Anatomy for Diagnostic Imaging

Author : Ryan S.
 ISBN : 9788131271926
 Year : 2025
 Binding : Paperback 4/e
 Pages : 345
 Price : Rs. 4995.00

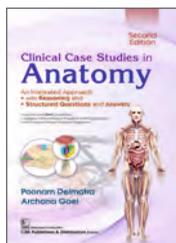

Product Description

Anatomy for Diagnostic Imaging, Fourth Edition covers everything trainee radiologists need to know about anatomy shown in the full range of medical imaging, including CT, MR and ultrasound. It provides an initial traditional anatomical description of each organ or system, followed by the radiological anatomy of that part of the body with labelled imaging examples in all modalities. A series of 'radiology pearls' emphasises clinically and radiologically important points. Written by radiologists with immense clinical and teaching experience, with seven new contributors, the fourth edition has been fully updated reflecting advances in imaging and evolving clinical practice. It will be indispensable for radiology registrars and residents, especially candidates for postgraduate radiology exams. A manageable size, it will also be of great use to radiographers, medical students, physicians, surgeons and others whose work requires an understanding of radiological anatomy. It is also an extremely useful reporting station reference book.

Clinical Case Studies in Anatomy

Author : Poonam Delmotra
 ISBN : 9788199145634
 Year : 2026
 Binding : Paperback 2/e
 Pages : 146
 Price : Rs. 250.00

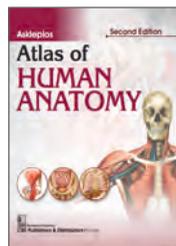

Product Description

Salient features

- Written in a simple and easy to understand language to help students understand the clinical problems related with human anatomy.
- Presentation of clinical problems set in the form of questions and explanations for better understanding and remembering the topic by the students.
- Frequently asked questions (FAQs) are helpful in covering the topic completely.

Atlas of Human Anatomy

Author : Asklepion
 ISBN : 9789389019339
 Year : 2026
 Binding : Paperback 2/e
 Pages : 748
 Price : Rs. 1795.00

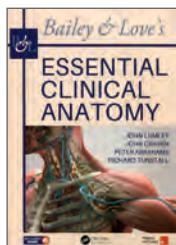

Product Description

All the illustrations in this Atlas have been prepared using modern criteria and the most advanced technologies. The presentation of each organ, or any of its parts, has been done such that could not be done better another way, contributing fully to a better comprehension of the reader. The sketches, the diagrams and some brief explanations have been given keeping this interest in the forefront. The Atlas uses international anatomical terminology and offers to the reader a useful, modern and functional work that is eminently didactic. The aim of this Atlas of Human Anatomy is to offer to the readers a complete compendium of anatomy of the human body.

Bailey & Love's Essential Clinical Anatomy

Author : Lumley
 ISBN : 9781138295186
 Year : 2019
 Binding : Paperback
 Pages : 470
 Price : £ 16.95

Product Description

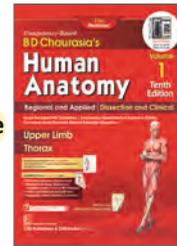

This essential companion to Bailey & Love's Short Practice of Surgery covers the clinical conditions most commonly encountered by medical students, junior clinicians, and surgeons in training.

This is clinical anatomy at its best !

Structured by body region, each chapter includes plentiful clinical photographs and images supplementing the high-quality anatomical diagrams, using the best modality to demonstrate anatomical relevance. Highlighted descriptions of clinical relevance emphasise the integrated approach so central to current teaching practice, and facilitated by the wealth of both clinical and anatomical experience of the distinguished author team.

BD Chaurasia's Human Anatomy Vol. 1 Regional and Applied Dissection and Clinical Upper Limb Thorax With Free Workbook and Ebooks

Author : Chaurasia B. D.
 ISBN : 9789354669798
 Year : 2025
 Binding : Paperback 10/e
 Pages : 428
 Price : Rs. 995.00

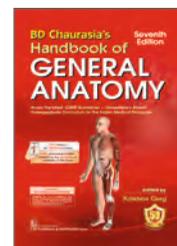

Product Description

The tenth edition is revised as per the latest NMC guidelines for the CBME curriculum. The salient features of the book are aimed at to solve the common problems of the students and to make it more useful academically and clinically:

- Simple, concise text for easy understanding.
- 3D colour illustrated plates to make students understand the anatomical structures clearly.
- Simple line diagrams to make them suitable to redraw in the examinations.
- Flowcharts help with rapid revision and memorizing the facts.
- Tables summarize essential facts for clear understanding and retention.
- Boxes on ossification, dissection, and facts to remember.
- QR codes for eSmartQuiz-lead the reader to the online MCQ test of each chapter for self-assessment.

BD Chaurasia's Handbook of General Anatomy

Author : Chaurasia B. D.
 ISBN : 9789354665691
 Year : 2024
 Binding : Paperback 7/e
 Pages : 464
 Price : Rs. 450.00

Product Description

The highlighting feature of this edition is the addition of seven new chapters: Respiratory System, Digestive System, Sensory Organs, Endocrine System, Urinary System, Reproductive System and Cadaver as Our First Teacher. These chapters give a brief and comprehensive view of an important component of human anatomy. This edition has also been designed as per the latest CBME Guidelines, featuring text and headings as outlined in Competency Based Undergraduate Curriculum for the Indian Medical Graduate prescribed by the National Medical Commission. All the chapters have been extensively illustrated by simple colour diagrams. Each chapter begins with a quotation giving a subtle meaning to the topic. Points to Remember given at the end of each chapter will help the student in quick revision of the topics. Multiple choice questions introduced at the end of each chapter will help the student in self-evaluation of the learnt topics.

BD Chaurasia's Human Anatomy Vol. 3 and 4 Regional and Applied Dissection and Clinical Head and Neck Brain Neuroanatomy Set of 2 Vols

Author : **Chaurasia B. D**
ISBN : **9789354669439**
Year : **2025**
Binding : **Paperback**
Pages : **670**
Price : **Rs. 1195.00**

Product Description

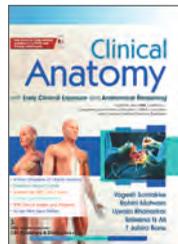

The tenth edition is revised as per the latest NMC guidelines for the CBME curriculum. The salient features of the book are aimed at to solve the common problems of the students and to make it more useful academically and clinically:

- Simple, concise text for easy understanding.
- 3D colour illustrated plates to make students understand the anatomical structures clearly.
- Simple line diagrams to make them suitable to redraw in the examinations.
- Flowcharts help with rapid revision and memorizing the facts.
- Tables summarize essential facts for clear understanding and retention.
- Boxes on ossification, dissection, and facts to remember.
- QR codes for eSmartQuiz-lead the reader to the online MCQ test of each chapter for self-assessment.

Clinical Anatomy

With Early Clinical Exposure and Anatomical Reasoning

Author : **Yogesh Sontakke**
ISBN : **9788199172753**
Year : **2026**
Binding : **Paperback**
Pages : **656**
Price : **Rs. 1195.00**

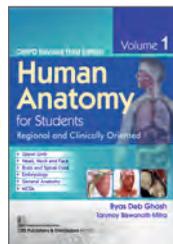

Product Description

Highlights of the book

- Question–Answer format
- To encourage active learning
- To emphasize anatomical reasoning rather than rote recall
- To make learner to think anatomically while approaching a clinical problem
- To simulate the way knowledge is applied during case discussions, viva voce examinations, and clinical decision-making.
- For preparation of various upcoming academic, qualifying or entrance examinations. Concise text for quick recapitulation during examination.
- Simple line diagrams are easy to draw figures for theory examination.
- Clinical case scenarios provide early clinical exposure and an orientation towards the pathogenesis of the disease (vertical integration).

