Contents

Preface to the Second Edition *v*
Preface to the First Edition *vii*

PART I: MALE REPRODUCTIVE PHYSIOLOGY

1. Development of Male Genitalia and Gonads 3
2. Male reproductive System 11
3. Endocrine Control of Male Reproduction 37
4. Common Congenital and Genetic Defects of Male Reproductive Tract 52
5. Puberty and Sexual Maturity 61
6. Testicular Descent 72
7. Libido (Sexual Desire) 79
8. Sexual Behaviour in Male Animals 86
9. Vices of Male Animals 105
10. Thermoregulation of Testes 114
11. Blood-testis Barrier 120
12. Semen 128
13. Spermatogenesis 137
14. Morphology of Spermatozoon 156
15. Metabolism of Spermatozoa 173
16. Sperm Transport 185
17. Penile Erection in Farm and Pet Animals 191
18. Ejaculation in Farm and Pet Animals 196

PART II: MALE INFERTILITY

19. Forms of Male Infertility 203
20. Cryptorchidism 220
21. Testicular Hypoplasia 230
22. Testicular Degeneration 243
23. Orchitis 257
24. Diseases of Accessory Sex Glands 265
25. Testicular Neoplasms 277
26. Seminal Granulomas 287
27. Sperm Abnormalities 293

PART III: ARTIFICIAL INSEMINATION

28. Introduction, History, Advantages, and Limitations of Artificial Insemination 309
29. Preparation of Artificial Vagina 317
30. MaxYield Artificial Vagina 325
31. Equine Artificial Vagina 331
32. Methods of Semen Collection 340
33. Factors Affecting the Quality and Quantity of Semen 355
34. Factors Affecting the Function of Sperm *in Vitro* 361

35. Semen Evaluation 366
36. Ideal Semen Extender 375
37. Preparation of Extender 387
38. Preservation of Bovine Semen at Different Temperatures 393
39. Equine Semen Extenders 403
40. Boar Semen Extenders 410
41. Extension of Bovine Semen 420
42. Cryopreservation of Semen 424
43. Packaging of Frozen Semen 442
44. Liquid Nitrogen Containers 450
45. Storage and Shipment of Frozen Semen 460
46. Thawing of Frozen Semen 470
47. Technique of AI in Bovines 475
48. CIRB Artificial Insemination Gun 487
49. Artificial Insemination in Mares 494
50. Artificial Insemination in Sows 501
51. Artificial Insemination in Bitches 506
52. Artificial Insemination in Ewe and Doe 514
53. Planning and Organization of a Bull Station and Semen Bank Complex 520
54. Selection of Breeding Bull for AI 534
55. Andrological Investigation of Breeding Bulls 542
56. Breeding Soundness Evaluation of Bulls 552
57. Preparation of Teaser Bull 566
58. Care, Sterilization, Storage, and Upkeep of Equipment 571

PART IV: SEMEN EVALUATION TECHNIQUES AND SURGICAL TECHNIQUES

59. Semen Evaluation with Microscope 579
60. Spermoscope 583
61. Estimation of Individual Sperm Motility 588
62. Eosin-nigrosin Staining 592
63. Giemsa Staining 596
64. Feulgen Staining 599
65. Estimation of Sperm Concentration 603
66. Methylene Blue Reduction Test 609
67. Hypo-osmotic Swelling Test 611
68. Bovine Cervical Mucus Penetration Test 617
69. *In Vitro* Tests for the Evaluation of Male Fertility 620
70. Computer-assisted Sperm Analyzer (CASA) 627
71. Sperm Sexing by a Flow Cytometric Method 634
72. Medical and Surgical Techniques for Population Control of Male 638
73. Surgical Procedures on the Male Reproductive Tract in Farm and Pet Animals 651
74. Preputial Washing 663
75. Effect of Parental Drugs on Semen Quality of Breeding Males 667

Appendices *675*
Glossary *683*
Index *691*
