<i>Foreword by Dhiren Gupta</i>	<i>xI</i>		
<i>Preface</i>	<i>xIII</i>		
1. Evolution and Organization of Pediatric Intensive Care Unit	1	18. Drowning	143
2. Information Technology	7	19. Poisoning, Envenomation, and Electrical Injury	151
3. Evidence-based Medicine	19	20. Burn and Inhalation Injury	169
4. Severity of Illness Scoring System	23	21. Blood Product, Transfusion Therapy and TRALI	180
5. Research, Quality Assessment, Medical Error and Statistical Analysis in Pediatric Critical Care	31	22. Physiology and Disorder of Thermoregulation	184
6. Pain and Sedation Management	36	23. Mass Casualty and Bioterrorism	198
7. Rehabilitation	50	24. Respiratory Physiology	210
8. Management and Care of Organ Donation	55	25. Pathophysiology of Acute Lung Injury and ARDS	222
9. Ethics and Death in PICU and Medicolegal Aspects	65	26. Monitoring of Respiratory System	238
10. Immunity, Inflammation and Adaptation to Stress at Cellular Level	71	27. Respiratory Failure	258
11. Pathophysiology of Shock and Reperfusion Injury	79	28. Bronchiolitis	263
12. Pharmacodynamics and Pharmacokinetics	86	29. Croup	266
13. Multiple Organ Dysfunction Syndrome	96	30. Status Asthmaticus	269
14. Postcardiac Arrest Stabilization	101	31. Pneumonia and Empyema	283
15. Transport of Clinically Ill Patients	106	32. Ventilator-associated Pneumonia (VAP)	298
16. Management of Shock	116	33. Tracheostomy Care	312
17. Vascular Access and Invasive Procedures	131	34. Anesthetic Breathing Circuit	317
		35. Cardiac Anatomy and Physiology	324
		36. Cardiopulmonary Interaction in Children with Heart Disease	333
		37. Hemodynamic Monitoring	344
		38. Myocarditis	364

Manual of Pediatric Intensive Care

39. Cardiomyopathy	371
40. Cardiogenic Tamponade	384
41. Inotropes and Vasopressors	390
42. Heart Failure	398
43. Traumatic Brain Injury	406
44. Neuromuscular Dysfunction in Critical Illness	418
45. Approach to Comatose Child	422
46. Intracranial Hypertension and Multimodality Neuromonitoring	434
47. Neuroimaging	444
48. Dental Emergency in Pediatric Trauma	461
49. Status Epilepticus	466
50. Stroke and Cerebrovascular Disorder	477
51. Metabolic Encephalopathy	482
52. Brain Death	492
53. Immune System and Response in Critical Illness	498
54. Immune Modulation and Immunotherapy in Critical Illness	508
55. Bacterial Sepsis	516
56. Life-threatening Viral Infections	525
57. Autoimmune and Toxin-induced Life-threatening Conditions	539
58. Opportunistic Infections	552
59. Development of Resistance to Antimicrobial Therapy	566
60. Electrolyte Disturbances in PICU	574
61. Disorder of Glucose Homeostasis in Critically Ill Patient	593
62. Renal Replacement Therapy	599
63. Abdominal Compartment Syndrome	604
64. Adrenal Dysfunction	612
65. SIADH and CSW	621
66. Thyroid Emergencies	628
67. AKI and Biomarkers	634
68. Hypertensive Crisis	643
69. Inborn Error of Metabolism	653
70. Fluids	670
71. Hemato-oncologic Emergencies	680
72. Thrombosis in PICU	701
73. Hemorrhagic Shock and Management of Polytrauma	711
74. Nutrition and Metabolism in Critically Ill Children	721
75. Nutritional Support in Critically Ill Children	731
76. Acute Abdomen	741
77. Acute Liver Failure in Children	750
78. Wilson Disease	760
79. HSCT and PICU	769
80. Diabetic Ketoacidosis	776
Appendix: Drug Dosages in Pediatric Intensive Care	787
<i>Index</i>	799
