A Pattern Based Approach
Atlas of Lymph Node Pathology (SAE)

Author : **Duffield**
 ISBN : **9789348094223**
 Year : **2025**
 Binding : **Hardcover**
 Pages : **301**
 Price : **Rs. 22399.00**

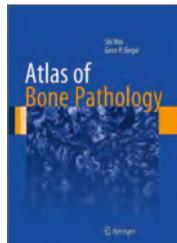

Product Description

Closely mirroring the daily sign-out process, Atlas of Lymph Node Pathology: A Pattern Based Approach is a highly illustrated, efficient guide to accurate diagnosis. This practical reference uses a proven, pattern-based approach to clearly explain how to interpret challenging cases by highlighting red flags in the clinical chart and locating hidden clues in the slides. Useful as a daily “scope-side guide,” it features numerous clinical and educational features that help you find pertinent information, reach a correct diagnosis, and assemble a thorough and streamlined pathology report.

- More than 1,500 high-quality photomicrographs depict reactive and neoplastic processes involving lymph nodes, capturing the full spectrum of morphologic changes associated with common abnormalities, including relatively rare conditions. Captions include a morphologic description, highlighting subtle features and key diagnostic considerations.
- Practical tools throughout the text include:
- Tables that emphasize salient clinicopathologic features, management implications, and therapeutic options

Atlas of Bone Pathology

Author : **Shi Wei**
 ISBN : **9781071648582**
 Year : **2024**
 Binding : **Hardcover**
 Pages : **590**
 Price : **€ 179.95**

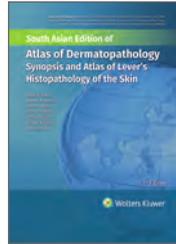

Product Description

- Bone is a living tissue prone to develop a diverse array of inflammatory, metabolic, genetic, reactive, circulatory and neoplastic abnormalities. The Atlas of Bone Pathology describes and selectively illustrates the normal and pathologic conditions that afflict human bone, focusing heavily on tumor and tumor-like conditions of bone and their non-neoplastic mimics. Supplemented with radiographic and special study images, this extraordinary collection of high quality digital images aid continuing efforts to recognize, understand, and accurately interpret the light microscopic findings in bone specimens..

Product Description

Handbook of Medical Laboratory Technology is the thoroughly revised, updated and enlarged edition of the essential text-resource, designed for the students of MLT courses, medical laboratory technicians, graduates, postgraduates, and allied health science students. It offers in-depth, structured coverage across critical medical disciplines, making it invaluable for both the academic study and professional application.

The book is systematically divided into four main sections:

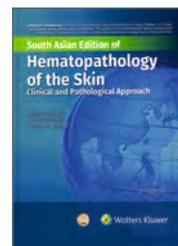

1. Hematology covered in 12 chapters
2. Body Fluids covered in 11 chapters
3. Microbiology organized into sub-sections A, B, C, and D, comprising 31 chapters
4. Immunology covered in 5 chapters

With a total of 59 chapters, this edition provides a comprehensive approach to interpretative pathology, supported by foundational principles and enhanced illustrations for better comprehension. This updated edition aims to assist students, educators, and clinicians in mastering the complexities of pathology in a clear and accessible format, making it a valuable reference for daily study and practice.

Cases in Haematology for The MLA and PLAB

Author : **Niblock A.**
ISBN : **9781032817576**
Year : **2025**
Binding : **Paperback**
Pages : **165**
Price : **£ 26.99**

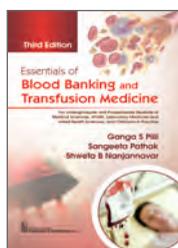

Product Description

A solid grounding in and understanding of haematology is crucial for any doctor. The pathophysiology is fascinating, and the pharmacology is rapidly advancing, improving prognosis across many haematological conditions. Getting to grips with its fundamentals will stand any medical student in good stead during undergraduate studies and on into clinical practice. This book utilises single best answer-style questions in the popular MasterPass series of revision aids, covering the haematology presentations and conditions listed in the Medical Licensing Assessment content map, making it ideal for MLA preparation and a useful case-based learning resource for any medical student working towards qualifying examinations.

