation
- A podium to National and International markets
- A publishing platform where knowledge meets innovations
- Exceptional blend of print and digital books- **Hybrid edition**
- Significant presence among Student community
- Publisher of choice with student friendly books
- Robust Social media presence

*Now*  
**Clear your concepts** with our **CBSiCentral App**

**CBSiCentral App** aims to cater to all the students from various educational segments and backgrounds with complementary digital content as supplement to print editions. The digital content is available in the form of videos, image banks, 3D images and animated videos.

It contains with the ancillary material uploaded for free access by the registered customers. Most of the Medical UG and technical books are augmented with online availability of valuable reference material, available through scratch code in the print editions.

**Key Features**

The following *rich features* lend a high pedestal to the book in  
the context of international literature

**1739 Figures**

**32 Flowcharts**

**90 Dissection Boxes**

**30 X-rays/MRI  
and CT Scans**

**39 Ossification  
Boxes**

**151 Tables**

**271 Clinical  
Anatomy Boxes**

**49 Mnemonics Boxes**

**503 Facts  
to Remember**

**387 FAQs**

**588 MCQs**

**1119 Viva Voce  
Questions**

**88 Clinico-Anatomical  
Problems**

**138 Videos**

**20 Animated Videos**

### *Salient Features*

- Text follows the **CBME Guidelines** and all topics are described as per the Competency Based Undergraduate Curriculum prescribed by National Medical Commission
- This edition has been thoroughly revised and updated to make it extremely informative and much more student-friendly
- **Colour codes employed** in the preparation of the human anatomy illustrations are given in the beginning of each section to help students identify the anatomic components clearly and draw appropriately coloured diagram
- Original **hand-drawn illustrations by Dr BD Chaurasia, adapted from the first edition of BDC Human Anatomy**, incorporated in this edition based on the simplicity and lucidity of the anatomic description
- Videos of osteology and soft parts, accessible from **CBSiCentral App through scratch code**, have been numbered and cited in the respective chapters in all the four volumes.
- These videos compensate the scarcity of the cadavers in medical institutions for conducting dissection.
- The videos of the dissection give three-dimensional image descriptions of tissues and organs which get effectively registered in brain for a longer time
- Processes and steps of dissection given in blue boxes with dissection photographs have been retained
- **Latest updates** on various topics have been provided from standard **international publications**.
- Clinical orientation has been encouraged by structuring many FAQs and MCQs in '**clinical mode**'.
- **Early Clinical Exposure (ECE) cases** has been provided in the form of signs, symptoms, investigations and treatment of a particular case at the end of every section
- **Clinical aspects** have been explicitly given in the text such that the students are able to learn, recapitulate and answer the clinically-oriented questions in their examinations.
- Important features like viva voce questions, molecular regulation, clinicoanatomical problems, ossification, dissection (steps) are continued from the eighth edition.

### *What's New*

- Latest research information sourced from Standard international publications & **42<sup>nd</sup> EDITION OF THE GRAY'S ANATOMY** selectively incorporated in these volumes
- **Original hand-drawn line diagrams** by late BD Chaurasia used in first edition have been incorporated
- **Additional Videos of Osteology and soft parts** accessible from CBSiCentral APP through scratch code with many chapters
- **ECE CASES** added at the end of each section
- Most of the diagrams re-drawn in Anatomical Positions
- **Colour coding** introduced for cells, tissues & bones for clear identifications

## BDC Red Card

(Bonus Content)

“ I Read I Forget, I See, I Remember ”

### See & Perceive

Believe in what you see and Perceive what you watch

Integration of innovative teaching and learning methodology in the form of 3D animated videos enhance the visual-spatial ability with more accurate, factual and conceptual knowledge of human anatomy”

A CBS Health Sciences Initiative, in **3D LEARNING**: Content blended with a real-world practice environment to provide an extra edge to your Medical learning experience

**CBSiCentral App is the first ever application to develop 3D Animated Videos, Dissection Videos and Hand-drawn Line Art Videos.**

Includes

**200+ Videos & 20 3D Animated Videos**

*Broaden your learning in Virtual Reality*

Regional & Applied ; Dissection and Clinical, 9/e

Download **CBSiCentral** App and Get **Free Access** to digital content

#### Body Planes & Movement (04:03)

The video explains the midsagittal, sagittal, coronal or frontal and transverse or horizontal planes of the body along with description of terms related to different body movements like-flexion, extension, adduction, abduction, supination, pronation, etc. to enhance conceptual knowledge related to body movements and anatomical planes.

