Preface

vii

Section 1: General Principles of Trauma

1. Fracture Basics	2
2. Atypical Fractures	7
3. Bone Structure and Fracture Healing	9
4. First Aid in Fractures	13
5. Management of Simple Fractures	17
6. Management of Open Fractures and Polytrauma	22
7. Injuries to the Joints and Soft Tissues	26
8. Fracture Complications	29
9. Plaster of Paris and its Role in Orthopedics	40
10. Important Splints in Orthopedics Other POP	43
11. Traction in Orthopedics	45
12. Implants in Orthopedics	49
13. Recent Advances in Fracture Treatment	52
14. Fractures in Children	55

Section 2: Regional Traumatology: Upper Limbs

15. Injuries Around the Shoulder	60
16. Injuries of the Arm	69
17. Injuries Around The Elbow	72
18. Injuries of the Forearm	83
19. Injuries Around the Wrist	88
20. Injuries of the Hand	96

Section 3: Regional Traumatology : Lower Limbs

21. Injuries Around the Hip	104
22. Injuries of the Femur	115
23. Injuries of the Leg	119
24. Injuries Around the Knee	124
25. Injuries Around the Ankle	131
26. Injuries of the Foot	137

Section 4: Injuries of the Pelvis and Spine

27. Fractures of the Pelvis and Trunk	144
28. Injuries of the Spine	151
29. Spinal Cord Injuries	160

Section 5: Peripheral Nerve Injuries

30. Peripheral Nerve Injuries I	166
31. Peripheral Nerve Injuries II	172

Section 6: Regional Orthopedic Disorders : General Principles

32. General Principles of Orthopedic Disorders	182
33. Management of Orthopedic Disorders and Deformities	186

Section 7: Regional Orthopedic Disorders

34. Regional Orthopedic Conditions of the Neck	190
35. Regional Orthopedic Conditions of the Shoulder	195
36. Regional Orthopedic Conditions of the Elbow	198
37. Regional Orthopedic Conditions of the Wrist	201
38. Regional Orthopedic Conditions of the Hand	204
39. Regional Orthopedic Conditions of the Hip	206
40. Regional Orthopedic Conditions of the Knee	211
41. Regional Orthopedic Conditions of the Foot	215
42. Regional Orthopedic Conditions of the Spine	220
43. Hand Disorders	227

Section 8: Low Backache and Disc Prolapse

44. Low Backache	232
45. Lumbar Disc Prolapse	237

Section 9: General Orthopedic Conditions

46. Congenital Disorders Developmental Dysplasia of Hip	244
47. Congenital Talipes Equinovarus (CTEV) Foot	250
48. Other Congenital Disorders	256
49. Developmental Disorders	259
50. Metabolic Bone Disorders	264
51. Osteomyelitis	273
52. Skeletal Tuberculosis : General Principles	281
53. Tuberculosis Spine	285
54. Tuberculosis of Joints and Bones	292
55. Disorders of Joints	299
56. Rheumatoid Arthritis	304
57. Seronegative Spondyloarthropathies	310
58. Degenerative Arthritis	314
59. Cerebral Palsy, Polio and Other Neuromuscular Disorders	318
60. Tumors of the Skeletal System	327

Section 10: Amputation, Prosthetics and Orthotics

61. Amputations	342
62. Prosthetics	345
63. Orthotics	347

Section 11: Sports Injury, Arthroscopy and Arthroplasty

64. Sports Injuries	350
65. Arthroscopy	353
66. Arthroplasty	355

Section 12: Miscellaneous Topics, Appendix and Glossary

I. Clinical Examinations in Orthopedics	ii
II. Human Gait	xviii
III. Appendix: Instruments and Implants in Orthopedics	xxi
IV. Glossary	xxvii
<i>Index</i>	357
