About the Author	ix
Preface	xi
Acknowledgments	xii
Contributors and Reviewers	xiii
Special Features of the Book	xxi
Syllabus	xxv

SECTION I ESSENTIALS OF EXERCISE THERAPY

Chapter 1	Mechanics	3–23
	<i>Sheetal Kalra, Paridhi Sharma</i>	
	• Introduction 4 • Kinematics 4 • Kinetics 7 • Force and its Composition 10 • Levers 15 • Anatomical Pulleys 17 • Spring 18	
Chapter 2	Basics of Exercise Therapy	25–53
	<i>Sheetal Kalra</i>	
	• Introduction 26 • Aims 26 • Techniques Used in Exercise Therapy 26 • Patient-Centric Approach 27 • Patient Assessment—Physiotherapy Perspective 28 • Vital Signs 29 • Pulmonary Function Tests 29 • Leg Length Measurement 33 • Pelvic Tilt 35 • Fundamental Positions 36 • Derived Positions 41	
Chapter 3	Muscle Action	55–64
	<i>Sheetal Kalra</i>	
	• Introduction 56 • Types of Muscles 56 • Muscle Contraction 56 • Group Action of Muscles 58 • Angle of Pull and Mechanical Efficiency of Muscles 59 • Active and Passive Insufficiency 60	

SECTION II EXAMINATION/TESTING TECHNIQUES

Chapter 4 Manual Muscle Testing 67–124

Sheetal Kalra

- Introduction 68
- Principles of Manual Muscle Testing 68
- Aims of Manual Muscle Testing 68
- Techniques 69
- Principles of Application of Resistance 69
- Indications of Manual Muscle Testing 69
- Limitations 70
- Guidelines 70
- Grades 70
- Techniques for Upper Limb Muscles 72
- Techniques for Lower Limb Muscles 90
- Muscles of Spine 103
- Techniques for Spinal Muscles 104
- Techniques for Facial Muscles 108
- Respiratory Muscle Strength Assessment 114
- Assessment of Pelvic Floor Muscle Strength 119

Chapter 5 Goniometry 125–171

Sheetal Kalra, Sajjan Pal

- Introduction 126
- Principles 126
- Aims 127
- Types of Goniometers 127
- Psychometric Properties of Goniometers 129
- Methods of Joint Measurement 130
- Indications 130
- Procedure 131

Chapter 6 Assessment of Neuromuscular Efficiency 173–192

Sheetal Kalra, Archana Khanna

- Introduction 174
- Tests of Anthropometry 174
- Muscle Strength/Power Assessment 177
- Sensory Assessment 178
- Tests for Incoordination 184
- Electrical Tests 187

SECTION III APPLICATION OF PRINCIPLES OF EXERCISE THERAPY

Chapter 7 Passive Movements 195–220

Sheetal Kalra

- Introduction 196
- Range of Motion 196
- Causes of Immobility 196
- Classification 197
- Principles and Procedure 199
- Indications 200
- Effects and Uses 200
- Contraindications 200
- Techniques of Relaxed Passive Movements for Individual Joints 201

Chapter 8 Active Movements 221–236

Sheetal Kalra

- Introduction 222
- Basic Structure of a Muscle 222
- Muscle Performance 225
- Physiological Adaptations 227
- Active Exercises 228

Chapter 9 Resisted Exercises 237–273

Sajjan Pal, Sheetal Kalra

- Introduction 238
- Resisted Training 238
- Classification 239
- Various Equipment for Resistance Training 242
- Determinants 249
- Principles 251
- Physiological Adaptations 252
- Precautions 253
- Contraindications 254
- Exercise Regimens 254
- Technique of Application of Resisted Exercises 257

Chapter 10 Stretching275–311*Sheetal Kalra, Kopal Pajnee (Stretching) Jitender Munjal, Savita Tamaria, Kalpana Zutshi, Varsha Chorasaya (Myofascial Release)*

- Introduction 276
- Joint Mobility 276
- Interventions to Improve Soft Tissue Mobility 278
- Stretching Exercises 278
- Determinants 283
- Classification of Stretching 285
- Procedure 289
- Techniques 290
- Self-Stretching 298
- Myofascial Release 303

Chapter 11 Aerobic Exercises313–332*Sonia Pawaria, Richa Rai, Sheetal Kalra*

- Introduction 314
- Types of Aerobic Exercises 314
- Physiological Responses to Aerobic Exercises 314
- Exercise Testing 318
- Exercise Prescription 322
- Aerobic Training 324
- Overtraining Syndrome 325
- Abnormal Responses to Acute Aerobic Exercise 326