#### Pelvic Girdle and Lower Limb (02:59)

The video focuses on bones of the lower limb- femur, tibia (medially) and fibula present laterally forming skeleton of the lower limb. It also depicts pelvic girdle formed by hip bones and sacrum. Bones of the foot-metatarsals, tarsals and phalanges along with arch like arrangement of bones, like - medial longitudinal arch, lateral longitudinal arch and the transverse arch and their importance are comprehensively described in the video.

#### Upper Limb (04:04)

Comprehensive description of upper limb bones- Humerus, Radius, Ulna with muscle attachments and their clinical importance are explained along with demonstration of upper limb movement. The structural organization of shoulder joint along with movements is demonstrated in a very lucid and easy to understand manner.

### *New to this edition*

All the chapters have  
been **extensively  
illustrated** with **four  
color diagrams**

Each chapter begins  
with a **quotation**  
giving subtle meaning  
to the topic

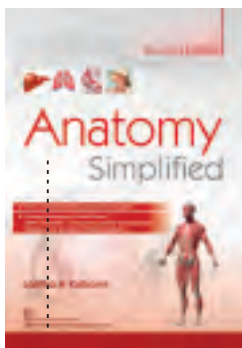

**Points to remember** are  
given at the end of each  
chapter to help students for  
quick revision of the topics

**Multiple choice questions**  
at the end of each  
chapter will help students  
in self evaluation

### *Salient Features* of the Seventh Edition

- Thoroughly revised updated and enlarged edition of most popular and student-friendly **BD Chaurasia's Handbook of General Anatomy**
- Highlight of this edition is **seven new chapters** including their gross and clinical anatomy. This edition presents comprehensive view of and important component of human anatomy
- The **new edition includes** brief study of all the systems, so it becomes a mini Textbook for Students

ISBN: 9789354666063

**₹995/-**

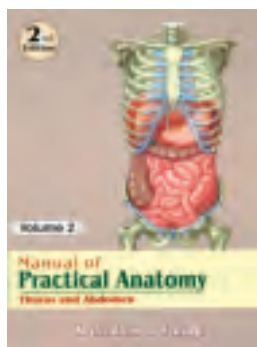

Author  
**Sampath Madhyastha | M Chakrapani**

### *Salient Features* of all three volumes

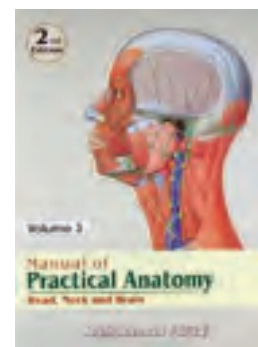

- **Complete coverage** of General Anatomy, Gross Anatomy, Osteology, Histology, Embryology and Genetics in three volumes
- **Nearly 1500 high quality-coloured illustrations**, including 2-dimensional images for understanding the anatomy
- **Simple line diagrams** to enable presentation of topics/answers in structured subjective examinations
- **High quality of photo-micrograph of histology slides** which are supplemented by schematic illustrations
- **Clinical correlations** of the anatomical region being highlighted in green boxes to correlate the anatomy with its clinical applications
- **Nearly 220 appropriate case scenarios** included to facilitate self-study and discussion
- Just before the exam, **adequate tabulations, Flowcharts, Mnemonics** which help the students to prepare for their examination
- A detailed list of possible questions for the theory examination, list of possible **OSPE/spotter's questions** for the practical examination and histology spotter's exams identification notes
- **Microscopic anatomy descriptions** matching with function (physiology) and biochemistry for integration of basic medical sciences
- **More than 1000 high yield**, application based multiple-choice questions (**MCQs**) that will aid in preparation for competitive postgraduate entrance tests and USMLE Step I examination

## Textbook of Histology

COLOUR ATLAS

As per **CBME Guidelines** | Competency Based  
Undergraduate Curriculum for the Indian  
Medical Graduate

