Chapter 1 Introduction to Psychology 1–22

Let's Start our Journey.....	1
Introduction.....	2
Psychology: The Science of Human Behavior	2
Definitions of Psychology	2
Evolution of Psychology.....	3
Scope of Psychology.....	5
Branches of Psychology	7
Research Methods Used in Psychology	8
Relationship of Psychology with other Subjects.....	15
Significance of Psychology in Nursing	17
Applied Psychology to Solve Everyday Issues.....	18

Chapter 2 Biological Basis of Behavior 23–50

Introduction.....	24
Definition	25
Organs Responsible for Body-Mind Relationship	25
Therapies Based on Body-Mind Relationship.....	28
Brain and Behavior.....	30
Neurotransmitters	37
Genetics and Behavior.....	38
Inheritance of Behavior	40
Psychology and Sensation	43

Chapter 3 Mental Health and Hygiene..... 51–72

Introduction.....	52
Definitions.....	52
Characteristics of Mentally Healthy Person.....	53

Warning Signs of Poor Mental Health.....	53
Promotive and Preventive Mental Health Strategies and Services	55
Defense Mechanisms	59
Frustration and Conflict.....	64

Chapter 4 Developmental Psychology73–96

Introduction	74
Physical, Psychosocial and Cognitive Development Across Lifespan.....	75
Factors Affecting an Individual's Development	77
Theories of Developmental Psychology	78
Developmental Milestones.....	82
Child Psychology.....	89
Role of Nurse in Case of Vulnerable Individuals	92
Developmental Disorders.....	93

Chapter 5 Personality.....97–118

Introduction	98
Definition	98
Classification of Personality.....	99
Previously Used Model to Classify Personality	99
Theories and Models of Personality.....	100
Key Theoretical Approaches to Personality.....	108
Measurement and Evaluation of Personality	110
Alteration in Personality.....	112
Disorders Due to Personality Alteration	113
Role of Nurse in Identification of Individual Personality and Improvement in Altered Personality.....	115

Chapter 6 Sensation, Attention and Perception119–142

Sensation

Types of Sensation	120
Senses and their Receptors	121
Sensory Adaptation	121
Sensory Process	122
Sensory Thresholds	122
Theories of Sensation.....	123

Attention

Definitions.....	124
Types of Attention	124
Determinants of Attention	125
Attention Span/Degree and Duration of Attention	126
Alterations in Attention.....	127

Perception

Meaning.....	128
Principles.....	128
Factors Affecting Perception.....	129
Process of Perception.....	129
Absolute Threshold of Perception.....	130
Subliminal Threshold of Perception.....	131
Principles of Perceptual Organization.....	131
Sociocultural Influence on Perception.....	137
Errors of Perception.....	138
Role of Perception in Nursing.....	140

Chapter 7 Intelligence.....143–161

Introduction.....	144
Nature of Intelligence.....	145
Definitions.....	145
Meaning.....	145
Factors Influencing Intelligence.....	146
Types of Intelligence.....	146
Classification of Intelligence.....	147
Characteristics of Intelligence.....	148
Theories of Intelligence.....	148
Emotional Intelligence.....	154
Mental Deficiency.....	155
Tests to Measure Intelligence.....	156
Disorders Associated with Intelligence.....	156
Effects of Heredity and Environment on Intelligence.....	157
The Role of Nurses in Promoting Intelligence.....	158
Practical Implications of Intelligence in Nursing.....	158

Chapter 8 Learning.....163–178

Definitions.....	164
Components.....	164
Principles.....	164
Factors Influencing Learning.....	165
Characteristics.....	166
Theories of Learning.....	166
Laws of Learning.....	171
Learning Process.....	172
Types of Learning.....	173
Transfer of Learning.....	173
Disorders Associated with Learning.....	174
Habit Formation.....	174
Role of Nurse in Promoting Learning.....	176

Chapter 9 Memory.....179–190

Introduction.....	180
Meaning.....	180
Definitions.....	181
Factors Influencing Memory	181
Characteristics of Memory.....	182
Types of Memory.....	183
Models/Theories of Memory	184
Methods to Improve Memory.....	186
Disorders Associated with Memory Problems.....	187
Role of the Nurse in Helping Patients with Memory Problems	187
Forgetting	188