Essentials of Blood Banking and Transfusion Medicine

Author : **Ganga S Pilli**
ISBN : **9789354669071**
Year : **2025**
Binding : **Paperback**
Pages : **248**
Price : **Rs. 495.00**

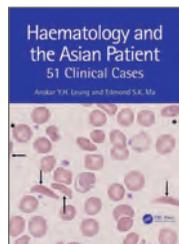

Product Description

Essentials of Blood Banking and Transfusion Medicine is comprehensively written and compiled to cover diverse topics in blood banking and transfusion medicine. The authors have dealt with the subject keeping in mind the necessary material concerning both theory and practical aspects required for the postgraduate students of pathology, clinical students who utilize blood, clinicians, MBBS students, students of alternative system of medicine, diploma and laboratory technology students and nursing staff who work with blood transfusion. The book is helpful for the readers to develop management skills and in-depth knowledge for smooth functioning of the blood bank and transfusion services. An effort is made to give at a glance the principles and practice of blood banking as it may be difficult for the readers to go through the voluminous books in transfusion medicine. The book has 24 chapters covering important topics including recent advances, convalescent plasma and haemovigil solutions.

Haematology and The Asian Patient 51 Clinical Cases

Author : **Leung**
ISBN : **9781032351254**
Year : **2024**
Binding : **Paperback**
Pages : **248**
Price : **£ 63.99**

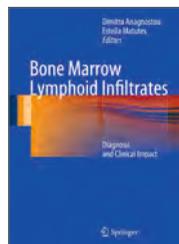

Product Description

Haematology encompasses a broad range of topics ranging from common and relatively benign conditions such as iron deficiency anaemia, hereditary diseases such as thalassaemia, to haematological malignancies that are often life-threatening. Burgeoning information arising from technological advances in recent years has made these subjects particularly challenging for medical students and non-specialist medical practitioners. This book aims to highlight the pathophysiology, clinical presentations and basic principles in the investigations and managements of haematological diseases that are prevalent in Asia. Each chapter begins with a real-case clinical scenario, followed by a set of questions and is complemented by photomicrographs, data charts and illustrations. Readers will have a grasp of the basic knowledge in haematology and the book will be a useful reference in their academic study and clinical encounters.

Bone Marrow Lymphoid Infiltrates: Diagnosis and Clinical Impact

Author : **Anagnostou D**
ISBN : **9781447175810**
Year : **2020**
Binding : **Hardcover**
Pages : **285**
Price : **£ 129.95**

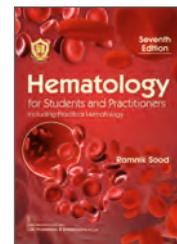

Product Description

Bone Marrow Lymphoid Infiltrates: Diagnosis and Clinical Impact, describes the art of evaluating bone marrow lymphoid infiltrates in the context of their broad spectrum of normal, reactive and malignant status. Reference to the pathogenesis, clinical presentation and outcome complements the diagnostic parameters in each lymphoid disease entity. Physiological lymphoid development, microenvironmental factors and aging changes are unfolded in relation to their influential role in normal and pathological lymphoid conditions. The basic principles and gold standards that should govern a biopsy sample are given in detail, while the establishment of modern techniques is described in terms of their applicability, drawbacks and perspectives.

 Price : **Rs. 3495.00**

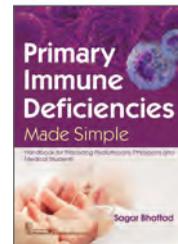

Product Description

Pediatric immunological disorders are not uncommon in children, most of them are not diagnosed and managed properly timely fashion in developing countries like India. This is an honest attempt to provide the reader with an overview in most of the aspects of pediatric clinical immunology, basic sciences, clinical clues, diagnostics, therapeutics, socio-economic.

Primary Immune Deficiencies

Made Simple Handbook For Practicing Pediatricians Physicians and Medical Students

Author : **Bhattad S**
 ISBN : **9789390158966**
 Year : **2021**
 Binding : **Paperback**
 Pages : **176**
 Price : **Rs. 695.00**

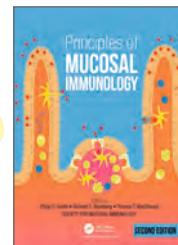

Product Description

Primary immune Deficiencies Made Simple is a compilation of real-life cases and the book makes an attempt to bring the science of immunology and primary immune deficiencies from 'bench to bedside'. Case-based learning, clinical algorithms, age-norms for immunoglobulins and lymphocyte subsets, and description of common immune deficiencies in an easy to understand format are the unique features of this book. Written by a young and dynamic pediatric immunologist, this book will serve as a ready reckoner for the pediatric trainees.

Principles of Mucosal Immunology

Author : **Smith P.D.**
