PART ONE BACKGROUND

1	ORTHOPAEDICS IN PERSPECTIVE	2
	Energy Level and Age of the Patient, 4	
2	MAKING A DIAGNOSIS	6
	Orthopaedic History, 7	
	Physical Exam, 9	
	<i>Vascular Physical Exam, 10</i>	
	<i>Neurological Physical Exam, 11</i>	
	Diagnostic Imaging: General Principles, 13	
	<i>Describing X-rays, 15</i>	
	Region-by-Region Overview, 17	
	<i>Knee, 17</i>	
	<i>Shoulder, 20</i>	
	<i>Hip/Low Back, 21</i>	
	<i>Wrist/Elbow, 24</i>	
	<i>Foot/Ankle, 26</i>	
3	OVERVIEW OF URGENT ORTHOPAEDIC CONDITIONS	28
	Multiply Injured Patient, 28	
	Open Fractures, 30	
	Closed Fractures, 31	
	Dislocations, 33	
	Limb Pain: Out of Control, 34	
	Acutely Swollen Joint, 36	
	Soft Tissue Infections, 38	
	<i>Infection in the Diabetic Foot, 40</i>	
	Acute Back Pain, 41	
	Child with a Limp, 43	

PART TWO ORTHOPAEDIC TRAUMA IN ADULTS

4	GENERAL PRINCIPLES OF ORTHOPAEDIC TRAUMA	46
	General Principles of Adult Fractures, 47	
	<i>Age and Weak Link, 47</i>	
	<i>Energy Level, 47</i>	
	Predicting Outcome in Fracture Care, 48	
	Complications, 49	
	General Indications for Open Reduction/Fixation, 50	
	The Big Four, 51	
5	HIP	53
	Demographics, 53	
	Mechanism of Injury, 53	
	Classification, 54	
	Emergency Treatment, 57	
	Operative Treatment, 57	
	<i>Intracapsular Fractures, 57</i>	
	<i>Extracapsular Fractures, 58</i>	
	Complications, 60	
6	ANKLE	63
	Classification of Ankle Fractures, 64	
	<i>Emergency Room Treatment, 65</i>	
	<i>Operative Treatment, 66</i>	
	<i>Healing Times, 66</i>	
	<i>Complications, 67</i>	
	Ankle Sprains, 67	
	Achilles Tendon Injuries, 68	
	<i>Treatment, 69</i>	
7	WRIST	70
	Classification System, 72	
	Emergency Room Treatment, 73	
	Operative Treatment, 74	
	<i>Treatment for Specific Fractures, 74</i>	
	Outcomes, 76	
	<i>Fracture-Specific Parameters, 76</i>	
	<i>Patient-Specific Characteristics, 77</i>	

8	KNEE.....	79
	Soft Tissue Injuries, 79	
	<i>Locked Knee, 79</i>	
	<i>Knee Strain, 80</i>	
	<i>Knee Blowout, 81</i>	
	<i>Extensor Mechanism Failures, 84</i>	
	<i>Knee Dislocation, 85</i>	
	Bony Injuries, 86	
	<i>Fractures in Good Bone, 86</i>	
	<i>Fractures in Osteoporotic Bone, 88</i>	
9	SHOULDER.....	91
	Young Adults/Older Teenagers with Closed Growth Plates, 91	
	<i>Shoulder Dislocations, 92</i>	
	<i>Acromio-Clavicular (AC) Joint Injuries, 94</i>	
	<i>Clavicle Fractures, 95</i>	
	Proximal Humerus Fractures, 95	
	<i>Middle-Aged Patients, 95</i>	
	<i>Elderly Patients, 97</i>	
10	LONG BONE FRACTURES.....	99
	Femoral Shaft Fractures, 99	
	Tibial Shaft Fractures, 101	
	Humeral Shaft Fractures, 103	
	Forearm Shaft Fractures, 105	
11	ELBOW INJURIES	108
	Low-Energy Injuries, 108	
	<i>Radial Head Fractures, 108</i>	
	<i>Extra-articular Supracondylar Humerus Fractures, 109</i>	
	<i>Distal Biceps Tendon Ruptures, 109</i>	
	Medium-Energy Injuries, 110	
	<i>Olecranon Fractures, 110</i>	
	<i>Elbow Dislocations, 111</i>	
	High-Energy Injuries, 112	
	<i>Intra-articular Distal Humerus Fractures, 112</i>	
	<i>Elbow Dislocations with Significant Associated Fractures, 112</i>	