Human Anatomy for Students (Vol.1) Regional and Clinically Oriented

Author : **Byas Deb Ghosh**
ISBN : **9789354668302**
Year : **2024**
Binding : **Paperback**
Pages : **432**
Price : **Rs. 995.00**

Product Description

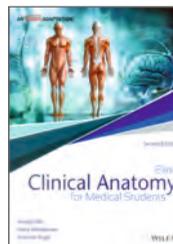

Salient features

- Text is arranged according to the graded headings and subheading
- Simple line diagrams with dissection illustrations have been included for easy comprehension.
- Very easy language and many simple charts have been used for clear perception and understanding.
- Multiple choice questions (MCQs) and their answers have been added.
- Clinical anatomy has been explained with anatomical, embryological and genetic basis, which will help undergraduate and postgraduate students, and practitioners during their study of clinical subjects and practice.

Ellis' Clinical Anatomy

for Medical Students, An Indian Adaptation

Author : **Ellis H**
ISBN : **9789354248412**
Year : **2024**
Binding : **Paperback**
Pages : **276**
Price : **Rs. 1195.00**

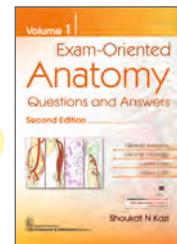

Product Description

Anatomists of international repute, Professor Harold Ellis and Professor Vi shy Mahadevan provide an accessible, comprehensive, and detailed exploration of anatomy, specifically designed for students and trainees at all levels over several years. This is one of the most interesting and readable resources in anatomy with frequent common clinical applications, enabling students to remember various important details. The text is well complemented by clear illustrations and imaging. This revision has been a valuable contribution of Professor Vishram Singh, a renowned and highly reputed anatomist of the Indian subcontinent.

Exam-Oriented Anatomy Questions and Answers Vol 1

Author : **Kazi S.N.**
ISBN : **9789390046140**
Year : **2023**
Binding : **Paperback**
Pages : **408**
Price : **Rs. 525.00**

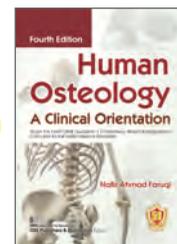

Product Description

Medical Council of India has reduced the duration of First Year MBBS by 6 months and introduced new pattern of questions which include long answer questions, short notes, short answer questions, clinical problems and multiple choice questions. Students are expected to know all the topics as well as specific information and minute, relevant details having clinical importance. There is no source for the definition and the extent of contents of the various terms used in the theory questions. The author has extensively discussed these terms with eminent anatomists in India and attempted to define these terms. He is aware of the limitations and has high regard about others' views. This four-volume book attempts to provide unique solutions to these problems for the benefit of the readers studying human anatomy and preparing for their examinations. Salient features of the four volumes The book is written using short and simple sentences. Four types of questions are discussed: LAQs (Long Answer Questions), SN (Short Notes), SAQs (Short Answer Questions), and OLA (One Line Answers). The information given in italics is the information required to answer the MCQs.

Human Osteology

A Clinical Orientation

Author : **Faruqi N.A**
ISBN : **9789354665714**
Year : **2025**
Binding : **Paperback**
Pages : **384**
Price : **Rs. 595.00**

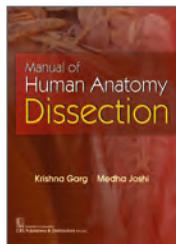

Product Description

Human Osteology A Clinical Orientation is now poised to serve as a unique textbook after the inclusion of competencies in human osteology. The book has been thoroughly revised as per the latest CBME Guidelines | Competency Based Undergraduate Curriculum for the Indian Medical Graduate. Addition of chapter entitled 'Bony Landmarks in Human Body' makes this book further useful. Competency based literature has been captioned properly for an in-depth perusal by the students.

Manual of Human Anatomy Dissection

Author : Garg K.
ISBN : 9789389688009
Year : 2024
Binding : Paperback
Pages : 488
Price : Rs. 1195.00

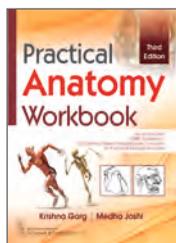

Product Description

Manual of Human Anatomy Dissection succinctly describes the steps of dissection and identification of the dissected structures in a single volume. The photographs and illustrations of the dissected parts are based on the real dissection as performed in the dissection hall of a medical college. Diagrams of actual dissection create a photographic memory in the minds of the students and would also guide the 'budding doctors' later during their long clinical years in medicine and surgery. Effort has been made to follow the latest Competency Based Undergraduate Curriculum for the Indian Medical Graduate to infuse all the practical skills in the students under the tenets of Competency Based Medical Education (CBME). The manual gives viva voce questions at the end of every chapter and spots at the end of every section. These would prove useful to the students during their practical examination. The movements of various joints with their involved muscles and nerves are given in a tabulated form for ready reference to the reader. This manual of dissection is complementary to BD Chaurasia's Human Anatomy 8/e (Vols 1-4) and other standard textbooks of anatomy, as together these will give a holistic idea of human anatomy to the medical students.

Practical Anatomy Workbook

Author : Garg K.
ISBN : 9789354660856
Year : 2025
Binding : Paperback
Pages : 300
Price : Rs. 650.00

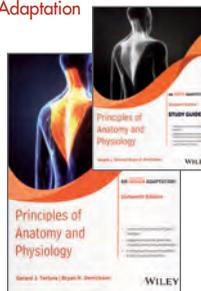

Product Description

Special Features The workbook provides practical work on general anatomy and all six sections of gross anatomy. All topics of various sections have been followed by clinical anatomy, an important aspect of anatomy not only for the examination but also for their future clinical training. More diagrams have to be drawn by the students in the present edition. This will hone their artistic skills. About twelve pages have been added to make the workbook more spacious. The workbook is ideally suited to serve the practical requirements of undergraduate students of medical, dental, and allied health sciences courses.

Principles of Anatomy and Physiology, With Study Guide An Indian Adaptation

Author : Tortora G.J
ISBN : 9789357461641
Year : 2024
Binding : Paperback
Pages : 1315
Price : Rs. 3795.00

16/e

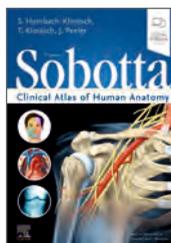

Product Description

Principles of Anatomy and Physiology has been recognized for its pioneering homeostatic approach to learning the structure and function of the human body. It raises the standard for excellence in the discipline with its enhanced illustration program, refined narrative, and dynamic resources. It has been designed to motivate and support learners at every level, from novice to expert, and equip them with the skills they need to succeed in this class and beyond. This Indian adaptation of the 16th edition has been packaged as a set of Textbook (in full color) and Study Guide (in single color). The Textbook retains the features of the original edition and replicates the complete learning experience. It contains a new pedagogy feature of Sport Spotlight at the end of most of the chapters. More than one-third of the end-of-chapter questions are new. The Study Guide is designed for the reinforcement of learning from the Textbook and building relevance to the concepts studied. It comprises Chapter Review, and features such as Clinical Connection, Disorders, and Medical Terminology

Sobotta

Clinical Atlas of Human Anatomy

Author : Hombach-Klonisch
ISBN : 9780702052736
Year : 2022
Binding : Paperback
Pages : 680
Price : Rs. 1895.00

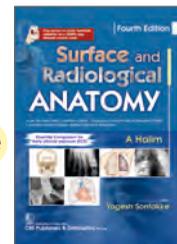

Product Description

The Sobotta Clinical Atlas of Human Anatomy is tailored specifically to the needs of medical and health professional students. It utilizes a regional approach for learning human anatomy that integrates core concepts of anatomical structure and function with modern methods of diagnostic imaging, cross-sectional anatomy, illustrations of real world functions, clinically relevant surface anatomy and key examples of how anatomical knowledge informs clinical practice. The 'Clinical Remarks' and 'Structure/Function' sections provide important and easily identifiable practical examples, which reinforce clinical application of anatomical knowledge. Moreover, all anatomical images are accompanied by descriptive text and summary tables which serve to highlight the key concepts associated with each specific image.