Chapter 10 Thinking and Errors of Thinking191–209

Introduction.....	192
Meaning.....	192
Definitions.....	193
Nature of Thinking.....	193
Factors Influencing Thinking.....	193
Characteristics of Thinking	194
Types of Thinking	194
Levels of Thinking.....	195
Cognitive Process in Thinking.....	198
Theories of Thinking	199
Disorders Associated with Thinking	200
Cognitive Biases and Errors in Thinking.....	201
Reasoning.....	203
Problem-Solving and Decision-Making.....	203
Role of a Nurse in Enhancing Thinking.....	206

Chapter 11 Aptitude and Cognitive Processes211–222

Introduction.....	212
Definitions.....	212
Characteristics	213
Aptitude and Individual Differences	214
Alteration of Cognitive Processes	218
Role of Aptitude in Nursing.....	219

Chapter 12 Motivation223–234

Meaning.....	224
Definition	224
Sources of Motivation	225

Characteristics of Motivation	225
Motivation Cycle	225
Types of Motives	226
Theories of Motivation	227
Motivation in Patient Care and Therapies	230

Chapter 13 Emotions.....235–246

Introduction	236
Meaning.....	236
Definitions.....	236
Types of Emotions.....	237
Components of Emotions	238
Theories of Emotions.....	239
Alteration of Emotions and Emotions in Sickness	243
Handling Emotions in Self and other	243

Chapter 14 Stress and Adaptation247–259

Introduction	248
Meaning of Stress.....	249
Definitions of Stress	249
Stressors	249
Types of Stress.....	250
Cycle of Stress	250
Stages of Stress Response.....	251
Effects of Stress on Body	252
Signs and Symptoms of Stress.....	253
Adaptation and Coping Stress	254

Chapter 15 Attitude.....261–272

Introduction	262
Definitions of Attitude.....	263
Meaning of Attitude	263
Components of Attitude.....	263
Nature of Attitude.....	264
Factors Affecting Formation of Attitude	264
Functions of Attitude	265
Theories of Attitude	266
Attitudinal Change.....	267
Measurement of Attitude.....	267
Impact of Attitude	267
Role of Attitude in Health and Sickness.....	268
Psychometric Assessment of Motivation, Emotions and Attitude.....	269
Role of a Nurse in Caring Emotionally Sick Clients.....	270

Chapter 16 Psychological Assessment and Tests273–287

Introduction	274
Development of Psychological Assessment Tests.....	274
Characteristics of Psychological Assessment Tests.....	275
Principles of Psychological Assessment Tests.....	276
Types of Psychological Assessment Tests	276
Uses of Psychological Tests	282
Interpretation of Psychological Tests.....	282
Scales to Assess the Cognitive Abilities.....	283
Role of Nurse to Assess the Cognitive Abilities.....	284

Chapter 17 Applications of Soft Skills and Interpersonal Relationships.....289–307

Soft Skills	290
Interpersonal Relationships	301
Application of Soft Skills in Workplace and Society.....	303
Use of Soft Skills in Nursing.....	304

Chapter 18 Self-Empowerment309–321

Introduction	310
Definitions of Self-Empowerment	310
Dimensions of Self-Empowerment.....	311
Development of Self-Empowerment	311
Significance of Self-Empowerment.....	311
Importance of Women's Empowerment in Society.....	313
Strategies for Building Self-Confidence and Self-Esteem	313
Resilience in Self-Empowerment	315
Professional Etiquettes and Personal Grooming.....	316
Role of Nurses in Fostering Empowerment.....	318

Chapter 19 Counseling.....323–232

Introduction	324
Definitions of Counseling.....	324
Characteristics of Counseling.....	324
Types of Counseling.....	325
Principles of Counseling.....	325
Stages of Counseling	326
Skills Used in Counseling.....	326
Techniques of Counseling.....	327
Use of Counseling Services	328
MCQs.....	333–339
Annexures.....	341–353
Index	355–368