With **Viva Voce**  
**Questions-Answers**

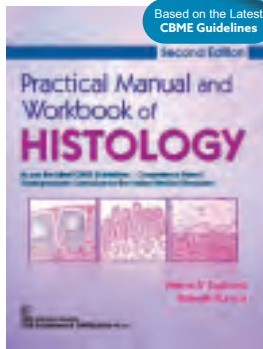

Authors: **Krishna Garg | Gayatri Rath**  
**Mithlesh Chandra**

**Sixth**  
Edition

ISBN: 9789354665707  
Edition : Sixth | Year : 2024  
Pages : 324 **₹695/-**

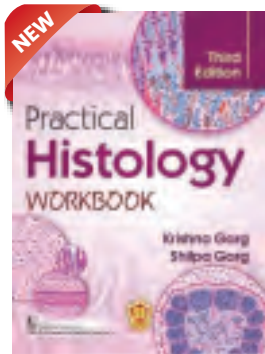

### *Salient Features* of the Sixth Edition

- The text has been thoroughly **revised and updated**
- Index of competencies** has been given according to the latest **CBME Guidelines**/ Competency based Undergraduate Curriculum for the Indian Medical Graduate.
- Functional and applied aspects** have been **elaborated**
- Brief electron microscopic descriptions** of parts of the cell, connective tissue, bone cells, nerve cells are given according to the competencies.
- A **new chapter "Key to Identification of Histological Slides"**, has been added to identify the slides properly
- All the **photomicrographs** are of human tissues which clearly depict the features seen in human tissues.
- Number of viva voce questions** have been added below multiple choice questions in every chapter with their answers at the end of the book
- The book chiefly provides the **"must know"** content of human histology, which forms the backbone of histopathology.
- The book aims to serve as a valuable textbook for undergraduate students of **UG Medical, Dental & Ayush**
- Also **helpful** to BSc & MSc students of Anatomy

- Brain
- Thorax

ISBN: 9789390046119

Edition : Second

Year : 2021

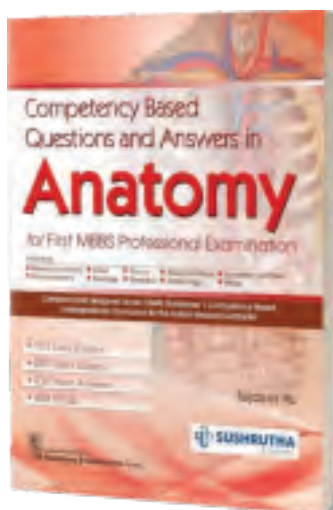

Pages : 320

**₹525/-**

### ***Salient Features*** of the four volumes

- The book is written using short and simple sentences.
- Four types of questions are discussed: **LAQs** (Long Answer Questions), **SN** (Short Notes), **SAQs** (Short Answer Questions), and **OLA** (One Line Answers).
- The information given in italics is the information required to answer the MCQs.
- The answers are written in the form of points by using indentation.
- **Tables** are introduced to save the time and display the information for immediate reference for the students and examiners.
- The relevant, simple, linear informative diagrams are drawn with the respective colours.
- Important key words, which help to memorize the subject without taxing the memory, are given.
- At the **end of the book separate indexes** have been given.

### **Salient Features** of the Fourteenth Edition

- Text has been simplified and moulded into easy to understand and lucid language for a clear conceptual understanding of the subject.
- Recent advances** have been added and facts of applied physiology updated throughout the text.
- All diagrams have been modified and simplified.
- Exam-oriented questions** have been introduced to serve the requirements of the students.
- A number of **new multiple choice questions** has been added and others updated.
- Topics of exercise physiology, hemoglobin, red blood cells, white blood cells, coagulation, immunity, cardiac output, regulation of blood pressure, hypoxia, regulation of respiration, renal function test, glomerular filtration rate, regulation of body temperature, growth hormones, calcium metabolism, thyroid hormones, adrenal gland, family planning methods, synapses, pain, sleep, hypothalamus, cerebellum, basal ganglia, autonomic function tests, eye and ear have been updated for quick understanding and recapitulation.
- Applied topics** such as diabetes, obesity, pancreatic transplantation, types of exercises, dialysis, family planning methods and disorders associated with central nervous system have been restructured and made concise.
- Clinical Case Scenarios**, an important component of the latest curriculum adopted by National Medical Commission, shall be immensely helpful in excelling for the candidates preparing for **PLAB UK examination, USMLE** and examinations of the **Medical Councils of the other South East Asian countries**.
- Historical features and scientific** findings have been depicted in the text appropriately.

of the Book

### Key Features of the Fourth Edition

- Emphasis has been laid on learning applied biochemistry in the form of **"Chemistry to Clinics"**
- Written in simple, precise, relevant, easy to understand and lucid manner to grasp the basics of the subject
- **New to this edition**
  - The new edition intends to convey the knowledge of time-old principles, **supplemented with modern developments in biochemistry**
  - Several **new tables and figures** have been included for complete understanding of the subject.
  - **Long questions, short questions and multiple choice questions (MCQs) added at the end of each chapter** to enable the students to test their knowledge and prepare themselves for the various competitive examinations.

First  
Edition

Competency -Based  
**Textbook of  
Biochemistry**  
with Clinical Approach and Case Studies  
for MBBS Students

As per the latest CBME Guidelines | Competency  
Based Undergraduate Curriculum for the  
Indian Medical Graduate

by Poonam Agrawal

ISBN: 9789354664649

Edition : First | Year : 2023

Pages : 712

₹1395/-

of the Book

The main emphasis of the latest **CBME based curriculum** is on developing the clinical correlation of biochemistry in medical student's mind in such a fashion that this complex subject becomes relevant in understanding and approaching the patients afflicted with various metabolic and genetic disorders.