Surface & Radiological Anatomy

Author : Halim A.
ISBN : 9789349881761
Year : 2026
Binding : Paperback
Pages : 240
Price : Rs. 525.00

4/e

Product Description

This is the meticulously revised edition of the popular textbook, completely aligned with the latest Competency-Based Medical Education (CBME) curriculum guidelines, ensuring that the medical students develop a strong foundation in clinical examination, imaging interpretation and anatomical reasoning.

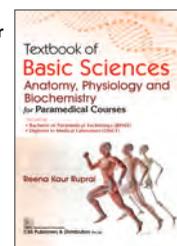

Key Features of Fourth Edition for an Engaging Learning Experience

- Simplified language, maximum clarity Content is crafted in easy-to-understand language, making revision quick and effective.
- Competency-Based Medical Education (CBME) Curriculum Includes all the latest competencies to make it the complete textbook suitable for learning and preparing for the examinations.
- Surface anatomy: Bridging theory with clinical practice This section highlights essential soft and bony landmarks crucial for clinical examination. relation to surface landmarks.

Textbook of Basic Sciences

Anatomy, Physiology and Biochemistry for Paramedical Courses

Author : Ruprai, Reena Kaur
ISBN : 9789347186349
Year : 2026
Binding : Paperback
Pages : 200
Price : Rs. 250.00

Product Description

Textbook of Basic Sciences Anatomy, Physiology and Biochemistry Anatomy, Physiology and Biochemistry is the first textbook, unique and innovative in its kind, wherein anatomy, physiology, biochemistry and certain essential miscellaneous topics as per university guidelines are provided in one publication. It is specifically designed for paramedical students, including bachelor of paramedical technology (BPMT), diploma in medical laboratory (DMLT) and diploma in nursing students. It covers all the basics comprehensively and is wellstructured, making it an ideal choice for the learners/students.

Biochemistry

Author : **Berg J.M.**
 ISBN : **9781319498504**
 Year : **2023**
 Binding : **Paperback**
 Pages : **1120**
 Price : **£ 78.99** **10/e**

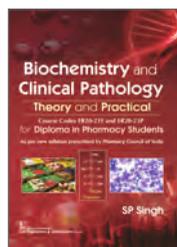

Product Description

Biochemistry 10e with Achieve builds on over four decades of exceptional writing, clear graphics, coverage of the latest research technique, and its signature emphasis on physiological and medical relevance with new emphasis on the importance of diversity and team work and a focus on problem-solving techniques and skills.

- Focus on visualization throughout the text and the accompanying resources. From the graphics and art work program to the media-rich resources, the product has been developed to support students' ability to visualize and understand individual and complex biochemistry concepts.
- 'Scientist Profiles' illustrate the wide range of backgrounds, training, and careers that lead to many important contributions in biochemistry so students can see themselves in the diversity of scientists.
- Problem-solving techniques and practice are placed throughout the text to support student engagement and effective learning. From self-check questions to worked examples, there are many opportunities to practice.

Biochemistry and Clinical Pathology Theory and Practical

Author : **Singh S P**
 ISBN : **9789354660481**
 Year : **2024**
 Binding : **Paperback**
 Pages : **272**
 Price : **Rs. 395.00**

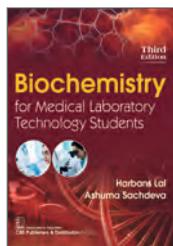

Product Description

Biochemistry and Clinical Pathology Theory and Practical for Diploma in Pharmacy Students is a concise textbook of biochemistry and clinical pathology with very reasonable emphasis on theoretical and practical courses. It will prove to be very useful not only for the students pursuing diploma in pharmacy but also for the students of other paramedical courses like Bachelor in Physiotherapy, Diploma in Optometry, etc. considering that biochemistry has become the core subject of all the courses in medical and allied health sciences. The text has been written in a lucid and easy to understand language keeping in view the intended readership.

Biochemistry

for Medical Laboratory Technology Students

Author : **Harbans Lal**
 ISBN : **9789354668999**
 Year : **2024**
 Binding : **Paperback**
 Pages : **372**
 Price : **Rs. 750.00** **3/e**

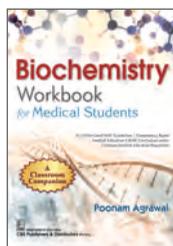

Product Description

Biochemistry for Medical Laboratory Technology Students is the thoroughly revised and updated edition of the book. It has been written in a very lucid and simple language to serve as a handy book for the students of medical laboratory technology, describing and illustrating clinical biochemistry which forms an important part of the subject. Most of the chapters have been revised and updated, keeping in view the recommended syllabus and the requirements of the students. Clinical relevance of the subject has also been provided at different places to help the readers correlate basics of the subject with the clinical point of view. The book will not only help the students to have a better knowledge of the subject but also lay a strong foundation for integration of biochemical processes in clinical subjects, thus helping them in their journey to become highly skilled medical laboratory technologists.

Biochemistry Workbook for Medical Students

Author : **Poonam Agrawal**
 ISBN : **9789354668241**
 Year : **2025**
 Binding : **Paperback**
 Pages : **180**
 Price : **Rs. 450.00**

Product Description

Salient features of the book

- Follows an exclusive and innovative approach to make learning of biochemistry an easier task
- Serves as a handy classroom companion with all the pathways and flowcharts organized in sequential order with key notes
- Gives explicit clinical correlation at appropriate places
- Helps in enhancing the attention span of the learner
- Modulates better retention and recall of the key issues of the subject
- Gears up the student for an easy and quick revision just before the examination

Biochemistry

free Mind Maps in Biochemistry with Clinical Correlation

Author : **Satyanarayana, U**
 ISBN : **9788198953803**
 Year : **2026**
 Binding : **Paperback** **7/e**
 Pages : **872**
 Price : **Rs. 1850.00**

Product Description

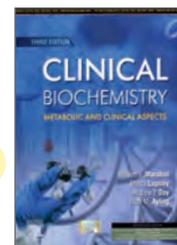

Highlights of the Book

- The text is an amalgamation of medical and basic sciences, comprehensively written to meet the curriculum requirements of all students (dental, pharmacy, veterinary, biotechnology, agriculture, life sciences, etc.), learning biochemistry. This is the only book by an Indian author with colour tracking of biochemical reactions.
- It is written in a lucid style with subject material presented as an engaging story, growing from elementary information to most recent advances. For a clear and better understanding of the topics, pictures | images, clinical applications, medical concepts, early clinical exposure, clinical case studies, curiosity corners, origins of words, common confusables, practical biochemistry, MCQs, viva voce questions, short notes, etc. have been added.
- It has abundant information for the reader to boldly and confidently face any kind of examinations, CBME competencies (with code numbers) in the text, tables, clinical cases with reasoning questions, structured long essays, short notes, clinical scenario-based MCQs.