12 FOOT	114
Forefoot Injuries, 114	
Mid-foot Injuries, 115	
Hind-foot Injuries, 117	
<i>Talar Injuries, 117</i>	
<i>Calcaneal Fractures, 119</i>	
13 PELVIS	122
Low-Energy Fractures, 122	
High-Energy Fractures, 122	
14 THORACOLUMBAR SPINAL FRACTURES	126
Stable Spinal Fractures, 127	
Unstable Spinal Fractures, 128	
15 PATHOLOGICAL FRACTURES (HOLE IN BONE)	130
Staging the Lesion: Nonaggressive Versus Aggressive, 130	
Differential Diagnosis, 132	
Treatment, 134	

PART THREE ORTHOPAEDIC TRAUMA IN CHILDREN

16 GENERAL PAEDIATRIC PRINCIPLES	136
Healing Times Are Quicker, 136	
Remodelling of Children's Fractures, 137	
Unique Fracture Patterns in Children, 138	
Where Is the Weak Link? 141	
Unique Features of Treatment, 141	
Common Paediatric Fractures, 143	
17 MOST COMMON PAEDIATRIC FRACTURES	144
Wrist, 144	
Forearm, 145	
Ankle and Distal Tibia, 148	
18 MOST WORRISOME PAEDIATRIC FRACTURES: ELBOW	151
Supracondylar Distal Humerus Fractures, 152	
Other Elbow Fractures in Young Children, 154	
Elbow Fractures in Older Children, 156	

19 REMAINING PAEDIATRIC FRACTURES BY REGION	157
Clavicle, 157	
Shoulder/Humerus, 158	
Femur, 159	
Knee Injuries, 161	
Foot, 163	
Spine, 163	
Pelvis, 163	
Conclusion: Paediatric Fractures, 164	

PART FOUR ELECTIVE ORTHOPAEDICS IN ADULTS

20 OVERVIEW	165
21 KNEE.....	167
Younger Patients, 167	
Older Patients, 169	
22 SHOULDER	173
Younger Patients, 173	
Older Patients (Older Than Age 45), 174	
23 HIP AND LOW BACK.....	177
Older Patients (Older Than Age 60), 177	
Younger Patients, 179	
<i>Hip Pain, 179</i>	
<i>Back Pain, 180</i>	
24 FOOT AND ANKLE	184
Forefoot Disorders, 184	
Hind-foot Disorders, 187	
25 HAND, WRIST, AND ELBOW	189
Hand and Wrist Disorders, 189	
Elbow Disorders, 193	

PART FIVE ELECTIVE ORTHOPAEDICS IN CHILDREN

26 INFANTS AND TODDLERS	197
Developmental Dysplasia of the Hip (DDH) ,	197
Crooked Feet, 201	
<i>Varus Foot, 201</i>	
<i>Valgus Foot, 202</i>	
Gait Problems, 203	
<i>In-toers, 204</i>	
<i>Out-toers (Knock-kneed), 204</i>	
<i>Tiptoe Gait, 205</i>	
27 ADOLESCENTS AND TEENAGERS.....	206
Scoliosis, 206	
Adolescent Overuse Syndromes, 208	
Back and Limb Pain, 210	
<i>Pathological Back Pain, 210</i>	
<i>Pathological Limb Pain, 212</i>	

PART SIX PRACTICE

28 TECHNICAL SKILLS FOR PRIMARY-CARE DOCTORS.....	214
Skills in the Outpatient Clinic or Office, 214	
<i>Splinting, 214</i>	
<i>Casting, 215</i>	
<i>Joint and Bursa Aspiration, 217</i>	
<i>Depo-Medrol Injections, 218</i>	
Skills in the Emergency Department, 219	
<i>Realignment Procedures in the E.R. 219</i>	
<i>Definitive Fracture Reduction in the E.R. 220</i>	
<i>Reduction of Dislocations in the E.R. 222</i>	
<i>Conclusion, 224</i>	
29 QUESTIONS FREQUENTLY ASKED OF ORTHOPAEDIC SURGEONS	225
CONCLUSION	227
<i>Index</i>	228
<i>About the Author</i>	240
