<i>Preface</i>	<i>iii</i>
<i>Director's Message</i>	<i>v</i>
<i>Special Features of the Book</i>	<i>vii</i>

ASSIGNMENTS

1. Defense Mechanism	2
2. Bandages	3
3. Bed Making	7
4. Care of Terminally Ill Patients	9
5. Comfort Devices.....	11
6. Documentation and Reporting	13
7. First Aid Management of Burns, Poisoning, Drowning and Bleeding.....	16
8. Interpersonal Relationship	19
9. Nursing as a Profession.....	21
10. Nursing Theories	23
11. Patient Positions	25
12. Restraints	28
13. Routes of Medications.....	29
14. Sterilization and Disinfection	35
15. IV Fluids	39
16. Vital Signs.....	41
17. Anatomy and Physiology of Kidney	47
18. Anatomy and Physiology of Lungs	51
19. Cell Cycle.....	57
20. Immunity and its Types	60
21. Layers and Functions of Skin.....	63
22. Long Bone	65
23. Structure and Function of Cell	67
24. Structure and Function of Heart	70
25. Structure and Function of Neuron.....	75
26. Joint and its Types	78
27. National Nutrition Programs and Role of Nurse	82
28. Vitamins and Minerals	86
29. Acid Base Imbalance	91

NURSING CARE PLANS

1.	Activity intolerance	96
2.	Acute Pain	101
3.	Deficient Fluid Volume.....	106
4.	Disturbed Body Image.....	111
5.	Excess Fluid Volume	116
6.	Fear and Anxiety	121
7.	Fever	126
8.	Imbalanced Nutrition	131
9.	Impaired Gas Exchange.....	136
10.	Impaired mobility.....	142
11.	Impaired Skin Integrity.....	147
12.	Impaired Urinary Elimination.....	152
13.	Impaired Verbal Communication	156
14.	Ineffective Breathing Pattern	161
15.	Ineffective Coping	166
16.	Knowledge Deficit.....	170
17.	Risk of Aspiration	175
18.	Risk of Falls	179
19.	Risk of Infection	184
20.	Self-care Deficit	189