Clinical Biochemistry

Metabolic and Clinical Aspects: With Expert Consult access

Author : **Marshall**
 ISBN : **9788131270776**
 Year : **2024**
 Binding : **Paperback**
 Pages : **996**
 Price : **Rs. 5995.00** **3/e**

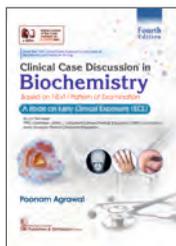

Product Description

Now fully revised and updated, Clinical Biochemistry, third edition is essential reading for specialty trainees, particularly those preparing for postgraduate examinations. It is also an invaluable current reference for all established practitioners, including both medical and scientist clinical biochemists. Building on the success of previous editions, this leading textbook primarily focuses on clinical aspects of the subject, giving detailed coverage of all conditions where clinical biochemistry is used in diagnosis and management – including nutritional disorders, diabetes, inherited metabolic disease, metabolic bone disease, renal calculi and dyslipidaemias.

Clinical Case Discussion in Biochemistry

Author : Poonam Agarwal
ISBN : 9789389019568
Year : 2026
Binding : Paperback
Pages : 296
Price : Rs. 495.00 **4/e**

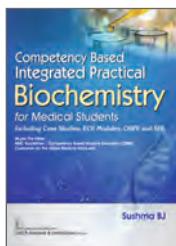

Product Description

Salient features of the book

- Bridges the gap between textbook theory and bedside application, making biochemistry clinically relevant
- Aligns with the latest CBME (Competency Based Medical Education) guidelines for integrated learning
- Encourages critical thinking and clinical reasoning through structured case-based discussions
- Serves as a valuable resource for classroom teaching, clinical postings, and self-directed study

Competency Based Integrated Practical Biochemistry for Medical Students

Author : Sushma BJ
ISBN : 9789389019698
Year : 2026
Binding : Paperback
Pages : 316
Price : Rs. 695.00

Product Description

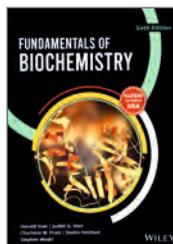

Competency Based Integrated Practical Biochemistry for Medical Students Including Case Studies, ECE Modules, OSPE and SDL As per the latest NMC Guidelines | Competency Based Medical Education (CBME) Curriculum for the Indian Medical Graduate is a comprehensive and competency-oriented textbook meticulously designed as per the latest CBME Curriculum (2024) announced by National Medical Commission. It bridges core biochemical principles with clinical applications, guiding students from theory to analytical interpretation in the real-world scenario.

Salient Features

- Integrated Clinical Approach: Includes case studies.
- Comprehensive Coverage: Ranges from basic laboratory safety and pH measurement to advanced techniques like ELISA, ABG, ISE, and molecular diagnostics.
- Skill-Based Learning: Incorporates OSPE and ECE modules.
- Quality-Focused: Dedicated section on laboratory errors, quality control, and interpretation using LJ charts.

Fundamentals of Biochemistry

Author : Voet D.
ISBN : 9789370609983
Year : 2026
Binding : Hardcover
Pages : 1080
Price : Rs. 5995.00 **6/e**

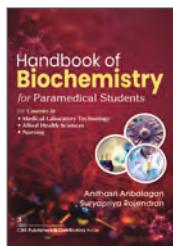

Product Description

Fundamentals of Biochemistry, 6th edition, with new authors Destin Heilman and Stephen Voski, provides a solid biochemical foundation that is rooted in chemistry while presenting complete and balanced coverage that is clearly written and relevant to human health and disease. This edition includes new pedagogy and enhanced visuals that better adapt the text for the modern student, including a focus on enhanced self-assessment tools and scaffolding of learning outcomes throughout the text. The new authors continue the trusted pedagogy of the previous five editions and present approachable, balanced coverage to provide students with a solid biochemical foundation to prepare them for future scientific challenges. The pedagogy remains focused on biochemistry's key theme: the relationship between structure and function, while streamlining the student experience to better focus attention on the critical subject matter. Fundamentals of Biochemistry 6e includes a significant update to the art program with modernized, more effective renderings that better enable understanding of the subject matter. New scaffolded learning outcomes in each section, and a focus on self-assessment tools, both streamline and elevate the effectiveness of the new edition as a critical learning resource for biochemistry students.

Handbook of Biochemistry for Paramedical Students

Author : Anithasri A.
ISBN : 9789354668197
Year : 2025
Binding : Paperback
Pages : 232
Price : Rs. 295.00

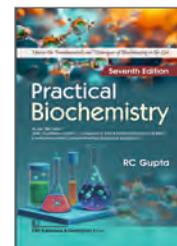

Product Description

Handbook of Biochemistry for Paramedical Students is intended with the primary aim of making biochemistry easy to assimilate by the students of all disciplines. Presentation of the essentials in concise and clear form in this book delights the students in reading the subject. As biochemistry is a vast and intricate subject with emerging new concepts and ever-growing knowledge, every effort has been exerted to make the text lucid and easy to read and understand. Presentation of biochemical terminologies as simple scientific words makes it comprehensible for all students.

Practical Biochemistry

Author : RC Gupta
ISBN : 9788199075276
Year : 2026
Binding : Paperback
Pages : 304
Price : Rs. 325.00 **7/e**

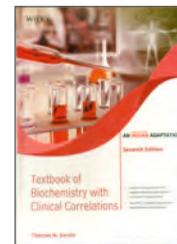

Product Description

Highlights of this Edition

- Coverage of all the competencies updated recently by NMC
 - Step-by-step protocols for essential biochemical experiments
 - More than 30 new illustrations and diagrams to aid understanding
 - Thoroughly revised sections on labware, biomedical waste disposal, calculation of energy content and glycaemic index of food items, HbA assay, enzymatic measurement of urea, cholesterol and 1C triglycerides, kinetic measurement of creatinine, DNA isolation techniques, etc.
 - ISE and blood gas analysers
 - Quality control in biochemistry laboratory
- Whether you are a student preparing for your examinations or a teacher looking for a reliable teaching resource, this book is designed to bridge the gap between theory and practice.

Textbook of Biochemistry with Clinical Correlations An Indian Adaptation

Author : Devlin T.M
ISBN : 9789354641558
Year : 2022
Binding : Hardcover
Pages : 840
Price : Rs. 9995.00 **7/e**

Product Description

- Revised Chapter 12, Biological Membranes: Structure, Receptors, and Solute Transport present solute transport in accordance with the current understanding, classification, and nomenclature of the field. Examples of mechanisms are presented under the individual classifications of transport mechanism. A new section presenting the general information about receptors was added.
- Heme coverage is now presented along with the discussion of amino acid metabolism in Chapter 19, Amino Acid and Heme Metabolism, This new placement of the material in a chapter with an emphasis on nitrogen metabolism is common in most biochemical textbooks.

C C Chatterjee's Human Physiology Vol. 1

Author : Chatterjee C C
ISBN : 9789354669934
Year : 2025
Binding : Paperback
Pages : 564
Price : Rs. 1095.00

15/e

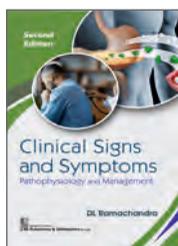

Product Description

CC Chatterjee's Human Physiology is the updated and thoroughly revised edition of the popular textbook, fondly dedicated to the memory of Dr CC Chatterjee who had written the book in the Independence era of country in 1948. Dr Chatterjee was the faculty at Calcutta Medical College. This book was widely read throughout the country and South East Asia for over four decades and helped medical and paramedical students to have firm understanding of the functional aspects of human body. Dr Chatterjee passed away in 1984 but his book still remains in the minds of millions of readers who read it with passion. He wrote a complete integrated physiology textbook with anatomy and biochemistry encompassed altogether in the era when there were no computers or any advance technology for printing. The integrated approach of incorporating anatomy, physiology and biochemistry in this single textbook was marveled by all academicians and was one of the salient features of the book of all the eleven editions up to 1984.