Chapter 12 Functional Re-Education333–346*Paridhi Sharma, Pradeep Kumar*

- Introduction 334
- Benefits of Functional Re-Education Program 334
- Components 334
- MAT/BED Activities 334
- Mobility and Stability Activities at the Floor 338

Chapter 13 Coordination Exercises347–363*Sheetal Kalra, Puneeta Ajmera, Sheetal Yadav*

- Introduction 348
- Anatomy of Cerebellum 348
- Physiology of Neuromuscular Coordination 351
- Incoordination 351
- Coordination Tests 355
- Coordination Exercises 356
- Frenkel's Exercises 358

Chapter 14 Group and Individual Exercises365–373*Puneeta Ajmera, Sheetal Yadav, Sheetal Kalra*

- Introduction 366
- Group Exercises 366
- Individual Exercises 368
- Home Exercise Prescription 369

SECTION IV THERAPEUTIC TECHNIQUES**Chapter 15 Proprioceptive Neuromuscular Facilitation377–395***Paridhi Sharma*

- Introduction 378
- Basic Principles 378
- Proprioceptive Neuromuscular Facilitation Patterns 380
- Head and Neck Patterns of Movement 386
- Trunk Patterns 387
- Proprioceptive Neuromuscular Facilitation Techniques 389

Chapter 16 Manual Therapy and Peripheral Joint Mobilization397–445*Kopal Pajnee*

- Introduction 398
- History of Manual Therapy 398
- Different Approaches of Manual Therapy 399
- Joint Mobilization 409
- Joint Mobilization Techniques 415
- Shoulder Complex 415
- Elbow Complex 420
- Radioulnar Joints 424
- Wrist and Hand Complex 425
- Hip Joint 433
- Knee Complex 435
- Ankle and Foot Complex 438

Chapter 17	Soft Tissue Manipulation	447–472
<i>Sheetal Kalra, Paridhi Sharma</i>		
• Introduction	448	
• History	448	
• Classification	449	
• Procedure	450	
• Techniques	451	
• Physiological Effects	465	
• Indications	467	
• Contraindications	468	
Chapter 18	Relaxation	473–488
<i>Sheetal Kalra</i>		
• Introduction	474	
• Muscle Tone	474	
• Stress and its Effects on Various Systems of the Body	474	
• Fatigue	476	
• Relaxation Exercises	477	
• Techniques of Relaxation	478	
Chapter 19	Suspension Therapy	489–501
<i>Sheetal Kalra</i>		
• Introduction	490	
• Principles	490	
• Equipment and Accessories	491	
• Indications	493	
• Contraindications	493	
• Types of Suspension	494	
• Advantages	495	
• Disadvantages	495	
• Techniques for Lower Limb	495	
• Techniques for Upper Limb	497	
Chapter 20	Hydrotherapy	503–519
<i>Sheetal Kalra</i>		
• History	504	
• Physical Properties of Water	504	
• Techniques	506	
• Mechanisms of Action	507	
• Physiological Effects	507	
• Disadvantages	510	
• Contraindications and Precautions	510	
• Adverse Effects	511	
• Clinical Uses	511	
• Procedure	513	
• Types of Baths/Tanks	513	
• Pool Design Considerations	515	

SECTION V MOVEMENT AND ALIGNMENT

Chapter 21	Posture	523–537
<i>Sheetal Kalra, Deepak Raghav</i>		
• Introduction	524	
• Types of Posture	524	
• Postural Control Mechanism	524	
• Good Posture	526	
• Poor Posture	528	
• Posture Assessment	530	
• Treatment for Poor Posture	534	
Chapter 22	Gait	539–564
<i>Sheetal Kalra</i>		
• Introduction	540	
• Gait Cycle	540	
• Determinants of Gait	543	
• Pathological Gaits	545	
Chapter 23	Gait Training and Walking Aids	565–587
<i>Sheetal Kalra</i>		
• Introduction	566	
• Gait Training	566	
• Walking Aids or Assistive Devices	567	
• Strength Training	581	
• Balance Drills	583	

Chapter 24 Balance589–601
Sheetal Kalra, Paridhi Sharma

- Introduction 590
- Types of Balance 590
- Mechanism 590
- Impaired Balance 592
- Interventions for Improving Balance 596
- Hip, Ankle and Stepping Strategies 597

Chapter 25 Introduction to Yoga.....603–612
Sheetal Kalra

- Introduction 604
- What is Yoga? 604
- Types of Yoga 604
- Psychophysiological Mechanisms of Action 605
- Principles of Therapeutic Approach of Yoga 606
- Therapeutic Effects 607
- Benefits of Yoga 607
- Yoga: A Holistic Approach 609

Annexure Bed Rest613–617
Sheetal Kalra

Index619
