Section I Community Health

Unit 1 Introduction to Community Health3–33

Introduction	4	Responsibilities for Community Health	9
Meaning of Community	4	Community Health Nursing	10
Definitions	4	Concepts of Health and Disease	10
Components	4	Dimensions of Health	14
Characteristics	5	Health Indicators	16
Types	5	Determinants of Health	18
Functions	5	History and Development of Community Health	20
Differences between Urban and Rural Communities	6	Development of Community Health Nursing in India	21
Community Health	7	Present Concepts of Community Health	22
Public Health	7	Primary Healthcare	23
Community Health: The Prevalent Concept	7	Millennium Development Goals	26
Community Diagnosis	8	Promotion and Maintenance of Health	27
Community Treatment	8	Sustainable Development Goals	28

Unit 2 Community Health Nursing34–54

Introduction	34	Concept and Importance	37
Definitions	35	Qualities of Community Health Nurse	38
Philosophy	35	Functions of Community Health Nurse	39
Goals and Objectives	36	Nursing Process	41
Principles	36	Community Health Nursing Process	43

Unit 3 Health Assessment.....55–86

Introduction	56	Components of Health Assessment	59
Advantages of Health Assessment	56	Health Assessment of Infant	64
Characteristics of Healthy Individuals	56	Health Assessment of Preschool Child	66

Health Assessment of School-Going Child 67
 Health Assessment of Adolescents 68
 Health Assessment of Antenatal Woman 70
 Health Assessment of Postnatal Woman 73
 Health Assessment of Adult 75

Health Assessment of Elderly 77
 Collection of Specimens for Various Pathological Investigations 80
 Breast Examination 82

Unit 4 Principles of Epidemiology and Epidemiological Methods 87–163

Introduction 88
 Epidemiology 88
 Epidemiological Differences between Communicable and Noncommunicable Diseases 90
 Communicable Diseases 92
 Noncommunicable Diseases 120
 Epidemiological Investigations 130
 Basic Tools of Measurement in Epidemiology 133
 Applications of Epidemiology 136
 Course of Disease 137

Spectrum of Disease 137
 Levels of Prevention 138
 Disease Transmission 140
 Immunity 144
 Immunizing Agents 146
 Immunization 148
 National Immunization Schedule 148
 Cold Chain 151
 Potency Test 153
 Control of Infectious Diseases 156

Unit 5 Family Health Nursing Care 164–197

Introduction 164
 Family 165
 Concept of Family Health 167
 Family Healthcare Services 169
 Family Healthcare Plan 170

Family Health Nursing Process 170
 Family Health Services 174
 Role of Community Health Nurse in Family Health Services 191
 Family Health Records 193

Unit 6 Family Healthcare Setting 198–213

Introduction 198
 Family Healthcare Setting 199

Bag Technique 202
 Clinics 205

Unit 7 Referral System 214–230

Introduction 214
 Healthcare 214

Healthcare Settings 216
 National Health Programs 225

Unit 8 Records and Reports 231–241

Introduction 231
 Records 231
 Reports 236

Essential Requirements of Records and Reports 237
 Preparation and Maintenance of Records and Reports 238

Unit 9 Minor Ailments 242–254

Introduction 242
 Minor Ailment/Illness 243
 Standing Orders 244

Standing Orders for the Treatment/Management of Minor Ailments 246

Section II Environmental Hygiene

Unit 10 Environment and Environmental Health..... 257–265

Introduction 257

Definitions of Environment 258

Sanitation 258

Environmental Health 259

Environment 261

Importance of Healthy Environment 263

Environmental Problems in India 263

Unit 11 Environmental Factors Contributing to Health..... 266–324

Introduction 267

Water 267

Water Pollution: Natural and Acquired

Impurities 269

Waterborne Diseases 271

Water Purification 272

Air 279

Air Pollution 280

Waste 283

Excreta 287

Sewage 291

Health Hazards of Waste on Human Health 294

Housing 295

Noise 302

Arthropods 304

Rodents 314

Insecticides 319

Pest Control 320

Unit 12 Community Organization to Promote Environmental Health 325–338

Introduction 325

Environmental Health Risk 326

Protection of Environment 326

Environmental Protection and Laws in India 328

Major Areas of Activities for Pollution Control 332

The Air (Prevention and Control of Pollution)