Clinical Signs and Symptoms Pathophysiology and Management

Author : DL Ramachandra
ISBN : 9789354669422
Year : 2026
Binding : Paperback
Pages : 596
Price : Rs. 595.00

2/e

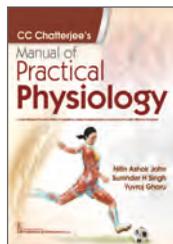

Product Description

It is important to understand clinical signs and symptoms to diagnose a disease and there should be a thorough knowledge of pathophysiology of the concerned disease. This book does not deal with the details of signs or symptoms, but it becomes essential in the diagnosis of any diseases. Once you understand the proper signs and symptoms, a disease can be diagnosed easily. Understanding pathophysiology of a disease forms a basis for managing the disease. This book is mainly intended for medical students, interns, postgraduate students of medicine, medical officers of primary health centers and busy practitioners. This edition of the book features some topics which have been fully or partially revised incorporating the current information so that the readers will appreciate and gain more recent knowledge.

CC Chatterjee's Manual of Practical Physiology

Author : John
ISBN : 9789389017649
Year : 2021
Binding : Paperback
Pages : 374
Price : Rs. 575.00

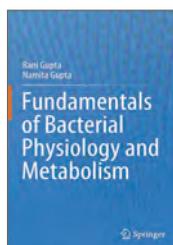

Product Description

Contains all physiology practicals haematology, amphibian and clinical. In addition, all new recommended practicals have also been included, duly supplemented by viva-voce question and answers and OSPE/OSCE question and answers. Chapters are followed by spotters which are important from the examination angle. It will serve the requirements of the undergraduate courses in medicine, AYUSH, pharmacy, nursing, paramedical and allied health sciences.

Fundamentals of Bacterial Physiology & Metabolism (SAE)

Author : Gupta R
ISBN : 9789811696190
Year : 2022
Binding : Paperback
Pages : 670
Price : ₹ 26.95

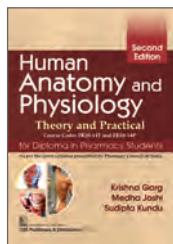

Product Description

This book provides useful information on microbial physiology and metabolism. The key aspects covered are prokaryotic diversity, growth physiology, basic metabolic pathways and their regulation, metabolic diversity with details of various unique pathways. Another focus area is stress physiology with details on varying environmental stresses, signal transduction, adaptation and survival. For instructional purposes, the book provides case studies, interesting facts, techniques etc.

Human Anatomy and Physiology Theory and Practical

Author : Garg K
ISBN : 9789354662171
Year : 2025
Binding : Paperback
Pages : 000
Price : Rs. 425.00

2/e

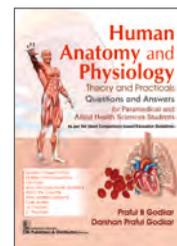

Product Description

Human Anatomy and Physiology Theory and Practical for Diploma in Pharmacy Students, has been written in a simple and concise language, specifically aiming the text at the students of diploma in pharmacy.

Human Anatomy and Physiology Theory and Practicals Questions and Answers

Author : Praful B Godkar
ISBN : 9789349057975
Year : 2025
Binding : Paperback
Pages : 392
Price : Rs. 650.00

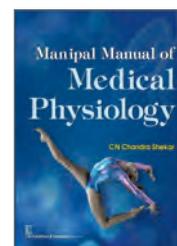

Product Description

Salient Features

- The book is compiled and presented according to the latest syllabi prescribed by respective boards for courses in paramedical and allied health sciences such as medical laboratory technology (MLT), clinical laboratory science (CLS), physiotherapy, optometry, biomedical sciences, biotechnology, graduate and postgraduate students of life sciences, biochemistry, microbiology, zoology, botany, operation theatre technology and radiology techniques.
- Excellent guide for self-study of anatomy and physiology.
- Good guide for online MCQ examination practice.
- Extremely useful book for the preparation of qualifying examinations such as MCAT, DAT, EXIT, USMLE, DHA, MOH, HAAD, ASCP, SLE, QCHP, etc.
- Contains 16 chapters, 21 practicals, 608 figures and numerous important tables.
- Excellent last-minute examination guide for medical (MBBS, Ayurveda and Unani) and dentistry students.
- This book is presented on line with Competency-Based Medical Education (CBME) concept suggested by the National Medical Commission (NMC 2024).
- Introduction of 'Early clinical exposure' concept.

Manipal Manual of Medical Physiology

Author : Shekar Chandra
ISBN : 9788123928906
Year : 2024
Binding : Paperback
Pages : 344
Price : Rs. 625.00

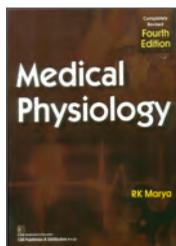

Product Description

The material given in voluminous textbooks is difficult to comprehend and digest in a shorter time span, especially when the primary aim of most of the students is to prepare for the professional examination. This manual is written on the premise that the metamorphosis of the students needs to be guided slowly and steadily so that their process of learning is less stressful, more pleasant and fully productive.

Medical Physiology

Author : **Marya R.K.**
 ISBN : **9788123928579**
 Year : **2016**
 Binding : **Paperback**
 Pages : **672**
 Price : **Rs. 1050.00**

4/e

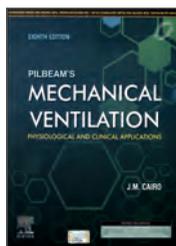

Product Description

Medical physiology 4ed, this book is very useful to get a thorough knowledge of medicine, human health, human anatomy and physiology. It is one of the best book for students in medical field.

Pilbeam's Mechanical Ventilation Physiological and Clinical Applications

Author : **Cairo, James M.**
 ISBN : **9788131270837**
 Year : **2024**
 Binding : **Paperback**
 Pages : **574**
 Price : **Rs. 2995.00**

8/e

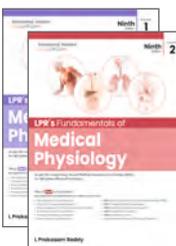

Product Description

Learn how to safely and compassionately care for patients needing ventilator support. Known for its simple explanations and in-depth coverage of patient-ventilator management, this evidence-based text walks you through the most fundamental and advanced concepts surrounding mechanical ventilation and guides you in properly applying these principles to patient care.

LPR's Fundamentals of Medical Physiology, 2 Vol. Set

Author : **L Prakasam Reddy**
 ISBN : **9789394525344**
 Year : **2025**
 Binding : **Paperback**
 Pages : **1404**
 Price : **Rs. 1995.00**

9/e

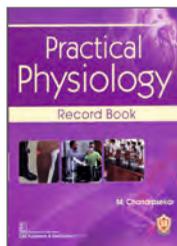

Product Description

This 9th edition of LPR's Fundamentals of Medical Physiology is duly updated with all the latest concepts of physiology. • It is based on the requirements of Competency-Based Medical Education (CBME) curriculum which are mentioned and marked along with the topics. • Each and every chapter has been designed in a manner to facilitate better learning and easy retention of the concepts. • Each chapter starts with competency numbers which are categorized as must know topics for the students. • Clinical correlation of a topic connects to clinical situation, and its physiological bases are added. • Recent concepts are simplified.