The author's extensive experience of teaching biochemistry to medical students in an easy and focused manner is well reflected in writing the chapters of this textbook.

A number of case scenarios are presented in an easy and interesting way and their biochemical basis is explained in a lucid manner. This approach not only makes the subject relevant and easier for student to learn, but also enhances the retention of the subject in the learner's mind.

***Salient Features*** of First Edition are:

Covers all the competency  
prescribed for biochemistry in  
**CBME curriculum**

A separate chapter on  
commonly used **Laboratory  
Instruments and equipment** to  
upgrade the practical aspect

Adequate number of  
**clinical scenarios** with their  
biochemical basis

Text highlighted in yellow color  
provides important information  
of the topic under focus given  
as **Notes**

Each chapter begins  
with **Competency  
achievement** for  
biochemistry, Specific  
Learning objectives and  
ends with key points

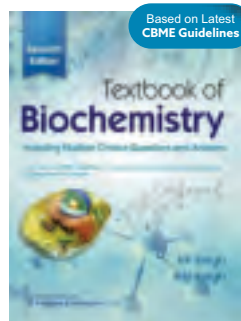

**Glossary** at the end  
provided to understand the  
complex terminologies of  
the subject

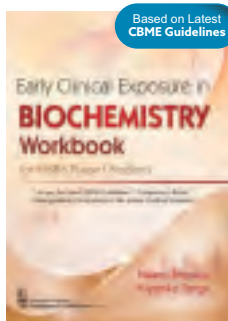

**Key Points**  
are given at the  
end of chapter  
to revise the  
primary  
concepts

## *What's New* in this Edition

Presents **20 thoroughly revised and updated** chapters

Includes **107 core competencies** with special emphasis on **18 skill-based competencies**

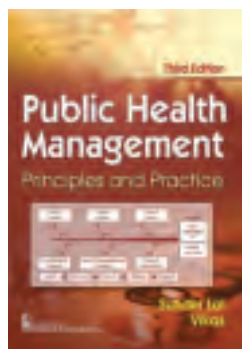

Various **case studies** in almost all the chapters **enriches the learning of various competencies** in live situations

## *Salient Features* of the Eight Edition

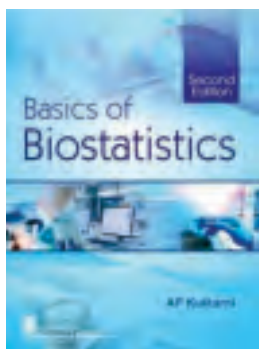

- Chapters Divided into Two parts: Part I and Part II: The **part I** covers basic sciences related to community medicine while **part II** covers applied sciences relevant to subject includes epidemiology of communicable and non-communicable diseases, national health programmes, health management
- **Part I** covers the chapters 1 to 7 and 9 and forms part of theory paper one. **Part II** covers chapters 8 and 10 to 20 and forms part of theory paper two
- Includes a **chapter on recent advances** in community medicine which incorporates various public health acts as we; as Covid pandemic
- All these chapters focus on '**community as patient**', **community diagnosis** and **community therapy**. Whole of the Government and whole of the society approach, leaving no one behind is the emphasis in all the revised chapters
- The eighth edition also incorporates attitude, ethics, and communication (**AETCOM**) **skills (soft skills)** to be integrated into undergraduate curriculum
- The language of the text is very easy to understand and flow of information is logically sequenced.
- Covers all the important aspects of public health which are mentioned in the **revised UG curriculum**
- The healthcare of the community as well as health planning and management and international health have been described keeping in view the various developments in the country like **National Health Mission, Ayushman Bharat** and **International health regulations**.
- The text also includes chapter on Natural disasters. Included are chapters on elderly and mental challenges have been described in detail with national and international relevance

Celebrating  
**50** glorious years  
in Publishing

Now Available  
**CBS E-Books**

Powered by

**EduPort Global**

your knowledge partner

Dedicated online (e-books) platform for **Students, Educators, Professionals, Researchers & Librarians** covering complete Health Sciences segments – Medical, Dental, Nursing and Allied.

With amalgamation of more than 1500+ e-books, this platform has a wealth of digital content published from its own flagship titles and publishing partners across the globe.

### Features

- Dedicated and secured access through IP
- Unlimited downloads
- Available in Android and iOS version
- Personalized bookmarks, highlighters and notes
- Crystal clear photographs and illustrations
- Completely searchable content
- Remote access facility
- 24x7 access available