Act, 1981 334

The Water (Prevention and Control of Pollution)

Act, 1974 335

Noise Pollution and Legislative Measures 336

Section III Health Education and Communication Skills

Unit 13 Communication Skills..... 341–354

Introduction 342

Communication 342

Establishment of Successful Communication 349

Observing and Listening Communication 350

Communication Models 352

Health Communication 352

Unit 14 Health Education..... 355–367

Introduction 356

Health Education 356

Process of Change/Modification of Health

Behavior 358

Levels and Approaches of Health Education 359

Methods of Health Education 360

Scope of Health Education and Opportunities

for Health Education in Hospital and

Community 363

Nurse's Role in Health Education 366

Unit 15 Counseling..... 368–379

Introduction 368

Counseling Process: Steps/Phases 374

Qualities of a Good Counselor 376

Role of Nurse in Counseling 377

Unit 16 Methods and Mediums of Health Education 380–400

- Introduction 380
- Methods of Health Education 380
- Mediums of Teaching Health Education 381
- Selection, Preparation and Use of Audio-Visual Aids 382
- Health Education Plan for a Group of Postnatal Mothers 390

Section IV Nutrition**Unit 17 Introduction to Food and Nutrition..... 403–410**

- Introduction 404
- Meanings of Food, Nutrition and Nutrients 404
- Food Habits and Customs 406
- Factors Affecting Nutrition 407
- Changing Concept in Food and Nutrition 408
- Relation of Nutrition to Health 408

Unit 18 Classification of Food 411–434

- Introduction 411
- Classification of Food
 - Based on its Origin 412
 - Classification of Food by Chemical Composition and Sources 412
 - Classification of Food by Predominant Function 417
 - Classification by Nutritive Values 428

Unit 19 Normal Dietary Requirements..... 435–470

- Introduction 436
- Energy 436
- Body Mass Index 437
- Basal Metabolic Rate 437
- Balanced Diet 438
- Nutritive Value 439
- Normal Food Requirement 444
- Balanced Diet for Adults 445
- Combination of Food Affecting and Enhancing the Nutritive Value of the Diet 447
- Budgeting for Food 447
- Low-Cost Meals 448
- Diseases and Disorders Caused by the Imbalance of Nutrients 449
- Diseases and Disorders Due to Imbalance of Minerals 452
- Minerals and their Deficiencies 454
- Deficiency Diseases of Trace Elements or Micro Elements 456
- Diseases and Disorders Due to Imbalance of Vitamins 458
- Food Allergy 464

Unit 20 Food Preparation, Preservation and Storage 471–490

- Introduction 472
- Cooking 472
- Safe Food Handling and Health of Food Handlers 476
- Food Preservation 477
- Food Storage 480
- Methods of Food Storage 481
- Ill Effects of Poorly Stored Food 482
- Food Adulteration and Related Act 484
- Food Adulteration Standards 487

Unit 21 Therapeutic Diet..... 491–525

- Introduction 492
- Diet Modification 492
- Therapeutic Diet Planning 497
- Bland Diet 513
- High-Protein Diet 513
- Low-Protein Diet 514
- Low-Calorie Diet 514
- Geriatric Diet 514

Iron-Rich Diet 516
 Liquid Diet 516
 Semisolid Diet 517
 Soft Diet 517
 High Fiber Diet 518

Factors Affecting Diet Acceptance 518
 Nurse's Responsibility in Food Serving 519
 Health Education on Nutritional Needs and
 Methods in Diet Modification 521
 Nutrition Counseling 522

Unit 22 Community Nutrition 526–539

Introduction 526
 Common Nutritional Problems in India 527
 Nutrition Programs in India 527

Community Food Supply 530
 National and International Food Agencies 532

Unit 23 Preparation of Diet/Practical 540–553

Introduction 540
 Preparation of Hot Beverages 541
 Preparation of Cold Beverages 542
 Preparation of Soups 543
 Preparation of Eggs 545
 Light Diet 547

Kanji 548
 Boiled Vegetables 549
 Salads 549
 Custards 550
 Low Cost High Nutrition Diet: Chikki,
 Multigrain Roti 551

Index555