Practical Physiology Record Book

Author : **Chandrasekar**
 ISBN : **9788123919508**
 Year : **2025**
 Binding : **Paperback**
 Pages : **212**
 Price : **Rs. 450.00**

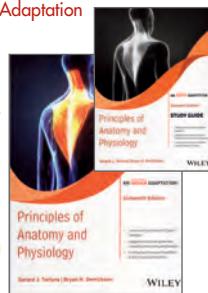

Product Description

Understanding human physiology is a must to learn clinical medicine and its applications. As the medical education is shifting from discipline-based learning to problem-based learning simultaneous learning and training on various systems and diseases of the body become mandatory. The extent and magnitude of developments in physiology and medicine necessitate the simultaneous revision or up gradation of any scientific knowledge. This is the fully revised edition of the practical physiology record book which has been extensively used at the several medical colleges. The revision based on the meaningful suggestions made by the teachers and students alike has enhanced many-fold the practical value of the record book. This edition is aimed to meet the expectations of the physiology faculty and students in all the medical colleges in India and South-East Asia.

Principles of Anatomy and Physiology, With Study Guide An Indian Adaptation

Author : **Tortora G.J**
 ISBN : **9789357461641**
 Year : **2024**
 Binding : **Paperback**
 Pages : **1315**
 Price : **Rs. 3795.00**

16/e

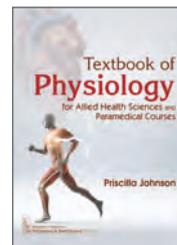

Product Description

Principles of Anatomy and Physiology has been recognized for its pioneering homeostatic approach to learning the structure and function of the human body. It raises the standard for excellence in the discipline with its enhanced illustration program, refined narrative, and dynamic resources. It has been designed to motivate and support learners at every level, from novice to expert, and equip them with the skills they need to succeed in this class and beyond. This Indian adaptation of the 16th edition has been packaged as a set of Textbook (in full color) and Study Guide (in single color). The Textbook retains the features of the original edition and replicates the complete learning experience. It contains a new pedagogy feature of Sport Spotlight at the end of most of the chapters. More than one-third of the end-of-chapter questions are new. The Study Guide is designed for the reinforcement of learning from the Textbook and building relevance to the concepts studied. It comprises Chapter Review, and features such as Clinical Connection, Disorders, and Medical Terminology

Textbook of Physiology

for Allied Health Sciences and Paramedical Courses

Author : **Johnson**
 ISBN : **9788197982248**
 Year : **2025**
 Binding : **Paperback**
 Pages : **258**
 Price : **Rs. 650.00**

Product Description

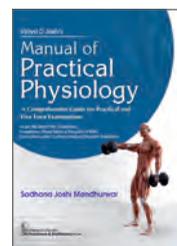

Textbook of Physiology for Allied Health Sciences and Paramedical Courses is designed to serve as a foundational resource for students of both allied health sciences and paramedical courses. The textbook provides a thorough understanding of the intricate mechanisms that govern the human body, making it an essential tool for anyone pursuing a career in healthcare. It provides a clear and concise presentation of physiological principles, from the molecular and cellular level to the systems and the whole-body level. It is designed to be a valuable learning aid for students, as well as a quick reference guide for practitioners seeking to refresh their knowledge.

Salient Features:

- Concise and clear explanations of complex physiological processes
- Engaging illustrations and diagrams to facilitate understanding
- Applied aspects with clinical relevance
- An ideal text-resource for all those starting their journeys in healthcare, which will also remain a trusted companion throughout the course studies and beyond.

Vijaya D Joshi's Manual of Practical Physiology

Author : **Sadhana J M**
 ISBN : **9788197989049**
 Year : **2025**
 Binding : **Paperback**
 Pages : **364**
 Price : **Rs. 595.00**

Product Description

Salient features of the book

- This book has been written and designed as per the latest NMC Guidelines | Competency Based Medical Education (CBME) Curriculum under Medical Education Regulation.
- For ease of comprehension, the book is systematically organized in seven major sections and subsections: |Haematology, |Clinical Physiology, |Human Experimental Physiology, |Charts, |Calculations, |Endocrine Disorders and Experimental Physiology.
- Each chapter comprehensively covers in easily reproducible language all practical details aligned with relevant competency and learning objectives, as well as typically expected questions and answers (Q&A) pertaining to the practical.

BD Chaurasia's Dream Human Embryology

Author : **Khurana Arushi**
ISBN : **9788123920467**
Year : **2017**
Binding : **Paperback**
Pages : **312**
Price : **Rs. 895.00**

2/e

Product Description

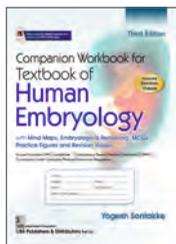

The book presents a broad coverage of the prenatal development of human body. The text is organized into three sections covering general embryology, systemic embryology and applied embryology. Key features Offers an exhaustive and thorough explanation of human embryology Mind map of the Chapter- Provides quick overview of the chapter contents and organizational logic Text content is complete and up to date with recent advances, including molecular aspects Attractive color format enhances the lucidity Includes more than 600 diagrams to provide an in-depth understanding of the subject Tables and flowcharts have been included to highlight important information Chapter organization style makes it possible to conceptualize and reproduce the complex matter in a simple and easy way Occurrence of congenital anomalies correlated with the normal developmental steps wherever necessary MCQs pertaining to each chapter added at the end of the book The book is: Most important book for 1st year MBBS students Equally important to 1st year Dental Students

Companion Workbook for Textbook of Human Embryology

Includes Revision Videos

Author : **Yogesh Sontakke**
ISBN : **9789349881020**
Year : **2026**
Binding : **Paperback**
Pages : **60**
Price : **Rs. 200.00**

3/e

Product Description

Features of Companion Workbook

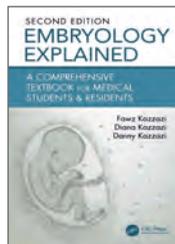

- 22 Mind Maps for summarizing major topics
Mind Maps are provided to summarize intricate topics for rapid revision.
- Clinical-based embryology reasoning questions
This section includes reasoning-based questions that encourage the students to think critically about developmental abnormalities, teratogens, genetic influences, and their impact on human health.
- Clinical Case Scenario-based MCQs
MCQs are a fundamental part of medical assessments. This section provides clinically oriented MCQs that challenge the students to apply their embryological knowledge to clinical case scenarios.

Embryology Explained

A Comprehensive Textbook for Medical Students & Residents

Author : **Kazzazi F.**
ISBN : **9781032766669**
Year : **2025**
Binding : **Paperback**
Pages : **182**
Price : **£ 34.99**

2/e

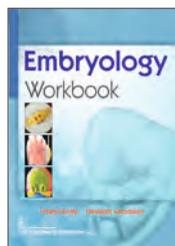

Product Description

Embryology Explained is an essential guide for medical students and residents, enriched with original illustrations by Dr Thomas Newman that navigate the complexities of embryonic development. Structured methodically, the textbook breaks down embryogenesis with clarity and precision. Each chapter is organised into four main sections – embryology, clinical relevance, molecular details, and key points – allowing learners to efficiently review and connect the material with their specific academic and exam requirements. Tailored specifically to address the components of embryology emphasised in both undergraduate and postgraduate medical examinations, this book serves as an invaluable tool for exam preparation. It distinguishes itself from existing texts by shedding the common overly detailed approach and instead highlights the practical clinical applications of embryology, making it more pertinent and accessible for medical students and residents. It is an easy-to-read and comprehensive textbook that will explain embryology for you!

Embryology Workbook

Author : **Sonje P.**
ISBN : **9789390046003**
Year : **2023**
Binding : **Paperback**
Pages : **116**
Price : **Rs. 395.00**

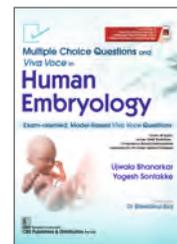

Product Description

Embryology practical or small group teaching is of utmost importance in embryology sessions. While the teachers discuss embryology models in practical class, it becomes easy for the students to understand the complicated developmental processes of different systems. As the students find it difficult to draw the diagrams of three-dimensional models, this Workbook provides real photographs of all the important models. Students are expected to label the models and write the answers to the given questions. In addition, it will serve as a handy book for the students to learn, remember and revise the subject in a quick manner prior to the examinations.

Multiple Choice Questions and Viva Voce in Human Embryology

Author : **Bhanarkar U**
ISBN : **9789354664434**
Year : **2023**
Binding : **Paperback**
Pages : **404**
Price : **Rs. 395.00**

Product Description

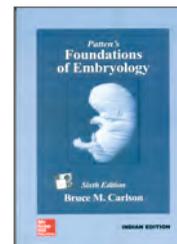

Salient Features

1. Viva Voce Section
2. MCQs Sections
3. Free online access at CBSiCentral app (through scratch code) to •drawing videos of embryology, •interactive MCQ tests, and •exclusive high value study material offers great flexibility.

Patten's Foundations of Embryology

Author : **Carlson**
ISBN : **9789339205348**
Year : **2017**
Binding : **Paperback**
Price : **Rs. 1195.00**

6/e

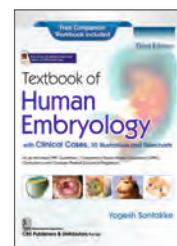

Product Description

Explore the fascinating world of developmental biology with *Patten's Foundation of Embryology 6E*, authored by Carlson and available at The Bookish Owl. This comprehensive sixth edition, provides a clear and accessible understanding of embryological principles. Delve into the intricate processes of life's beginnings, from fertilization to organogenesis. A must-have resource for students and researchers alike, this book offers detailed illustrations and up-to-date research.

Textbook of Human Embryology With Clinical Cases 3D Illustrations and Flowcharts, 3e (PB)

Free Companion Workbook Included

Author : **Yogesh Sontakke**
ISBN : **9789349881709**
Year : **2026**
Binding : **Paperback**
Pages : **384**
Price : **Rs. 995.00**

Product Description

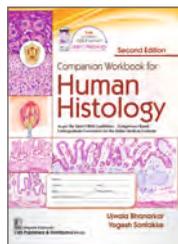

Textbook of Human Embryology with Clinical Cases, 3D Illustrations and Flowcharts is the completely rewritten, revised and updated edition of the popular textbook designed to meet the requirements of students and teachers as per the latest NMC Guidelines | CBME Curriculum. It aims to serve as a comprehensive textbook on human embryology for undergraduate medical, dental, AYUSH, paramedical and nursing students.

Companion Workbook for Human Histology

Author : **Bhanarkar U**
 ISBN : **9789354666346**
 Year : **2025**
 Binding : **Paperback**
 Pages : **48**
 Price : **Rs. 175.00** **2/e**

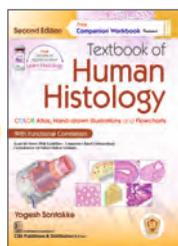

Product Description

Highlights of the workbook

- Covers all topics as per the latest CBME curriculum.
- Useful in practical histology laboratory
- 93 hand-drawn easy to draw figures (H&E pencil drawings) for written assessments.
- Salient features of each structure in 3 to 4 line

Textbook of
Human Histology
 with Free Companion Workbook included

Author : **Yogesh Sontakke**
 ISBN : **9789354666889**
 Year : **2023**
 Binding : **Paperback**
 Pages : **388**
 Price : **Rs. 995.00** **2/e**

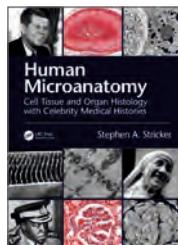

Product Description

- A complete textbook on the subject for undergraduate students
- Rewritten to fulfil requirements of the Competency Based Undergraduate Curriculum for the Indian Medical Graduate.
- Functional Histology concept to form foundation for understanding the concepts of histopathology.
- Concise text for quick recapitulation during examination.

Human Microanatomy
 Cell Tissue and Organ Histology with
 Celebrity Medical Histories

Author : **Stephen A. Stricker**
 ISBN : **9780367364571**
 Year : **2022**
 Binding : **Paperback**
 Pages : **538**
 Price : **£ 89.99**

Product Description

Human Microanatomy is a comprehensive histology text that analyzes human structure and function from the subcellular to organ level of organization. In addition to emphasizing medically relevant information, each chapter considers developmental and evolutionary aspects of microanatomy while also using celebrity medical histories to help provide real-world context for accompanying descriptions of normal histology.

Manual of Immunohistotechnology Histotechnology and Cytotechnology

Author : **Sood R.**
 ISBN : **9789354661549**
 Year : **2023**
 Binding : **Paperback**
 Pages : **208**
 Price : **Rs. 1195.00**

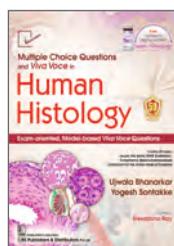

Product Description

Manual of Immunohistotechnology, Histotechnology and Cytotechnology is a complete, though short, textbook on these specialized subjects. Immunohistochemistry is presented as a single compact chapter. Histopathology chapter starts with the receiving of a specimen, grossing, processing and eventual microtomy and applying routine and special stains. Decalcification, often needed for hardbony specimens, has not been overlooked.

Multiple Choice Questions and Viva Voce In
Human Histology

Author : **Bhanarkar U**
 ISBN : **9789354666056**
 Year : **2024**
 Binding : **Paperback**
 Pages : **188**
 Price : **Rs. 395.00**

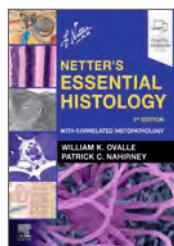

Product Description

Multiple Choice Questions and Viva Voce in Human Histology Exam-oriented, Model-based Viva Voce Questions is written in a simple language to fulfil the requirements of undergraduate and postgraduate students for preparation of notified tests, formative assessments, internal and university examinations, NEET/NExT, NBE,DM/MCh entrance examinations, USMLE, GRE and other similar entrance examinations.

Netter's Essential Histology
 with Correlated Histopathology

Author : **Ovalle W.K.**
 ISBN : **9780323694643**
 Year : **2021**
 Binding : **Paperback** **3/e**
 Pages : **568**
 Price : **Rs. 5250.00**

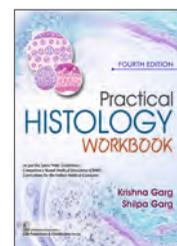

Product Description

With strong correlations between gross anatomy and the microanatomy of structures, Netter's Essential Histology, 3rd Edition, is the perfect text for today's evolving medical education. Concise and easy to use, it integrates gross anatomy and embryology with classic histology slides and state-of-the-art scanning electron microscopy, offering a clear, visual understanding of this complex subject.

Practical Histology Workbook

Author : **Garg K**
 ISBN : **9789347186929**
 Year : **2026**
 Binding : **Paperback**
 Pages : **152**
 Price : **Rs. 450.00** **4/e**

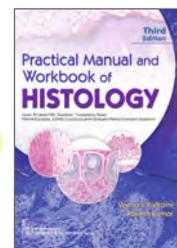

Product Description

Textbook of Histology (CBSPD), which has been thoroughly revised and updated including substantial addition of viva voce questions and answers in all the chapters. All the diagrams in the Workbook have been redrawn and greatly improved to match with those in the Textbook, chiefly the nuclei have been made more prominent.

Practical Manual and Workbook of
Histology

Author : **Veena V Kulkarni**
 ISBN : **9789354668890**
 Year : **2025**
 Binding : **Paperback**
 Pages : **208**
 Price : **Rs. 525.00** **3/e**

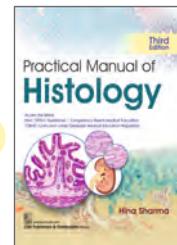

Product Description

- Covers all the histological slides included in latest NMC recommended CBME curriculum for MBBS students, along with the relevant competencies.
- Description of the slides has been included with relevant clinical anatomy related to each system.
- Key features of all the slides have been added in the book that would help the students in identifying the slides in a better way.

Practical Manual of
Histology

Author : **Sharma H.**
 ISBN : **9788199145610**
 Year : **2026**
 Binding : **Paperback** **3/e**
 Pages : **176**
 Price : **Rs. 495.00**

Product Description

Practical Manual of Histology As per the latest NMC (2024) Guidelines | Competency Based Medical Education (CBME) Curriculum under Graduate Medical Education Regulation latest CBME guidelines for the Indian Medical Graduate recommended by the National Medical Commission.

Basics of Human Genetics

Author : **Katira**
 ISBN : **9789386310682**
 Year : **2025**
 Binding : **Paperback**
 Pages : **224**
 Price : **Rs. 395.00**

2/e

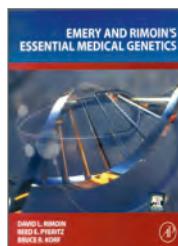

Product Description

Basics of Human Genetics is the thoroughly revised, updated, and enlarged edition of the popular textbook, designed to cater to the needs of all undergraduate students of medical, dental, nursing, and paramedical courses. The book follows a cohesive approach of illustration along with the basics of genetics on various relevant aspects like cytogenetics, molecular, biochemical, and clinical genetics, common genetic disorders, etc. to make students understand the important underlying concepts.

Emery & Rimoin's Essential Medical Genetics

Author : **Rimoin**
 ISBN : **9789351071501**
 Year : **2013**
 Binding : **Paperback**
 Price : **Rs. 2295.00**

Product Description

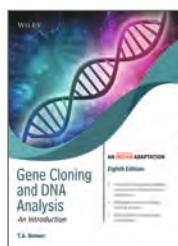

Emery and rimoin's essential medical genetics this book is very useful to get a thorough knowledge of medicine, human health, human anatomy and physiology. It is one of the best book for students in medical field.

Gene Cloning and DNA Analysis

An Introduction An Indian Adaptation

Author : **Brown T. A**
 ISBN : **9789354643644**
 Year : **2024**
 Binding : **Paperback**
 Pages : **472**
 Price : **Rs. 3195.00**

8/e

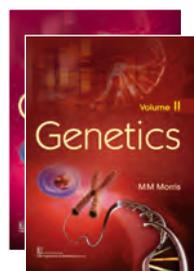

Product Description

Gene Cloning and DNA Analysis: An Introduction, Eighth Edition is a comprehensive and authoritative textbook that explores all of the topics crucial to an understanding of gene cloning in an approachable way. This Adapted Edition has been developed based on the detailed feedback obtained from long-standing users of the book about how the book should be revised. Building on the strength of the previous editions, the focus of this adaptation has been on strengthening the concept coverage.

Genetics

2 Vols. Set

Author : **Morris**
 ISBN : **9789389688559**
 Year : **2020**
 Binding : **Paperback**
 Pages : **488 + 512**
 Price : **Rs. 1250.00**

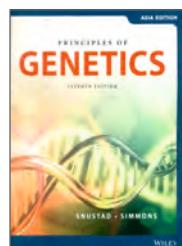

Product Description

Genetics is the study of genes. Genetics is about how and why physical characteristics, such as eye colour or height, passed on from one generation to another about how diseases and conditions can run in families the study of patterns in genetic information, such as the patterns used in DNA fingerprinting and profiling, thus genetics is about how variation occurs in and between animals, plants or humans. Genetics affects us all in many ways. Genetics can help us understand why people look the way they do and why some people are more prone to certain diseases than others. Genetics can help health-care professionals to identify certain conditions in babies before they are born using techniques such as prenatal testing. Genetic technologies are also being used to help develop targeted medicines for certain diseases.

Genetics

Author : **Snustad**
 ISBN : **9781119657552**
 Year : **2019**
 Binding : **Paperback**
 Pages : **656**
 Price : **\$ 49.95**

7/e

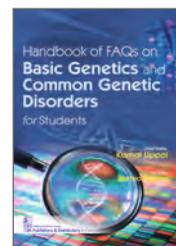

Product Description

Principles of Genetics is one of the most popular texts in use for the introductory course. It opens a window on the rapidly advancing science of genetics by showing exactly how genetics is done. Throughout, the authors incorporate a human emphasis and highlight the role of geneticists to keep students interested and motivated. The seventh edition has been completely updated to reflect the latest developments in the field of genetics. Principles of Genetics continues to educate today's students for tomorrow's science by focusing on features that aid in content comprehension and application. This text is an unbound, three hole punched version.

Handbook of Facts on Basic Genetics and Common Genetic Disorders for Students

Author : **Uppal K**
 ISBN : **9789390709892**
 Year : **2022**
 Binding : **Paperback**
 Pages : **432**
 Price : **Rs. 795.00**

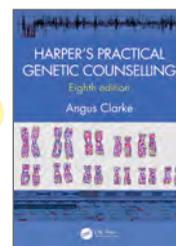

Product Description

This handy book aims to serve both undergraduate and postgraduate medical students in providing the essential knowledge of genetics and guidance in focused, pointed and systematic way for preparing the question-answers related to the genetics which are frequently asked in the examinations.

Harper's Practical Genetic Counselling

Author : **Clarke**
 ISBN : **9781444183740**
 Year : **2020**
 Binding : **Paperback**
 Pages : **542**
 Price : **£ 54.99**

8/e

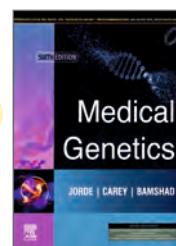

Product Description

Fully revised by its new author Angus Clarke, and with additional input from colleagues, this eighth edition provides indispensable and up-to-date guidance, helping readers to navigate the profusion of new information in this area and the associated psychosocial and ethical considerations and concerns. Maintaining the trusted framework of earlier editions, the update presents the latest information on the use and interpretation of genetic test results, including new genomebased investigations and their application in the genetic counselling process.

Medical Genetics

Author : **Jorde L.B.I**
 ISBN : **9788131273494**
 Year : **2025**
 Binding : **Paperback**
 Pages : **352**
 Price : **Rs. 3995.00**

6/e

Product Description

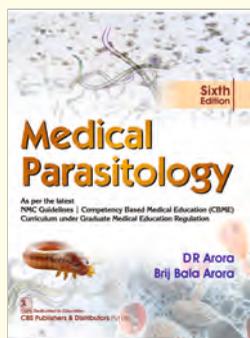

Up to date and extensively revised to reflect recent advances in the genetics of common diseases, as well as current progress in gene therapy, Medical Genetics, 6th Edition, delivers easy-to-read, highly visual coverage of this rapidly changing field. This accessible, practical text integrates key concepts with clinical practice, highlighted by numerous illustrations, tables, concept summaries, and more – all designed to enhance effective learning and retention of complex material.
